Tentang Laporan

About the Report

PT Bank Mega Syariah (untuk selanjutnya disebut "BMS" atau "Bank") berkomitmen untuk meningkatkan transparansi dalam aspek keberlanjutan. Setiap tahun, Perusahaan menerbitkan Laporan Keberlanjutan sebagai bentuk kepatuhan terhadap Peraturan Otoritas Jasa Keuangan (POJK) Nomor 51/POJK.03/2017 tentang Keuangan Berkelanjutan.

Laporan Keberlanjutan Tahun 2024 merupakan penerbitan laporan yang keempat kalinya, diterbitkan bersamaan dengan Laporan Tahunan pada 21 April 2025. Melalui laporan ini, Perusahaan menyampaikan komitmen dan kontribusinya dalam mendukung Tujuan Pembangunan Berkelanjutan (*Sustainable Development Goals/SDGs*) selama periode 1 Januari - 31 Desember 2024, mencakup data pada kantor pusat BMS. Pada laporan ini, terdapat informasi yang disajikan kembali, dengan detail tertera pada data yang dimaksud. [GRI 2-2, 2-3, 2-4]

Data keuangan pada laporan ini disajikan dalam denominasi Rupiah dan mengikuti Standar Akuntansi Keuangan Indonesia (PSAK), sementara data keberlanjutan menggunakan metode pengukuran internasional. Laporan ini disusun dengan mengacu pada Surat Edaran OJK (SEOJK) Nomor 16/SEOJK.04/2021 dan GRI Standards Universal 2021, serta disajikan dalam Bahasa Indonesia dan Bahasa Inggris. Pada laporan ini, kami belum melakukan verifikasi oleh pihak ketiga independen namun seluruh informasi telah melalui pemeriksaan tim internal dan mendapatkan persetujuan Direktur Utama. [GRI 2-5]

Kami mempersilakan para pemangku kepentingan untuk mengakses dan mengunduh laporan keberlanjutan melalui situs www.megasyariah.co.id. Untuk peningkatan kualitas pelaporan di masa mendatang, kami menyambut baik komentar, ide dan umpan balik dari para pemangku kepentingan demi perbaikan kualitas laporan tahun berikutnya. Tanggapan dan masukan dapat disampaikan kepada kami melalui: [GRI 2-3]

PT Bank Mega Syariah (hereinafter referred to as "BMS" or "Bank") is committed to increasing transparency in sustainability aspects. Every year, the Company publishes a Sustainability Report as a form of compliance with the Financial Services Authority Regulation (POJK) Number 51/POJK.03/2017 concerning Sustainable Finance.

The 2024 Sustainability Report is the fourth report publication, published together with the Annual Report on April 21, 2025. Through this report, the Company conveys its commitment and contribution in supporting the Sustainable Development Goals (SDGs) during the period January 1 - December 31, 2024, including data at the BMS head office. This report contains restated information, with details provided in the relevant data section. [GRI 2-2, 2-3, 2-4]

The financial data in this report is presented in Rupiah (IDR) denominations and follows the Indonesian Financial Accounting Standards (PSAK), while sustainability data uses international measurement methods. This report is prepared with reference to OJK Circular Letter (SEOJK) Number 16/SEOJK.04/2021 and GRI Standards Universal 2021, and is presented in Indonesian and English. In this report, we have not been verified by an independent third party, but all information has been checked by an internal team and has received approval from the President Director. [GRI 2-5]

We invite stakeholders to access and download the sustainability report through the website www.megasyariah.co.id. To improve the quality of reporting in the future, we welcome comments, ideas and feedback from stakeholders to improve the quality of the following year's report. Responses and input can be submitted to us through: [GRI 2-3]

Topik Material

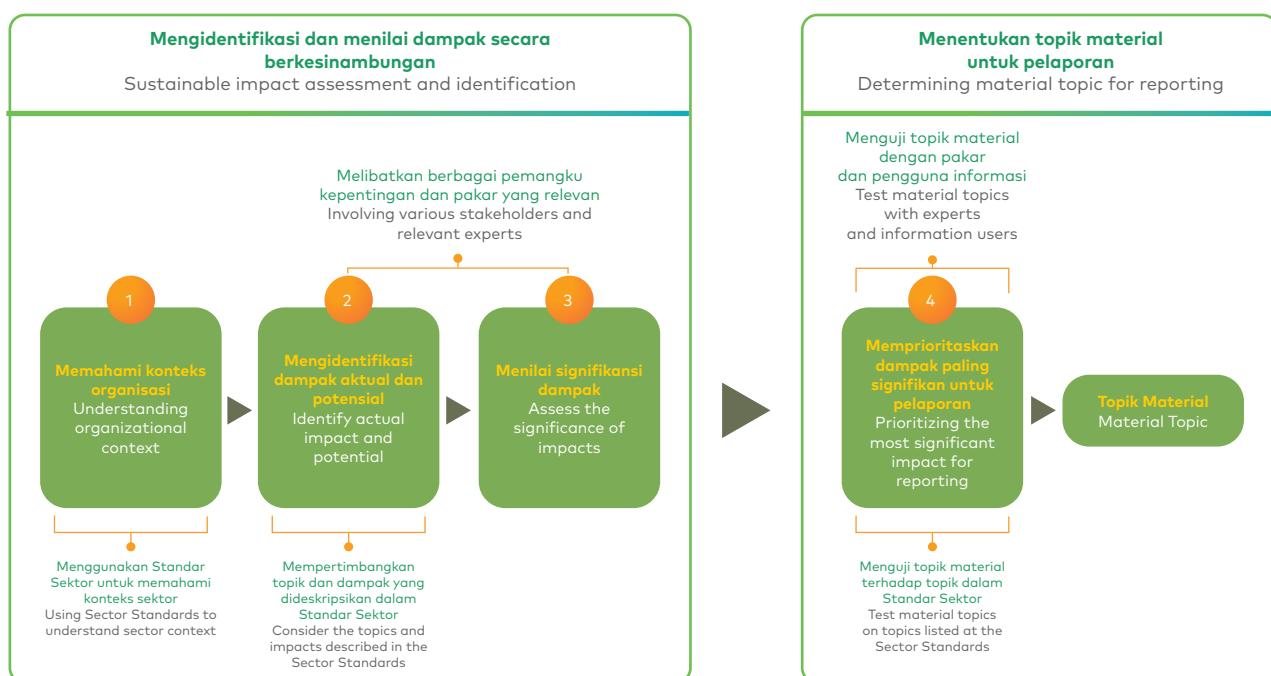

Material Topics

Topik material pada laporan tahun ini tidak mengalami perubahan dibandingkan tahun sebelumnya, berdasarkan peninjauan yang kami lakukan pada awal tahun 2025 melalui diskusi dengan pemangku kepentingan internal maupun eksternal. Peninjauan dilakukan untuk mengidentifikasi serta menilai dampak secara berkelanjutan, sekaligus memastikan bahwa topik material yang disajikan dalam laporan ini mencerminkan dampak paling signifikan selama periode pelaporan.

[GRI 3-1]

The material topics in this year's report have not changed compared to the previous year, based on a review we conducted in early 2025 through discussions with internal and external stakeholders. The review was conducted to identify and assess impacts on an ongoing basis, while ensuring that the material topics presented in this report reflect the most significant impacts during the reporting period. [GRI 3-1]

Proses untuk Menentukan Topik Material
Process for Determining Material Topics

Berdasarkan proses penentuan topik material yang melibatkan seluruh pemangku kepentingan, berikut ini daftar topik material Bank.

Daftar Topik Material [GRI 3-2]

| Topik Material Material Topics | Pengungkapan Indeks GRI Disclosure GRI Index | Batasan Topik Topic Limitations | |
|--|---|------------------------------------|--------------------------------|
| | | Di Dalam Perusahaan Internal | Di Luar Perusahaan External |

Penjelasan Direksi [OJK D.1]

Message from the Board of Directors

“

Di tengah ketidakpastian perekonomian yang menjadi tantangan bagi pencapaian SDGs, kami bersyukur Bank Mega Syariah mampu menyalurkan pembiayaan untuk Kegiatan Usaha Berwawasan Lingkungan (KUBL) sebesar Rp1,14 triliun, atau 14,73% dari total portofolio pembiayaan, melampaui target 10% yang ditetapkan.

Amidst the economic uncertainty that is a challenge for achieving the SDGs, we are grateful that Bank Mega Syariah was able to distribute financing for Sustainable Business Activities (KUBL) a total of IDR1.14 trillion, or 14.73% of the total financing portfolio, surpassing the 10% target that was set.

”

Yuwono Waluyo
Direktur Utama
President Director

Assalamualaikum Warohmatullahi Wabarakatuh

Bismillaahirrohmaanirrohiim

**Alhamdulillaahi Rabbil 'Aalamin, Wa Shalatu Wa Salamu 'Ala Nabiyyina Muhammad,
Wa 'Ala Aalihi Wa Shahbihi Wa Sallam, Amma Ba'du.**

Para Pemegang Saham dan Pemangku Kepentingan yang Terhormat,

Segala puji bagi Allah SWT, Tuhan Semesta Alam, atas limpahan rahmat dan karunia-Nya sehingga PT Bank Mega Syariah dapat melalui tahun 2024 dengan baik. Di tengah ketidakpastian global yang masih membayangi berbagai sektor, termasuk perbankan, Bank tetap menunjukkan komitmen kuat mendukung Tujuan Pembangunan Berkelanjutan atau *Sustainable Development Goals* (SDGs) melalui berbagai langkah strategis.

Laporan Keberlanjutan ini disusun sebagai bentuk akuntabilitas atas strategi dan kinerja keberlanjutan Bank sepanjang tahun 2024. Lebih dari itu, laporan ini juga menjadi bagian dari dokumentasi perjalanan kami dalam mewujudkan visi dan misi perusahaan, dengan menanamkan nilai-nilai keberlanjutan dalam seluruh aktivitas operasional.

Perkembangan Capaian SDGs

Kami menyadari bahwa dunia saat ini menghadapi tantangan besar dalam mewujudkan tujuan pembangunan berkelanjutan. Laporan SDGs 2024 yang dirilis oleh Perserikatan Bangsa-Bangsa (PBB) menunjukkan bahwa pencapaian target SDGs 2030 masih jauh dari harapan. Dari total 169 target, lebih dari setengahnya menunjukkan kemajuan yang lambat, stagnan, atau bahkan mengalami kemunduran. Tanpa percepatan yang nyata, diperkirakan sekitar 590 juta orang masih akan hidup dalam kemiskinan ekstrem pada tahun 2030.

Di Indonesia, pencapaian SDGs secara umum menunjukkan hasil yang positif. Menurut data Kementerian PPN/Bappenas, sebanyak 62,5% dari 222 indikator SDGs nasional telah berada di jalur yang tepat (*on track*). Tingkat kemiskinan menurun, menjadi 8,57% pada September 2024 yang merupakan level terendah sepanjang sejarah. Badan Pusat Statistik (BPS) mengungkap, lebih dari satu juta orang berhasil keluar dari kemiskinan dalam enam bulan terakhir. Perekonomian Indonesia pun masih terbilang tangguh di tengah dinamika ekonomi global, suku bunga tinggi, hingga transisi politik yang memperkuat ketidakpastian. Pertumbuhan ekonomi nasional tercatat 5,03%, sedikit melambat dari tahun sebelumnya sebesar 5,02%.

Dear Shareholders and Stakeholders,

All praise be to Allah SWT, the Lord of the Universe, for the abundance of His grace and gifts so that PT Bank Mega Syariah can successfully navigate 2024. Amidst the global uncertainty that still looms over various sectors, including banking, the Bank continues to demonstrate a strong commitment to supporting the Sustainable Development Goals (SDGs) through various strategic steps.

This Sustainability Report is prepared as a form of accountability for the Bank's sustainability strategy and performance throughout 2024. Moreover, this report is also part of the documentation of our journey in realizing the company's vision and mission, by instilling sustainability values in all operational activities.

SDGs Achievement Progress

We are aware of the significant challenges that the world is currently facing in achieving the goals of sustainable development. According to the United Nations' (UN) 2024 SDGs Report, the 2030 SDGs targets have not yet been met to standards. More than half of the 169 targets exhibit slow development, inertia, or even regression. It is predicted that, without real acceleration, 590 million people would still be living in extreme poverty in 2030.

In Indonesia, the achievement of the SDGs has generally shown positive results. According to data from the Ministry of PPN/Bappenas, 62.5% of the 222 national SDG indicators are on track. In September 2024, the poverty rate dropped to its lowest level ever in history—8.57%. The Central Statistics Agency (BPS) revealed that more than one million people managed to escape poverty in the last six months. The Indonesian economy is still relatively resilient amidst global economic dynamics, high interest rates, and political transitions that increase uncertainty. National economic growth was recorded at 5.03%, slightly slowing from the previous year of 5.02%.

Namun demikian, ketimpangan ekonomi masih menjadi tantangan, terlihat dari naiknya rasio gini dari 0,379 pada Maret menjadi 0,381 pada September 2024. Meskipun terkesan kecil, kenaikan ini mencerminkan persoalan struktural serius dalam distribusi kesejahteraan. Hal ini diperkuat oleh data BPS yang menunjukkan pergeseran kelompok masyarakat. Populasi kelas menengah menurun bertahap sejak pandemi Covid-19, dari 57,33 juta orang menjadi 47,85 juta orang pada 2024.

Sementara jumlah masyarakat rentan miskin meningkat dari 54,97 juta orang pada 2019 atau 20,56%, menjadi 67,69 juta orang atau 24,23% dari total penduduk pada 2024. Kelompok ini rentan dari kondisi eksternal seperti kecelakaan, PHK massal, ataupun kejadian tidak terduga lainnya. Di samping itu, ancaman krisis iklim hingga degradasi lingkungan turut menjadi risiko yang dapat mengganggu stabilitas sistem keuangan.

Situasi tersebut tentu membutuhkan kontribusi aktif dari berbagai pihak, termasuk perbankan. Melalui fungsi intermediasi dan alokasi pembiayaan, perbankan termasuk Bank Mega Syariah, memiliki potensi strategis untuk mengarahkan pembiayaan ke sektor-sektor yang memberikan dampak positif bagi masyarakat dan lingkungan.

Dukungan BMS untuk Keuangan BerkelaJutan

Sejak 1 Januari 2020, Bank sebagai Kelompok Bank Berdasarkan Modal Inti 1 telah menerapkan keuangan berkelanjutan, sebagaimana diamanatkan Peraturan Otoritas Jasa Keuangan Nomor 51/POJK.03/2017 mengenai Penerapan Keuangan BerkelaJutan Bagi Lembaga Jasa Keuangan, Emiten, dan Perusahaan Publik. Dalam perjalanan yang masih singkat ini, kami memahami tantangan yang tak mudah, baik di sisi internal maupun eksternal.

Secara internal, tantangan utama terletak pada penguatan kapasitas sumber daya manusia, khususnya dalam memahami konsep dan praktik keuangan berkelanjutan yang masih tergolong baru dan terus berkembang. Keterbatasan pemahaman ini berdampak pada konsistensi pelaksanaan program dan integrasi keberlanjutan ke dalam proses bisnis. Selain itu, infrastruktur pendukung, termasuk sistem pelaporan dan pemantauan portofolio keberlanjutan, juga masih perlu ditingkatkan agar selaras dengan standar pelaporan nasional dan global.

However, the Gini ratio increased from 0.379 in March to 0.381 in September 2024, indicating that economic inequality is still a problem. Despite its seeming modest size, this increase indicates significant structural issues with the welfare system. This is reinforced by BPS data showing a shift in community groups. Since the Covid-19 pandemic, the number of middle-class population has steadily decreased, falling from 57.33 million to 47.85 million people in 2024.

In the meantime, the proportion of the population that is vulnerable to poverty has grown from 54.97 million in 2019 (20.56%) to 67.69 million people in 2024 (24.23%). This group is vulnerable to outside factors like accidents, mass layoffs, or unexpected events. Furthermore, the threat of climate crisis to environmental degradation is also a risk that can disrupt the stability of the financial system.

This situation certainly requires active contributions from various parties, including banking. Through the function of intermediation and financing allocation, banking, including Bank Mega Syariah, has the strategic potential to direct financing to sectors that have a positive impact on society and the environment.

BMS Support for Sustainable Finance

Since January 1, 2020, the Bank as a Bank Group Based on Core Capital 1 has implemented sustainable finance, as mandated by Financial Services Authority Regulation Number 51/POJK.03/2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies. In this short journey, we understand the challenges that are not easy, both internally and externally.

Internally, strengthening human resource capacity is the primary challenge, particularly with regard to comprehending the concept and practice of sustainable finance, which is still relatively new and continually developing. The integration of sustainability into business operations and the consistency of program implementation are impacted by this insufficient understanding. Furthermore, supporting infrastructure, such as the sustainability portfolio reporting and monitoring system also needs to be enhanced in order to comply with national and international reporting standards.

Sementara dari sisi eksternal, Bank dihadapkan pada tantangan makroekonomi, seperti kenaikan suku bunga global, tekanan nilai tukar rupiah, ancaman inflasi, dan ketegangan geopolitik, yang dapat memengaruhi stabilitas pembiayaan dan preferensi pasar. Di luar itu, tantangan juga datang dari nasabah atau perusahaan yang dibiayai, di mana masih banyak yang belum memiliki kesadaran, kapasitas, maupun data yang memadai terkait penerapan prinsip-prinsip keberlanjutan dalam operasional mereka. Hal ini menyulitkan proses penilaian dan verifikasi atas kesesuaian kegiatan usaha debitur dengan Kategori Usaha BerkelaJutan (KUB).

Untuk menjawab tantangan tersebut, Bank perlu terus memperkuat kapasitas internal, meningkatkan literasi keberlanjutan, serta mendorong sinergi dengan debitur dan pemangku kepentingan lainnya dalam membangun pemahaman dan komitmen bersama terhadap keuangan berkelanjutan.

Kebijakan Merespons Tantangan Keuangan BerkelaJutan

Merespons berbagai tantangan dan dinamika eksternal, Direksi menetapkan bahwa strategi keberlanjutan BMS harus mengedepankan pendekatan yang adaptif, kolaboratif, dan terukur. Strategi keberlanjutan kami berlandaskan pada visi dan misi yang telah dijalankan secara konsisten dari tahun ke tahun.

Visi Keberlanjutan kami merupakan perluasan dari visi utama Bank, yakni "Tumbuh dan Sejahtera Bersama Bangsa", menjadi "Tumbuh Bersama Bangsa dengan berkontribusi dalam pembangunan berkelanjutan". Visi ini mencerminkan keyakinan kami bahwa keberlangsungan usaha hanya dapat dicapai apabila kami turut berperan aktif dalam mendorong pembangunan yang berkeadilan, inklusif, dan berkelanjutan bagi seluruh masyarakat.

Sementara misi keberlanjutan kami mencakup pengembangan ekonomi syariah yang memberikan nilai tambah bagi seluruh pemangku kepentingan, menyebarkan nilai kebaikan Islami yang selaras dengan prinsip *Prosperity, People, Planet*; serta memastikan layanan yang inklusif dan berkelanjutan bagi seluruh lapisan masyarakat.

Nilai-nilai tersebut merupakan fondasi penerapan strategi lima tahun kami menerapkan keuangan berkelanjutan, yang dijalankan melalui empat pilar utama:

In the meantime, externally, the Bank faces macroeconomic concerns that can impact market preferences and finance stability, these include rising global interest rates, pressures on the Indonesian rupiah exchange rate, inflation risks, and geopolitical tensions. Beyond that, challenges also come from customers or financed companies, where many still do not have adequate awareness, capacity, or data related to the application of sustainability principles in their operations. This complicates the assessment and verification process of the suitability of debtors' business activities with the Sustainable Business Category (KUB/Green Taxonomy).

In order to address these challenges, the Bank must keep enhancing its internal capabilities, raising awareness of sustainability, and fostering collaboration with debtors and other stakeholders to create a common understanding and commitment to sustainable financing.

Policy Responding to Sustainable Finance Challenges

In response to various external challenges and dynamics, the Board of Directors has determined that BMS' sustainability strategy must prioritize an adaptive, collaborative, and measurable approach. Our sustainability strategy is based on a vision and mission that has been implemented consistently from year to year.

Our Sustainability Vision is an extension of the Bank's main vision, that is "Grow and Prosper Together with the Nation", to "Grow Together with the Nation by Contributing to Sustainable Development". This vision reflects our belief that business sustainability can only be achieved if we actively participate in encouraging equitable, inclusive, and sustainable development for the entire community.

Meanwhile, our sustainability mission includes developing a sharia economy that provides added value for all stakeholders, spreading Islamic values that are in line with the principles of Prosperity, People, Planet; and ensuring inclusive and sustainable services for all levels of society.

These values serve as the cornerstone of our five-year strategy for implementing sustainable finance, which is carried out through four main pillars:

1. Peningkatan Kapasitas SDM

Membangun pemahaman yang setara di seluruh lini organisasi mengenai konsep, kriteria, dan peluang kegiatan usaha berkelanjutan, termasuk pengelolaan risiko dan potensi bisnis berbasis prinsip keuangan berkelanjutan.

2. Penguatan Struktur dan Sistem

Menyesuaikan fungsi organisasi, kebijakan, SOP, sistem pelaporan, dan proses analisis pembiayaan dengan integrasi aspek sosial dan lingkungan dalam manajemen risiko serta peningkatan portofolio pada 12 kategori Kegiatan Usaha Berkelanjutan (KUB).

3. Implementasi Bertahap dan Terukur

Menetapkan prioritas program kerja secara bertahap, realistik, dan objektif untuk mencapai keseimbangan antara kapasitas internal dan target kualitas serta kuantitas pelaksanaan.

4. Pengelolaan Risiko dan Kontribusi Ekonomi

Menjaga kualitas portofolio pembiayaan berkelanjutan melalui pengawasan dan mitigasi risiko, sekaligus memastikan kontribusi berkelanjutan terhadap pendapatan dan stabilitas ekonomi Bank.

Kami percaya bahwa keberlanjutan adalah proses jangka panjang yang perlu dijalankan secara konsisten melalui pelibatan seluruh elemen organisasi. Bank juga aktif menyelaraskan kebijakan internal dengan regulasi OJK serta dinamika global terkait keuangan berkelanjutan Pimpinan perusahaan, dalam hal ini Direksi, secara aktif memantau pelaksanaan strategi keberlanjutan melalui forum Komite Manajemen Risiko. Komitmen ini juga diwujudkan dalam pelibatan lintas unit kerja dalam program-program edukasi, penguatan tata kelola internal, serta pengembangan ekosistem produk syariah berbasis keberlanjutan.

Implementasi dan Kinerja Keberlanjutan 2024

Kami terus memperkuat landasan implementasi keuangan berkelanjutan melalui penyusunan dan pembaruan kebijakan internal. Bank telah memiliki ketentuan mengenai keuangan berkelanjutan yang diperbarui melalui SE 074/DIRBMS/22, diterbitkan pada 29 September 2022. Surat edaran ini menjadi pedoman utama dalam pelaksanaan keuangan berkelanjutan di lingkungan BMS, dengan mengatur secara rinci tugas dan tanggung jawab setiap unit kerja sesuai kondisi, karakteristik, dan skala usaha BMS.

1. Increasing Human Resources Capacity

Building an equal understanding across all lines of the organization regarding the concept, criteria, and opportunities for sustainable business activities, including risk management and business potential based on sustainable finance principles.

2. Strengthening Structures and Systems

Adjusting organizational functions, policies, SOPs, reporting systems, and financing analysis processes with the integration of social and environmental aspects in risk management and increasing the portfolio in 12 categories of Sustainable Business Activities (KUB).

3. Gradual and Measurable Implementation

Setting work program priorities in stages, realistically, and objectively to achieve a balance between internal capacity and quality and quantity targets for implementation.

4. Risk Management and Economic Contribution

Maintaining the quality of the sustainable financing portfolio through risk monitoring and mitigation, while ensuring sustainable contributions to the Bank's income and economic stability.

We consider sustainability to be a long-term process that requires constant implementation by all the elements of the organization. Additionally, the Bank regularly aligns its internal policies with OJK regulations and global sustainable finance dynamics. Through the Risk Management Committee forum, the company's leadership—in this case, the Board of Directors—actively monitors the implementation of sustainability strategies. This commitment is also manifested in cross-work unit involvement in educational programs, strengthening internal governance, and developing a sustainability-based sharia product ecosystem.

Sustainability Implementation and Performance 2024

We keep strengthening the framework for putting sustainable financing into practice. By creating and revising internal policies. On September 29, 2022, the Bank released Circular Letter No. 074/DIRBMS/22, which updated its provisions regarding sustainable finance. By precisely defining the roles and responsibilities of every work unit in accordance with the circumstances, traits, and size of the BMS business, this circular letter serves as the primary guideline for implementing sustainable finance in the BMS environment.

Pada tahun 2024, kami melakukan penyesuaian Pedoman Pembiayaan Produktif melalui SE 031/DIRBMS/24 tertanggal 16 April 2024, yang memasukkan kriteria calon nasabah dalam Kategori Usaha Berkelanjutan (KUB) sebagai bagian dari proses pembiayaan.

Berlandaskan kebijakan tersebut, BMS tetap mampu mencatatkan kinerja positif di tengah ketidakpastian ekonomi global dan nasional. Portofolio pembiayaan pada Kegiatan Usaha Berwawasan Lingkungan (KUBL) mencapai Rp1,14 triliun, meningkat 15,81% dari tahun 2023 sebesar Rp987,16 miliar. Secara proporsional, pembiayaan KUBL telah mencapai 14,73% dari total pembiayaan, melampaui target 10% dari total portofolio pembiayaan, mencerminkan komitmen BMS dalam mendorong sektor usaha yang ramah lingkungan dan berdampak sosial.

Secara keseluruhan, BMS menyalurkan pembiayaan sebesar Rp7,76 triliun, dengan rasio kecukupan modal (CAR) mencapai 28,80%, jauh di atas batas minimum 9%. Tingkat NPF tetap terkendali di level 0,91%. Dari sisi pendanaan, total Dana Pihak Ketiga meningkat menjadi Rp11,04 triliun, ditopang oleh pertumbuhan giro yang mencapai Rp2,04 triliun. Di tengah kondisi ekonomi yang menantang, BMS berhasil membukukan laba bersih sebesar Rp253,19 miliar. Capaian ini mencerminkan bahwa kinerja bisnis BMS tetap sehat dan berkelanjutan, sehingga Bank dapat terus menjaga komitmen dalam mendistribusikan nilai ekonomi secara optimal kepada seluruh pemangku kepentingan.

Pada aspek lingkungan, kami terus berupaya mengoptimalkan produk digital ramah lingkungan seperti aplikasi *mobile banking* M-Syariah dan *e-Statement*, sekaligus memperluas kebijakan *paperless*, digitalisasi transaksi, serta efisiensi konsumsi energi di kantor pusat. Selama tahun 2024, operasional Bank menghasilkan intensitas emisi gas rumah kaca yang semakin membaik, dari 0,21 kgCO₂e per pembiayaan yang disalurkan menjadi 0,19. Selain itu Bank juga melaporkan emisi GRK (Cakupan 3) tidak langsung yang bersumber dari aktivitas bisnis debitur yang dibiayai. Pelaporan ini mencakup sekitar 50% dari total debitur Bank, dengan pendekatan metode *proxy* bagi perusahaan yang belum memiliki data atau publikasi emisi.

Pada aspek sosial, kami terus memperkuat kapasitas karyawan sebagai bagian dari prioritas strategi keberlanjutan BMS, antara lain melalui pelatihan keuangan berkelanjutan, program efisiensi ramah

In 2024, we adjusted the Productive Financing Guidelines through Circular Letter No. 031/DIRBMS/24 dated April 16, 2024, which included the criteria for prospective customers in the Sustainable Business Category (KUB) as part of the financing process.

Based on this policy, BMS was still able to record positive performance amidst global and national economic uncertainty. The financing portfolio in the Sustainable Business Activities (Green Taxonomy) reached IDR1.14 trillion, an increase of 15.81% from 2023 of IDR987.16 billion. Proportionally, KUBL financing has reached 14.73% of total financing, exceeding the target of 10% of the total financing portfolio, reflecting BMS's commitment to encouraging environmentally friendly and socially impactful business sectors.

Overall, BMS has disbursed IDR7.76 trillion in financing, and its capital adequacy ratio (CAR) is 28.80%, which is significantly above than the 9% minimum limit. The NPF level remains under control at 0.91%. In terms of funding, total Third Party Funds increased to IDR11.04 trillion, supported by growth in current accounts reaching IDR2.04 trillion. Amidst challenging economic conditions, BMS recorded a net profit of IDR253.19 billion despite difficult economic conditions. This accomplishment shows that BMS's business performance is still strong and sustainable, allowing the Bank to keep up its commitment to as efficiently as possible distributing economic value to all stakeholders.

In terms of the environment, we continue to strive to launch environmentally friendly digital products such as M-Syariah Mobile Banking and e-Statements, while expanding paperless policies, transaction digitalization, and energy consumption efficiency at the head office. During 2024, the Bank's operations resulted in an increasing intensity of greenhouse gas emissions, from 0.21 kgCO₂e per financing channeled to 0.19. In addition, the Bank also reports indirect GHG emissions (Scope 3) originating from the business activities of financed debtors. This reporting covers around 50% of the Bank's total debtors, with a proxy method approach for companies that do not yet have emission data or publications.

In terms of the social aspect, we keep enhancing employee capabilities as part of BMS's sustainability strategy priorities. This includes training in sustainable finance, eco-friendly efficiency programs, and

lingkungan, serta kampanye budaya keberlanjutan di seluruh kantor cabang. Program ini merupakan kelanjutan dari inisiatif tahun sebelumnya untuk menjaga dan meningkatkan kompetensi serta kesadaran seluruh insan BMS. Bagi masyarakat, BMS aktif menjalankan program Tanggung Jawab Sosial dan Lingkungan (TJS). Program kami ditujukan untuk menciptakan dampak nyata yang berkelanjutan bagi masyarakat dan lingkungan, khususnya dalam mendukung agenda pembangunan berkelanjutan (SDGs). Sepanjang 2024, BMS fokus pada empat bidang utama TJS, yaitu pendidikan, kesehatan, pemberdayaan masyarakat, serta kegiatan sosial dan keagamaan, yang dilaksanakan melalui sinergi dengan berbagai pihak, baik pemerintah maupun lembaga swasta. BMS telah menyalurkan program ZISWAF untuk mendukung layanan kesehatan masyarakat, bantuan pendidikan, penyediaan ambulans gratis, hingga perbaikan sanitasi di sekolah-sekolah. Dengan pendekatan ini, BMS turut serta mempersempit kesenjangan sosial, memperkuat ketahanan komunitas, dan membangun masa depan yang lebih baik bagi seluruh lapisan masyarakat.

Strategi Pencapaian Keberlanjutan di Masa Depan

Memasuki tahun 2025, BMS menetapkan arah strategis keberlanjutan yang tidak hanya berfokus pada pertumbuhan, tetapi juga memperkuat ketahanan jangka panjang. Strategi ini dirancang secara menyeluruh dengan mengintegrasikan prinsip keberlanjutan ke dalam tiga pilar utama. Pertama, penguatan manajemen risiko keberlanjutan, yang dilakukan dengan menyaring pembiayaan agar sesuai dengan kriteria risiko (*risk acceptance criteria*) yang mendukung sektor berkelanjutan, penyesuaian dokumen serta analisis pembiayaan berbasis ESG, dan pemantauan portofolio Kategori Usaha Berkelanjutan (KUBL) secara berkala oleh unit terkait.

Kedua, pemanfaatan peluang dan ekspansi produk, melalui optimalisasi layanan digital seperti aplikasi M-Syariah, CMS, dan *Virtual Account*, serta memperluas strategi *Business to Business to Consumer* (B2B2C) guna menjangkau komunitas nasabah korporasi. Di sisi lain, BMS juga mendorong pertumbuhan pendapatan berbasis komisi (*fee-based income*) dari produk digital, reksa dana, dan *bancassurance*.

Ketiga, dalam merespons dinamika eksternal, BMS mencermati pelemahan ekonomi global, fluktuasi suku bunga, serta ancaman krisis iklim sebagai faktor

sustainability culture campaigns at every branch office. This program continues the initiative that was started last year to maintain and improve the competency and expertise of all BMS employees. For the community, BMS actively manages the Social and Environmental Responsibility (TJS) project. Our program aims to create a real sustainable impact on the environment and society and especially to support the Sustainable Development Goals (SDGs) agenda. Throughout 2024, BMS focused on four primary CSR areas: education, health, community empowerment, and social and religious activities, which were carried out in collaboration with a variety of stakeholders, including both government and private organizations. The ZISWAF program has been disbursed by BMS to support public health services, educational aid, free ambulances, and school sanitary improvements. By using this approach, BMS contributes to reducing social divides, enhancing community resilience, and creating a brighter future for all societal levels.

Sustainability Achievement Strategy in the Future

Entering 2025, BMS has established a strategic direction for sustainability that emphasizes not only on growth but also enhancing long-term resilience. This strategy is designed comprehensively by incorporating sustainability principles into three key pillars. First, improving sustainability risk management through the following methods: filtering financing to meet risk acceptance criteria that support sustainable sectors, modifying documents and ESG-based financing analysis, and periodically monitoring the Sustainable Business Category (Green Taxonomy) portfolio by related units.

Second, utilizing opportunities and product expansion, through optimizing digital services such as the M-Syariah application, CMS, and *Virtual Account*, as well as expanding the *Business to Business to Consumer* (B2B2C) strategy to reach the corporate customer community. On the other hand, BMS is also encouraging the growth of fee-based income from digital products, mutual funds, and *bancassurance*.

Third, in responding to external dynamics, BMS is observing the weakening global economy, interest rate fluctuations, and the threat of the climate crisis

strategis dalam menyusun kebijakan jangka menengah dan panjang. Di bidang sosial, BMS berkomitmen memperluas layanan inklusif melalui pembiayaan mikro dan komunitas, yang ditujukan bagi kelompok rentan dan masyarakat di daerah tertinggal, sebagai wujud kontribusi nyata terhadap pembangunan yang berkeadilan.

Tahun 2025 merupakan tahun ketiga implementasi Keuangan Berkelaanjutan BMS. Bank menargetkan penguatan kualitas portofolio pembiayaan melalui analisis kelayakan yang lebih tajam untuk masing-masing dari 12 Kategori Usaha Berkelaanjutan (KUB), dengan tetap menjaga pertumbuhan portofolio *green financing*. Dari sisi internal, Bank menetapkan target minimal 75% pejabat terkait mengikuti pelatihan keberlanjutan sesuai perkembangan regulasi. Di sisi budaya kerja, kampanye keberlanjutan akan terus digencarkan, minimal terselenggara di kantor pusat dan 50% kantor distribusi. Selain itu, pembaruan kebijakan dan standar operasional keberlanjutan akan dilakukan untuk menyempurnakan proses operasional, serta melibatkan unit audit internal dalam pemeriksaan pembiayaan KUB guna memperkuat pengawasan dan akuntabilitas.

Prospek dan Peluang

Di tengah dinamika sosial dan ekonomi global, kami melihat peluang strategis untuk mengintegrasikan keberlanjutan sebagai bagian tak terpisahkan dari model bisnis. Dengan pijakan nilai Islami yang menjunjung keadilan, kebermanfaatan, dan tanggung jawab sosial, kami percaya bahwa keuangan berkelaanjutan bukan sekadar instrumen, melainkan jalan menuju pertumbuhan inklusif dan bernilai jangka panjang. Untuk itu, kami akan terus memperkuat komitmen dalam mendorong transformasi menuju keuangan berkelaanjutan yang selaras dengan prinsip syariah.

Seiring dengan pencapaian portofolio pembiayaan berkelaanjutan yang telah melampaui target 10% dari total pembiayaan pada tahun 2024, Bank juga melihat potensi penguatan di bidang teknologi dan digitalisasi melalui layanan Go Green hingga layanan digital berbasis M-Syariah. Kami juga memperluas kolaborasi dengan mitra yang memiliki kompetensi di bidang lingkungan hidup, sebagai strategi jangka menengah untuk memperdalam posisi kami dalam ekosistem keuangan hijau nasional.

as strategic factors in formulating medium and long-term policies. In the social sector, BMS is committed to expanding inclusive services through micro and community financing, aimed at vulnerable groups and communities in disadvantaged areas, as a form of real contribution to equitable development.

2025 is the third year of BMS Sustainable Finance implementation. The Bank targets to strengthen the quality of the financing portfolio through a sharper feasibility analysis for each of the 12 Sustainable Business Categories (KUB), while maintaining the growth of the green financing portfolio. From the internal side, the Bank has set a target of at least 75% of related officials to participate in sustainability training in accordance with regulatory developments. In terms of work culture, sustainability campaigns will continue to be intensified, at least held at the head office and 50% of distribution offices. In addition, updates to sustainability policies and operational standards will be carried out to improve operational processes, as well as involving internal audit units in KUB financing audits to strengthen supervision and accountability.

Prospects and Opportunities

Amidst global social and economic dynamics, we see a strategic opportunity to integrate sustainability as an integral part of the business model. Based on Islamic values that uphold justice, usefulness, and social responsibility, we believe that sustainable finance is not just an instrument, but a path to inclusive and long-term growth. Therefore, we will continue to strengthen our commitment to driving the transformation towards sustainable finance that is in line with sharia principles.

Along with the achievement of a sustainable financing portfolio that has exceeded the target of 10% of total financing in 2024, the Bank also sees the potential for strengthening in the technology and digitalization sectors through Go Green services to M-Syariah-based digital services. We are also expanding collaboration with partners who have competence in the environmental sector, as a medium-term strategy to deepen our position in the national green finance ecosystem.

Kami menyambut baik kebijakan dan ekosistem yang disiapkan pemerintah, khususnya melalui POJK 51/2017 dan Roadmap Keuangan Berkelaanjutan Tahap II. Regulasi ini menciptakan jalur strategis yang jelas, dengan potensi insentif, pelatihan, dan keterhubungan dengan sektor usaha hijau yang kian tumbuh. Selain itu, hadirnya Taksonomi Hijau dan Taksonomi Keuangan Berkelaanjutan Indonesia (TKBI) memberikan panduan konkret bagi Bank dalam membentuk portofolio hijau yang sesuai dan menghindari risiko pelaporan yang tidak akurat (*greenwashing*).

Selain itu, hadirnya kebijakan bursa karbon nasional memberikan peluang strategis bagi kami untuk memperluas kontribusi dalam ekosistem keuangan berkelanjutan. Kami melihat potensi besar dalam mendukung pembiayaan proyek-proyek rendah emisi seperti energi terbarukan, efisiensi energi, dan pengelolaan limbah yang berpotensi menghasilkan *carbon credit*. Selain itu, Bank juga dapat mengambil peran sebagai mitra intermediasi dan fasilitator bagi nasabah dalam memahami, melaporkan, dan mengakses manfaat dari perdagangan karbon. Keterlibatan ini diharapkan dapat mencerminkan komitmen Bank Mega Syariah sebagai institusi yang adaptif terhadap arah kebijakan nasional, sekaligus meningkatkan nilai keberlanjutan dan daya tarik ESG di mata pemangku kepentingan.

Namun demikian, implementasi keuangan berkelanjutan juga tidak terlepas dari tantangan dan risiko yang perlu dikelola secara cermat. Salah satu tantangan utama adalah masih terbatasnya pemahaman dan kapasitas SDM internal terkait prinsip dan praktik keberlanjutan, yang dapat memengaruhi kualitas penilaian risiko dan kelayakan pembiayaan pada sektor-sektor berwawasan lingkungan. Selain itu, kesiapan infrastruktur IT dan keamanan sistem digital juga menjadi isu yang perlu terus diperkuat agar pengembangan produk digital yang ramah lingkungan dapat berjalan optimal.

Risiko lainnya berasal dari sisi non-finansial, seperti pengukuran dampak sosial dan lingkungan yang masih terbatas, serta keterbatasan data dan metodologi dalam mengklasifikasikan portofolio berdasarkan taksonomi hijau dan TKBI. Untuk itu, BMS secara bertahap akan terus meningkatkan integrasi aspek keberlanjutan ke dalam tata kelola risiko, mengembangkan metodologi *stress test* risiko iklim, dan memperkuat kolaborasi lintas fungsi agar seluruh inisiatif keberlanjutan dapat berjalan dengan akuntabel, terukur, dan memberikan manfaat nyata bagi seluruh pemangku kepentingan.

We welcome the policies and ecosystems prepared by the government, especially through POJK 51/2017 and the Phase II Sustainable Finance Roadmap. This regulation creates a clear strategic path, with the potential for incentives, training, and connectivity with the growing green business sector. In addition, the presence of the Green Taxonomy and the Indonesian Sustainable Finance Taxonomy (TKBI) provides concrete guidance for the Bank in forming an appropriate green portfolio and avoiding the risk of inaccurate reporting (*greenwashing*).

Furthermore, the presence of the national carbon exchange policy provides a strategic opportunity for us to expand our contribution to the sustainable finance ecosystem. We believe that encouraging the financing of low-emission projects that have the potential to produce carbon credits, like waste management, energy efficiency, and renewable energy, has a lot of promise. In addition, the Bank can also take on the role of an intermediary partner and facilitator for customers in understanding, reporting, and accessing the benefits of carbon trading. This involvement is intended to display Bank Mega Syariah's commitment as an organization that can adapt to the course of national policies while enhancing the sustainability value and appeal of ESG in the eyes of stakeholders.

Nevertheless, sustainable finance implementation is not without its challenges and risks that need to be properly managed. One of the main challenges is the limited understanding and capacity of internal human resources related to sustainability principles and practices, which can affect the quality of risk assessment and financing feasibility in environmentally friendly sectors. In addition, the readiness of IT infrastructure and digital system security are also issues that need to be continuously strengthened so that the development of environmentally friendly digital products can run optimally.

Other risks come from the non-financial side, such as the limited measurement of social and environmental impacts, as well as limited data and methodology in classifying portfolios based on green taxonomy and TKBI. To that end, BMS will progressively keep increasing the integration of sustainability aspects into risk governance, create methods for stress testing climate risk, and fortify cross-functional collaboration so that all sustainability initiatives can run accountably, measurably, and provide real benefits to all stakeholders.

Apresiasi

Kami menyadari bahwa membangun keberlanjutan adalah proses jangka panjang yang membutuhkan konsistensi, integritas, dan komitmen di seluruh lini organisasi. Keberlanjutan bukan sekadar tujuan, melainkan cara kami menjalankan peran sebagai lembaga keuangan syariah yang bertanggung jawab.

Atas pencapaian dan kemajuan yang telah diraih selama tahun pelaporan, kami menyampaikan terima kasih kepada Dewan Komisaris dan Dewan Pengawas Syariah atas arahan dan pengawasan yang konstruktif. Kami juga menghargai kepercayaan para pemegang saham serta kontribusi seluruh insan BMS yang telah bekerja keras dengan penuh dedikasi.

Apresiasi kami sampaikan kepada para nasabah, mitra, regulator, dan seluruh pemangku kepentingan yang terus memberikan dukungan. Ke depan, kami berkomitmen untuk melanjutkan langkah ini secara konsisten, yakni menguatkan budaya keberlanjutan, memperluas manfaat, dan menjaga relevansi BMS dalam mendukung agenda pertumbuhan berkelanjutan SDGs 2030.

Appreciation

We realize that building sustainability is a long-term process that requires consistency, integrity, and commitment across all lines of the organization. Sustainability is not merely a goal; rather, it is how we carry out our roles as a responsible Islamic financial institution.

For the achievements and progress that have been achieved during the reporting year, we would like to thank the Board of Commissioners and the Sharia Supervisory Board for their constructive direction and supervision. We also appreciate the trust of the shareholders and the contribution of all BMS personnel who have worked hard with full dedication.

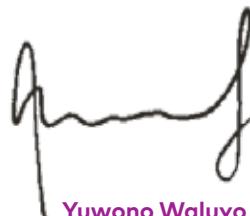

We express our appreciation to our customers, partners, regulators, and all stakeholders who continue to provide support. Moving forward, we are committed to continuing this step consistently, which entails enhancing the sustainability culture, expanding benefits and preserving BMS's relevance in supporting the SDGs 2030 sustainable growth agenda.

وَبِاللّٰهِ التَّوْفِيقُ وَالْهَدَايَةُ وَ السَّلَامُ عَلَيْكُمْ وَرَحْمَةُ اللّٰهِ وَبَرَكَاتُهُ

Komitmen Keberlanjutan BMS

BMS Sustainability Commitment

Visi, Misi, dan Nilai-Nilai Keberlanjutan

Vision, Mission, and Sustainability Values

Menjalankan perannya sebagai lembaga keuangan syariah, Bank Mega Syariah menjadikan visi, misi, dan budaya perusahaan sebagai landasan strategis dalam setiap kebijakan dan aktivitas usaha. Nilai-nilai dasar ini tidak hanya menjadi pedoman etika dan operasional, tetapi juga menjadi penggerak utama dalam penerapan keuangan berkelanjutan yang inklusif dan berdampak, selaras dengan nilai-nilai kebaikan islami dan harmoni antara (3P).

In carrying out its role as a sharia financial institution, Bank Mega Syariah makes its vision, mission, and corporate culture a strategic foundation in every policy and business activity. These core values are not only ethical and operational guidelines, but also the main driver in the implementation of inclusive and impactful sustainable finance, in accordance with Islamic principles of goodness and harmony between Prosperity, People, and Planet (3P).

Visi Vision
Tumbuh dan Sejahtera Bersama Bangsa
Grow and Prosper with the Nation

Misi Mission

1. Bertekad mengembangkan perekonomian syariah melalui sinergi dengan semua pemangku kepentingan.
2. Menebarluan nilai-nilai kebaikan yang islami dan manfaat bersama sebagai wujud komitmen dalam berkarya dan beramal.
3. Senantiasa meningkatkan kecakapan diri dan berinovasi mengembangkan produk serta layanan terbaik yang sesuai dengan kebutuhan masyarakat.

1. To be committed to developing the sharia economy through synergy with all stakeholders.
2. To spread Islamic values of goodness and mutual benefit as a form of commitment to work and charity.
3. To keep improving the skills and innovation to develop the best products and services that meet the needs of the society.

Visi Keberlanjutan BMS merupakan perluasan dari visi utama Bank, mencerminkan keyakinan bahwa keberlangsungan usaha hanya dapat dicapai apabila Bank turut berperan aktif dalam mendorong pembangunan yang berkeadilan, inklusif, dan berkelanjutan bagi seluruh masyarakat. Begitu juga dengan misi keberlanjutan Bank yang juga sejalan dengan misi utama, dan selaras dengan prinsip *Prosperity, People, Planet*; serta memastikan layanan yang inklusif dan berkelanjutan bagi seluruh lapisan masyarakat.

BMS Sustainability Vision is an extension of the Bank's main vision, which reflects its belief that business sustainability is only achievable if the Bank actively contributes to the support of sustainable, inclusive, and equitable development for the entire community. Likewise, the Bank's sustainability mission also aligns with the main mission, and in line with the principles of *Prosperity, People, Planet*; and ensures inclusive and sustainable services for all levels of society.

Visi Keuangan Berkelanjutan Vision of Sustainable Finance

Tumbuh Bersama Bangsa dengan Berkontribusi dalam Pembangunan Berkelanjutan

Grow with the Nation by Contributing
to Sustainable Development

Misi Keuangan Berkelanjutan Mission of Sustainable Finance

- 1. Mengembangkan perekonomian syariah dalam bentuk keuangan berkelanjutan yang dapat memberikan nilai tambah untuk semua pemangku kepentingan.
- 2. Menebarkan nilai-nilai kebaikan islami yang peduli pada keselarasan *Profit – People – Planet* (3P).
- 3. Senantiasa meningkatkan kecakapan diri dan berinovasi mengembangkan produk serta layanan terbaik yang dapat dinikmati seluruh lapisan masyarakat secara merata (inklusif).
- 1. Develop the Islamic economy through sustainable finance that adds value for all stakeholders.
- 2. Promote Islamic values that emphasize the harmony of Profit - People - Planet (3P).
- 3. Continuously enhance capabilities and innovate to develop the best products and services that can be enjoyed by all layers of society inclusively

Strategi Keberlanjutan [OJK A.1]

Sustainability Strategy

Sebagai bagian dari komitmen jangka panjang terhadap keuangan berkelanjutan, Bank Mega Syariah telah merumuskan strategi lima tahun yang bertujuan menjadikan BMS dikenal sebagai bank syariah yang tidak hanya unggul dari sisi prinsip syariah dan layanan, tetapi juga memiliki keberpihakan kuat terhadap kegiatan usaha berkelanjutan. Strategi ini terbagi ke dalam empat pilar utama:

1. Penguatan Kapasitas SDM

BMS menempatkan pemahaman dan kesadaran pegawai sebagai fondasi utama keberhasilan implementasi keuangan berkelanjutan. Melalui pelatihan, sosialisasi, dan internalisasi nilai keberlanjutan, seluruh pegawai diharapkan memahami konsep, risiko, dan peluang dari pembiayaan berkelanjutan, sehingga memiliki cara pandang dan sensitivitas risiko yang setara dalam setiap proses bisnis.

2. Integrasi ESG ke dalam Struktur Organisasi dan Sistem Kerja

Untuk memastikan keberlanjutan tidak berhenti pada tataran wacana, BMS melakukan penyesuaian fungsi di berbagai unit kerja. Integrasi aspek sosial dan lingkungan akan dilakukan mulai dari kebijakan, sistem pelaporan, SOP, hingga proses analisis pembiayaan, sehingga aspek keberlanjutan menjadi bagian tak terpisahkan dari manajemen risiko dan pengambilan keputusan pembiayaan.

3. Penetapan Program Prioritas yang Bertahap dan Terukur

Implementasi keberlanjutan akan dilakukan secara bertahap, disesuaikan dengan kesiapan internal. Setiap program kerja disusun dengan pendekatan realistik namun terukur, untuk memastikan tercapainya keseimbangan antara keinginan, kapasitas, kuantitas, dan kualitas pelaksanaan. Strategi ini akan membantu menjaga fokus dan konsistensi pencapaian target keberlanjutan Bank.

4. Pengelolaan Risiko dan Keberlanjutan Kinerja Ekonomi

BMS berkomitmen menjaga keberlanjutan portofolio pembiayaan melalui pengawasan kualitas, kontinuitas produksi, dan kontribusinya terhadap pendapatan Bank. Fokus pada manajemen risiko akan memastikan bahwa kegiatan usaha berkelanjutan tetap memberikan manfaat ekonomi yang stabil, sekaligus mendukung tujuan sosial dan lingkungan yang lebih luas.

As part of its long-term commitment to sustainable finance, Bank Mega Syariah has formulated a five-year strategy aimed at making BMS known as a sharia bank that not only excels in terms of sharia principles and services, but also has a strong commitment to sustainable business activities. This strategy is divided into four main pillars:

1. Strengthening HR Capacity

BMS places employee understanding and awareness as the main foundation for the successful implementation of sustainable finance. Through training, socialization, and internalization of sustainability values, all employees are expected to understand the concepts, risks, and opportunities of sustainable financing, so that they have an equal perspective and risk sensitivity in every business process.

2. Integration of ESG into the Organizational Structure and Work System

To ensure that sustainability does not stop at the discourse level, BMS is adjusting functions in various work units. Integration of social and environmental aspects will be carried out starting from policies, reporting systems, SOPs, to the financing analysis process, so that sustainability aspects become an inseparable part of risk management and financing decision making.

3. Determination of Gradual and Measurable Priority Programs

Sustainability implementation will be carried out in stages, adjusted to internal readiness. Each work program is prepared with a realistic but measurable approach, to ensure a balance between desire, capacity, quantity, and quality of implementation. This strategy will help maintain focus and consistency in achieving the Bank's sustainability targets.

4. Risk Management and Sustainability of Economic Performance

BMS is committed to maintaining the sustainability of the financing portfolio through monitoring the quality, continuity of production, and its contribution to the Bank's income. Focusing on risk management will ensure that sustainable business activities continue to provide stable economic benefits, while supporting broader social and environmental goals.

Bank telah memiliki ketentuan terkait Keuangan Berkelanjutan yang telah dilakukan pengkinian melalui SE 074/DIRBMS/22 yang diterbitkan pada tanggal 29 September 2022, yang selanjutnya menjadi pedoman utama dalam menjalankan penerapan keuangan berkelanjutan sesuai dengan kondisi, karakteristik dan skala usaha Bank Mega Syariah yang mengatur secara terperinci tugas dan tanggung jawab masing-masing unit kerja terkait penerapan keuangan berkelanjutan.

Berdasarkan pedoman itu, kami telah melakukan seleksi calon nasabah pembiayaan sesuai 12 kategori kegiatan usaha berkelanjutan serta memetakan nasabah berdasarkan kategori taksonomi hijau Indonesia di tahun 2023.

Pada tahun 2024, kami mengembangkan portofolio pembiayaan kegiatan usaha berkelanjutan, dengan *market target* yang lebih terarah pada bidang yang dikuasai Bank. Proses identifikasi dan infrastruktur yang dibutuhkan dalam memetakan nasabah berdasarkan kategori taksonomi hijau juga telah dilakukan dengan lebih tepat. Pada tahun 2024, kami telah memiliki Pedoman Pembiayaan Produktif melalui SE 031/DIRBMS/24 yang diterbitkan pada tanggal 16 April 2024.

Berikut ini sejumlah inisiatif keberlanjutan kami serta target dan capaiannya pada tahun 2024. [GRI 2-24]

The Bank has provisions related to Sustainable Finance that have been updated through SE 074/DIRBMS/22 issued on September 29, 2022, which then becomes the main guideline in implementing sustainable finance in accordance with the conditions, characteristics and scale of Bank Mega Syariah's business which regulates in detail the duties and responsibilities of each work unit related to the implementation of sustainable finance.

Based on these guidelines, we have conducted a selection of prospective financing customers according to 12 categories of sustainable business activities and mapped customers based on the Indonesian green taxonomy category in 2023.

In 2024, we developed a sustainable business activity financing portfolio, with a more focused target market in the sectors where the Bank excels. The identification process and infrastructure needed to map customers based on the green taxonomy category have also been carried out more precisely. In 2024, we have Productive Financing Guidelines through Circular Letter No. 031/DIRBMS/24 issued on April 16, 2024.

Below are some of our sustainability initiatives along with their goals and accomplishments in 2024. [GRI 2-24]

| Inisiatif Initiatives | Target Target | Capaian 2024 2024 Achievements |
|--|--|-----------------------------------|
| Penetapan tugas pokok aksi (tupoksi) penerapan KB secara lebih formal/rinci, pada setiap struktur organisasi terkait. | Terdapat SK, Job Description, KPI, dan SPO yang dipahami oleh setiap pejabat terkait penerapan keuangan berkelanjutan. Formulir proposal pembiayaan telah dilengkapi kolom khusus untuk menilai 12 kategori kegiatan usaha berkelanjutan, serta tersedia alat bantu/tools untuk mengukur hasil aksi ramah lingkungan secara kuantitatif. | Terlaksana |
| Determination of the main tasks of action for the implementation of Sustainable Finance more formally/in detail, in each related organizational structure. | There are Letter of Decree, Job Description, KPI, and SOP that are understood by every official related to the implementation of sustainable finance. The financing proposal form has been equipped with a special column to assess 12 categories of sustainable business activities, and there are tools to measure the results of environmentally friendly actions quantitatively. | Implemented |
| Melanjutkan pengembangan kapasitas internal melalui pelatihan Keuangan Berkelanjutan | 75% dari Seluruh Division Head dan Department Head yang terlibat langsung dalam implementasi keuangan berkelanjutan minimal telah mendapat 1 (satu) kali pelatihan. | Terlaksana |
| Continuing internal capacity development through Sustainable Finance training | 75% of all Division Heads and Department Heads directly involved in the implementation of sustainable finance have received at least 1 (one) training. | Implemented |

| Inisiatif Initiatives | Target Target | Capaian 2024 2024 Achievements |
|--|--|--|
| Penajaman fungsi bisnis, fungsi analis kredit dan fungsi <i>financing acceptance</i> pada tata kelola keuangan berkelanjutan | Tingkat akurasi pengkategorian kegiatan usaha berkelanjutan telah tercapai 100%, dengan disertai dokumen-dokumen bukti pendukung kegiatan yang dimaksud secara benar, sah dan memadai. | Terlaksana |
| Sharpening business functions, credit analyst functions and financing acceptance functions in sustainable financial governance Management of risk management in financing activities as a whole. | The level of accuracy in categorizing sustainable business activities has reached 100%, accompanied by supporting documents that prove the activities in question correctly, legally and adequately. | Implemented |
| Pengelolaan manajemen risiko pada kegiatan pembiayaan secara utuh. | Ulasan/kajian/rekomendasi formal tentang analisis dampak sosial dan lingkungan pada pengajuan persetujuan proposal pembiayaan produktif telah dilakukan secara lebih <i>proper</i> sejalan kapasitas SDM yang telah ditingkatkan serta <i>form</i> , proposal pembiayaan KUB dan <i>tools</i> yang dibutuhkan telah dikembangkan. | Terlaksana |
| Managing risk management in financing activities as a whole. | Formal reviews/studies/recommendations on social and environmental impact analysis on submission of approval for productive financing proposals have been carried out more properly in line with the increased human resource capacity, the forms, and Joint Business Group financing proposals and tools required have been developed. | Implemented |
| Peningkatan portofolio "green financing" | 10% dari total pembiayaan selama tahun 2024 masuk sebagai kategori Kegiatan Usaha Berwawasan Lingkungan (KUBL) | Proporsi pembiayaan KUBL mencapai 14,73% dari total pembiayaan |
| Increasing the "green financing" portfolio | 10% of total financing during 2024 will be included in the Environmentally Conscious Business Activities (Green Taxonomy/KUBL) category. | The financing proportion of Sustainable Business Activities (KUBL) reached 14.73% of the overall financing |
| Melanjutkan kampanye budaya berkelanjutan di seluruh kantor | Minimal satu program kampanye, dan sosialisasi tentang Ramah Lingkungan Bank Mega Syariah, terselenggara di kantor pusat dan di 50% kantor distribusi. | Terlaksana |
| Continuing the sustainable culture campaign throughout the office | At least one campaign program and socialization about Bank Mega Syariah's Environmental Friendliness is held at the head office and in 50% of distribution offices. | Implemented |
| Pengembangan produk/layanan jasa keuangan yang bertemakan "go green". Pengembangan teknologi pada produk/layanan perbankan digital banking | Minimal telah terdapat 1 (satu) produk/layanan/program penghimpunan dana maupun digital bertemakan "go green", dan/atau kerjasama-kerjasama dengan nasabah dalam melakukan kegiatan ramah lingkungan. | Terlaksana |
| Developing financial products/ services with the theme "go green". Developing technology in digital banking products/services | There must be at least 1 (one) product/service/fundraising or digital program with a "go green" theme, and/or collaborations with customers in carrying out environmentally friendly activities. | Implemented |
| Dalam menjalankan komitmen tersebut, BMS mengadopsi 8 (delapan) prinsip keuangan berkelanjutan sesuai POJK 51/2017 meliputi: [GRI 2-23] | In implementing the commitment, BMS adopts 8 (eight) sustainable finance principles as the main guideline, they are: | |
| 1. Investasi yang bertanggung jawab, 2. Strategi dan praktik bisnis berkelanjutan, 3. Pengelolaan risiko sosial dan lingkungan, 4. Tata kelola yang baik, 5. Komunikasi yang informatif dan transparan, 6. Pendekatan yang inklusif, 7. Pengembangan sektor unggulan prioritas, dan 8. Koordinasi serta kolaborasi antar pihak terkait. | 1. Responsible investment, 2. Sustainable business strategies and practices, 3. Management of social and environmental risks, 4. Good governance, 5. Informative and transparent communication, 6. Inclusive approach, 7. Development of priority leading sectors, and 8. Coordination and collaboration between related parties. | |

Membangun Budaya Keberlanjutan [OJK F.1]

Building a Culture of Sustainability

Bank Mega Syariah meyakini bahwa keberhasilan implementasi keuangan berkelanjutan tidak hanya bergantung pada kebijakan dan sistem, tetapi juga pada budaya kerja dan nilai yang dihidupi oleh seluruh insan Bank. Untuk itu, pembangunan budaya keberlanjutan dilakukan dengan menanamkan nilai-nilai inti Perseroan sebagai fondasi sikap dan perilaku sehari-hari.

Budaya Perseroan

Integrity

bermakna menyatukan kekuatan untuk mencapai hasil yang lebih baik.

Synergy

bermakna menyatukan kekuatan untuk mencapai hasil yang lebih baik.

Excellence

bermakna selalu berkarya sepenuh hati untuk memberikan yang terbaik.

Kami menempatkan nilai-nilai BMS yaitu *Integrity*, *Synergy*, dan *Excellence* menjadi budaya keberlanjutan kami. Budaya keberlanjutan ini disebarluaskan secara menyeluruh kepada seluruh pemangku kepentingan melalui berbagai kanal komunikasi, seperti situs resmi perusahaan, media sosial, pertemuan internal antar pegawai, hingga forum dengan mitra kerja dan masyarakat. Sosialisasi dilakukan baik secara terjadwal maupun insidental, guna membangun pemahaman dan keterlibatan yang berkelanjutan.

Sepanjang tahun 2024, BMS secara konsisten menjalankan kampanye budaya berkelanjutan sebagai bagian dari internalisasi nilai tersebut. Kegiatan dilakukan melalui berbagai pendekatan, antara lain sosialisasi budaya keberlanjutan melalui sesi Zoom dan kunjungan langsung ke kantor cabang (*site visit*), penyelenggaraan program partisipatif seperti Virtual Race BMS 2024, serta edukasi berkelanjutan melalui kanal internal (*email & WhatsApp karyawan*) dan kanal digital (media sosial, *website*, dan artikel).

Sementara itu, pada aspek operasional, BMS membangun budaya keberlanjutan melalui berbagai inisiatif, seperti penerapan standar Keselamatan dan Kesehatan Kerja (K3), efisiensi penggunaan energi untuk mendukung terwujudnya kantor ramah lingkungan (*green office*), pengembangan kapasitas karyawan, serta pelaksanaan program-program tanggung jawab sosial dan lingkungan secara berkelanjutan.

Bank Mega Syariah believes that the success of implementing sustainable finance does not only depend on policies and systems, but also on the work culture and values lived by all Bank personnel. Therefore, in order to develop a culture of sustainability, the company's core values are ingrained as the cornerstone of everyday attitudes and behaviors.

Corporate Culture

Integrity

Meaning to act correctly because you believe you are always under His supervision

Synergy

Meaning to unite strengths to achieve better results

Excellence

Meaning to always work wholeheartedly to provide the best.

The BMS values of Integrity, Synergy, and Excellence serve as the foundation of our sustainable culture. This sustainable culture is thoroughly spread to all stakeholders through a variety of communication channels, including the company's official website, social media, internal staff meetings, and forums with partners and the community. Socialization is carried out both on a scheduled and incidental basis, to foster comprehension and continued involvement.

Throughout 2024, BMS consistently ran a sustainable culture campaign as part of the internalization of these values. Activities were carried out through various approaches, including socialization of the culture of sustainability through Zoom sessions and direct visits to branch offices (*site visits*), organizing participatory programs such as the 2024 BMS Virtual Race, and ongoing education through internal channels (*employee email & WhatsApp*) and digital channels (social media, *website*, and articles).

On the operational side, BMS fosters a sustainable culture through a number of initiatives, including the implementation of Occupational Safety and Health (K3) standards, energy efficiency to support the creation of a green office, employee capacity development, and the sustainable implementation of social and environmental responsibility programs.

Sekilas

Bank Mega Syariah

Bank Mega Syariah at a Glance

PT Bank Mega Syariah ("BMS" atau "Bank") didirikan di Republik Indonesia pada tanggal 14 Juli 1990 dengan nama PT Bank Umum Tugu (Bank Tugu), berdasarkan Akta Pendirian No. 102 di hadapan notaris Mudofir Hadi, S.H., pada saat itu beralamat di Jakarta. Tahun 2001, Bank diakuisisi oleh PT CT Corpora (d/h Para Group) melalui PT Mega Corpora (d/h PT Para Global Investindo) dan PT Para Rekan Investama. Akuisisi ini diikuti dengan konversi kegiatan usaha pada tanggal 27 Juli 2004 yang semula bank umum konvensional menjadi bank umum syariah dengan nama PT Bank Syariah Mega Indonesia (BSMI), serta dilakukan perubahan logo untuk meningkatkan citranya di masyarakat sebagai lembaga keuangan syariah yang terpercaya.

PT Bank Mega Syariah ("BMS" or "the Bank") was founded in the Republic of Indonesia on July 14, 1990, originally under the name PT Bank Umum Tugu (Bank Tugu). This establishment was formalized through Deed of Establishment No. 102, witnessed by notary Mudofir Hadi, S.H., who was based in Jakarta at that time. In 2001, the Bank underwent acquisition by PT CT Corpora (formerly Para Group) through PT Mega Corpora (formerly PT Para Global Investindo) and PT Para Rekan Investama. Subsequently, on July 27, 2004, the Bank underwent a transformation from a conventional commercial bank to a sharia commercial bank, adopting the name PT Bank Syariah Mega Indonesia (BSMI). Additionally, a change in the logo was implemented to enhance its reputation as a trusted sharia financial institution within society.

Pada tanggal 25 Agustus 2004, BSMI resmi beroperasi. Hampir tiga tahun kemudian, pada 7 November 2007, pemegang saham memutuskan untuk melakukan perubahan logo BSMI sehingga lebih menunjukkan identitas sebagai bagian dari grup Mega Corpora. Sejak 2 November 2010 hingga saat ini, bank dikenal sebagai PT Bank Mega Syariah (BMS).

Bank mendapatkan izin sebagai bank devisa, pada 16 Oktober 2008. Dengan status tersebut, bank dapat melakukan transaksi devisa dan terlibat dalam perdagangan internasional. Hal ini memperluas jangkauan bisnis bank dari domestik hingga internasional.

Pada tanggal 8 April 2009, bank mendapatkan izin sebagai Bank Penerima Setoran Biaya Penyelenggaraan Ibadah Haji (BPS BPIH) oleh

On August 25, 2004, BSMI officially started operating. Almost three years later, on November 7, 2007, the shareholders decided to change the BSMI logo to better reflect its identity as part of the Mega Corpora group. Since November 2, 2010, until now, the bank has been known as PT Bank Mega Syariah (BMS).

On October 16, 2008, the Bank obtained permission to operate as a foreign exchange bank. With this status, the bank was authorized to engage in foreign exchange transactions and international trade, thus expanding its business scope from domestic to international markets.

Then, on April 8, 2009, the bank received permission from the Ministry of Religious Affairs of the Republic of Indonesia to operate as the Bank for Deposit of

Kementerian Agama RI. Dengan demikian, peran bank dalam menyediakan layanan perbankan syariah bagi umat di Indonesia semakin kuat.

Demi mewujudkan visi "Tumbuh dan Sejahtera Bersama Bangsa", PT CT Corpora sebagai pemegang saham utama bertekad menjadikan Bank Mega Syariah sebagai bank umum syariah terdepan di Indonesia. Komitmen ini tercermin dalam upaya terus memperkuat modal bank, memungkinkannya memberikan layanan terbaik di tengah persaingan industri perbankan yang semakin ketat. Upaya lainnya, yaitu pada tahun 2010, pemegang saham meningkatkan modal dasar dari Rp400 miliar menjadi Rp1,2 triliun melalui Rapat Umum Pemegang Saham (RUPS), dengan modal disetor yang naik dari Rp150,060 miliar menjadi Rp318,864 miliar. Saat ini, modal disetor telah mencapai Rp1,150 triliun.

Pada tahun 2013, Bank Mega Syariah memperkuat posisinya sebagai bank syariah terdepan di Indonesia dengan melakukan relokasi kantor pusat dari Menara Bank Mega ke Menara Mega Syariah. Kemudian, sejak 2018, Bank ditunjuk sebagai Bank Penerimaan, Bank Penempatan, dan Bank Mitra Investasi oleh Badan Pengelola Keuangan Haji (BPKH). Selanjutnya di tahun 2019, BPKH mempercayakan Bank Mega Syariah untuk menjadi salah satu Bank Likuiditas yang menjadi partner BPKH selaku penanggung jawab pengelolaan dana haji di Indonesia.

Hajj Operational Costs (BPS BPIH). This strengthened the bank's role in providing Sharia banking services to the Muslim community in Indonesia.

In line with the vision of "Growing and Prospering Together with the Nation," PT CT Corpora, as the main shareholder, is committed to making Bank Mega Syariah a leading Sharia commercial bank in Indonesia. This commitment is reflected in continuous efforts to strengthen the bank's capital, enabling it to provide the best services amidst increasingly fierce competition in the banking industry. Another effort was made in 2010 when the shareholders increased the bank's authorized capital from IDR400 billion to IDR1.2 trillion through a General Meeting of Shareholders (GMS), with paid-up capital rising from IDR150.060 billion to IDR318.864 billion. Currently, the paid-up capital has reached IDR1.150 trillion.

In 2013, Bank Mega Syariah strengthened its position as a leading Sharia bank in Indonesia by relocating its headquarters from Menara Bank Mega to Menara Mega Syariah. Then, since 2018, the Bank has been designated as a Receiving Bank, Placement Bank, and Investment Partner Bank by the Hajj Financial Management Agency (BPKH). Furthermore, in 2019, the BPKH entrusted Bank Mega Syariah to be one of the Liquidity Banks, serving as a partner to BPKH in managing the Hajj funds in Indonesia.

Bank juga turut berpartisipasi pada pengembangan investasi sosial di Indonesia dengan menjadi mitra distribusi Cash Waqf Linked Sukuk (CWLS) seri SWR002. Di tahun 2021, Bank Mega Syariah berhasil menjadi mitra distribusi dengan nominal pemesanan terbesar.

Sejalan dengan strategi mendukung pertumbuhan bisnis yang fokus pada segmen retail, Bank Mega Syariah terus berupaya menghadirkan berbagai produk dan layanan terbaik kepada para nasabah. Pada tahun 2021, Bank Mega Syariah meluncurkan M-Syariah, aplikasi mobile banking pertama di Indonesia yang dapat melakukan pembukaan rekening tanpa perlu video call dan datang ke kantor cabang.

Di tahun 2022, Bank Mega Syariah menjadi bank peserta layanan transfer BI-Fast untuk menghadirkan layanan transfer antar bank dengan biaya terjangkau yang cepat dan aman kepada nasabah. Pengembangan fitur transaksi terus dilakukan, di tahun 2023, bank menambahkan fitur pembayaran QRIS pada M-Syariah dan melakukan soft launching kartu pembiayaan Syariah Card.

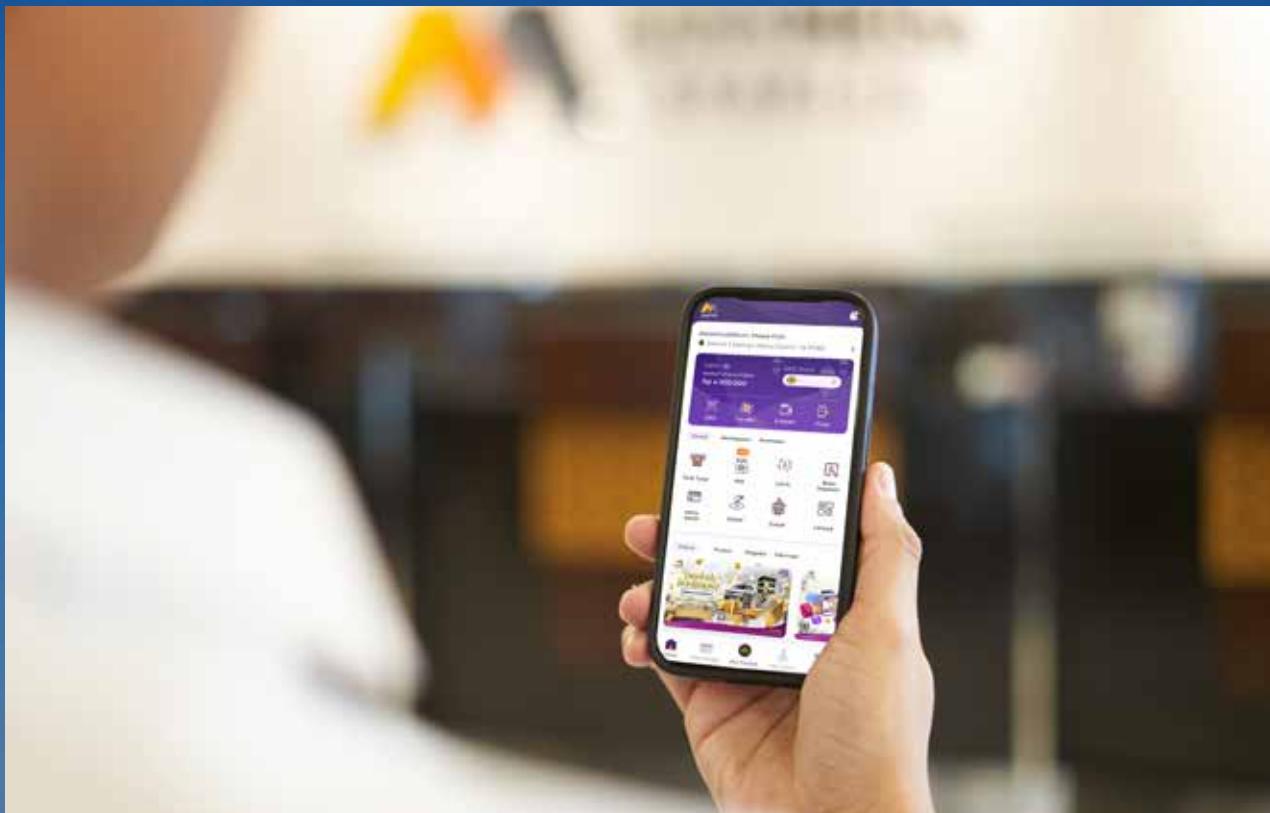

Hingga akhir tahun 2024, Bank Mega Syariah beroperasi di 22 provinsi, memiliki 1 kantor pusat operasi, 28 Kantor Cabang, 32 Kantor Cabang Pembantu, 23 Kantor Fungsional, dan 66 ATM.

The Bank also plays an active role in fostering social investment in Indonesia by partnering in the distribution of Cash Waqf Linked Sukuk (CWLS) series SWR002. In 2021, Bank Mega Syariah clinched the top spot as the largest distribution partner in terms of order volume.

Aligned with its strategy to bolster business growth with a focus on the retail segment, Bank Mega Syariah remains committed to delivering a diverse range of top-notch products and services to its clientele. In 2021, it introduced M-Syariah, Indonesia's pioneering mobile banking app allowing hassle-free account opening without the need for video calls or branch visits.

In 2022, Bank Mega Syariah joined the ranks of banks offering the BI-Fast transfer service, ensuring swift and secure interbank transfers at affordable rates for its customers. The bank continues to enhance its transaction features, with the addition of QRIS payment options to M-Syariah and the soft launch of its Syariah Card financing card in 2023.

By the end of 2024, Bank Mega Syariah had extended its operations to 22 provinces, boasting 1 operational headquarters, 28 Branch Offices, 32 Sub-Branch Offices, 23 Functional Offices, and 66 ATMs.

Pegawai/Pekerja yang Bukan Pekerja Langsung

BMS mempekerjakan tenaga kerja tidak langsung, yaitu individu yang bekerja untuk BMS namun tidak memiliki hubungan kerja langsung dengan perusahaan.

Dalam praktiknya, mereka merupakan karyawan dari perusahaan lain yang ditempatkan di unit kerja dalam wilayah operasional BMS. Penempatan mereka merupakan bagian dari kontrak kerja antara BMS dan vendor penyedia jasa, dengan durasi yang sesuai ketentuan dalam kontrak tersebut.

Jumlah tenaga kerja tidak langsung secara lengkap adalah sebagai berikut:

**Jumlah Pegawai yang Bukan Pegawai Langsung**
Number of Indirect Workers [GRI 2-8]

| Status | 2024 | 2023 | 2022 |
|---|------|------|------|
| Pegawai alih daya Outsourced workers | 224 | 296 | 290 |

Indirect Workers

BMS employs indirect workers, they are individuals who work for BMS but do not have a direct employment relationship with the company.

In practice, they are employees from other companies placed in work units within BMS's operational area. Their placement is part of an employment contract between BMS and the service provider vendor, with a duration according to the provisions of the contract.

The complete number of indirect workers is as follows:

| Nama Produk Product Name | Keterangan Description |
|-----------------------------|--|
| Zakat | Bekerja sama dengan berbagai mitra zakat yang terpercaya. Anda dapat melakukan zakat melalui aplikasi <i>mobile banking</i> M-Syariah atau melalui transfer pilihan lembaga zakat. Zakat penghasilan atau zakat profesi merupakan bagian dari zakat maaal yang wajib dikeluarkan atas harta yang berasal dari pendapatan atau penghasilan rutin dari pekerjaan yang sesuai prinsip syariah. Nishab zakat pendapatan atau penghasilan pada tahun 2023 adalah senilai 85 gram emas atau setara dengan Rp 81.945.667,- per tahun atau Rp 6.828.806,- per bulan. Apabila penghasilan setiap bulan telah melebihi nilai nishab bulanan, maka zakat wajib dikeluarkan sebesar 2,5% dari penghasilannya tersebut. |
| Zakat | Collaborating with various trusted zakat partners. You can pay zakat through the M-Syariah mobile banking application or through a transfer of your choice of zakat institution. Income zakat or professional zakat is part of the zakat maaal that must be paid on assets originating from income or regular income from work that is in accordance with sharia principles. The nisab for income zakat in 2023 is 85 grams of gold or equivalent to IDR 81,945,667 per year or IDR 6,828,806 per month. If the monthly income has exceeded the monthly nisab value, then zakat must be paid at 2.5% of the income. |
| Infak | Infak dikeluarkan dalam bentuk material (uang dan barang) dan terbagi menjadi dua kategori yaitu: 1. <i>Infak fi sabillah</i> yang sangat dianjurkan untuk ditunaikan untuk kepentingan penegakan agama islam dan kaum muslimin. 2. <i>Infak fi sabilis</i> yang pemanfaatannya digunakan untuk kemaslahatan umat. Anda dapat melakukan infak melalui berbagai institusi penyalur infak amanah yang bekerja sama dengan Bank Mega Syariah, baik melalui <i>mobile banking</i> M-Syariah maupun melalui metode transfer. |
| Infak | Infak is issued in the form of material (money and goods) and is divided into two categories, namely: 1. <i>Infak fi sabillah</i> which is highly recommended to be carried out for the sake of upholding the Islamic religion and Muslims. 2. <i>Infak fi sabilis</i> which is used for the welfare of the community. You can make infak through various institutions that distribute infak amanah that collaborate with Bank Mega Syariah, either through M-Syariah mobile banking or through the transfer method. |
| Shodaqoh | Merupakan ibadah yang istimewa sebagai sarana untuk bertaubat dan penghapus dosa. <i>Shodaqoh fi sabilis</i> yang pemanfaatannya digunakan untuk kemaslahatan umat. Anda dapat melakukan shodaqoh melalui berbagai institusi penyalur shodaqoh amanah yang bekerja sama dengan Bank Mega Syariah, baik melalui <i>mobile banking</i> M-Syariah maupun melalui metode transfer. |
| Shodaqoh | A special worship as a means to repent and erase sins. <i>Shodaqoh fi sabilis</i> which is used for the welfare of the people. You can do shodaqoh through various institutions that distribute shodaqoh amanah that work with Bank Mega Syariah, either through M-Syariah mobile banking or through transfer methods. |
| Wakaf | Adapun keutamaan dari wakaf adalah sebagai berikut: 1. Bagi orang yang berwakaf (wakif), pahalanya akan terus mengalir sekalipun ia sudah meninggal dunia. 2. Dapat memilih tujuan pahala wakaf, baik untuk diri sendiri maupun untuk orang lain. 3. Harta benda yang diwakafkan tetap utuh terpelihara, terjamin kelangsungannya, dan tidak bisa hilang atau berpindah tangan. 4. Manfaatnya terus dirasakan oleh orang banyak, bahkan lintas generasi. Balasannya adalah surga. |
| Waqf | Bank Mega Syariah bekerja sama dengan berbagai mitra wakaf yang terpercaya. Anda dapat melakukan wakaf melalui aplikasi <i>mobile banking</i> M-Syariah atau melalui transfer pilihan lembaga wakaf. The virtues of waqf are as follows: 1. For people who make waqf (waqif), their rewards will continue to flow even after they have passed away. 2. People can choose the purpose of the waqf reward, both for themselves and for others. 3. The assets that are waqfed remain intact, guaranteed to last, and cannot be lost or changed hands. 4. The benefits continue to be felt by many people, even across generations. The reward is heaven. Bank Mega Syariah works with various trusted waqf partners. You can make waqf through the M-Syariah mobile banking application or through a transfer of the waqf institution's choice. |

M-Syariah

M-Syariah adalah aplikasi *mobile banking* Bank Mega Syariah yang memberikan berbagai kemudahan untuk mengelola transaksi perbankan dan *non-perbankan*, salah satunya adalah dengan fitur rekening *online* tanpa perlu datang ke kantor cabang serta pengiriman kartu ATM akan diantar langsung ke alamat Anda.

Adapun fitur utama dari M-Syariah adalah sebagai berikut:

| Nama Fitur Features | Keterangan Description |
|--------------------------|--|
| Tabungan Haji | Pembukaan tabungan haji secara <i>online</i> tanpa perlu <i>video call</i> ataupun datang ke cabang. |
| Hajj Savings | Opening a hajj savings account online without the need for video calls or visiting a branch. |
| DigiBerkah Plus | Upgrade ke DigiBerkah Plus dan dapatkan keuntungan <i>limit</i> tabungan tanpa batas atau <i>unlimited</i> . Saat ini, DigiBerkah Plus bisa didapatkan di M-Syariah versi 2.6.1. |
| DigiBerkah Plus | Upgrade to DigiBerkah Plus and get the benefit of unlimited savings limits. Currently, DigiBerkah Plus can be obtained at M-Syariah version 2.6.1. |
| QRIS | Bayar ini jadi praktis menggunakan scan QRIS di aplikasi M-Syariah. QRIS dapat digunakan di berbagai <i>merchant</i> , <i>outlet</i> , dan <i>toko favorite</i> Anda, kapanpun dan dimanapun. |
| QRIS | Pay for this and that practically using the QRIS scan in the M-Syariah application. QRIS can be used at various merchants, outlets, and your favorite stores, anytime and anywhere. |
| Pembayaran dan Pembelian | Dapat melakukan pembelian isi ulang pulsa, paket data, <i>voucher digital</i> , dan token listrik. Selain itu, M-Syariah juga dapat digunakan untuk pembayaran tagihan listrik, PDAM, kartu kredit, e-commerce, TV Kabel, dan pembayaran lainnya. |
| Payment and Purchase | Able to make purchases for credit top-ups, data packages, digital vouchers, and electricity tokens. In addition, M-Syariah can also be used to pay electricity bills, PDAM, credit cards, e-commerce, cable TV, and other payments. |
| Top Up e-Wallet | Memberikan kemudahan dalam pengisian e-Wallet seperti OVO, GoPay, DANA, ShopeePay, dan LinkAja. |
| e-Wallet Top Up | Provides convenience in filling e-Wallets such as OVO, GoPay, DANA, ShopeePay, and LinkAja. |
| Donasi dan Amal | Berbagi semakin mudah karena dapat dilakukan secara <i>online</i> melalui fitur Donasi dan Amal. Nasabah dapat melakukan donasi, zakat, infaq, shodaqoh, wakaf, dan qurban melalui aplikasi M-syariah. |
| Donation and Charity | Sharing is easier as it can be done online through the Donation and Charity features. Customers can make donations, zakat, infaq, shodaqoh, waqf, and qurban through the M-syariah application. |
| Pelunasan Haji | Kini pembayaran haji dapat dilakukan melalui aplikasi M-Syariah. Masukkan nomor porsi haji lalu bayar sesuai nomor yang tertera. |
| Hajj Payment | Hajj payments can now be made through the M-Syariah application. Enter the hajj portion number and pay according to the number listed. |
| Berkah Islami | Temukan informasi masjid terdekat, arah kiblat, hingga berita dan artikel islami yang mendukung ibadah Anda. |
| Islamic Blessing | Find information on the nearest mosque, the direction of the Qibla, to Islamic news and articles that support your worship. |
| Informasi Syariah Card | Informasi Syariah Card dapat diakses melalui aplikasi <i>mobile banking</i> M-Syariah; mulai dari <i>limit</i> kartu, <i>limit</i> tersedia, riwayat transaksi terakhir, lihat dan unduh informasi tagihan, pembayaran tagihan, hingga ubah transaksi belanja menjadi cicilan tetap. |
| Syariah Card Information | Syariah Card information can be accessed through the M-Syariah mobile banking application; starting from card limits, available limits, recent transaction history, view and download billing information, bill payments, to changing shopping transactions into fixed installments. |
| Easy Spending | Ubah transaksi Syariah Card menjadi cicilan tetap, dengan tenor waktu 3, 6, dan 12 bulan |
| Syariah Card | Convert Syariah Card transactions into fixed installments, with tenors of 3, 6, and 12 months |

M-Syariah

M-Syariah is a mobile banking application of Bank Mega Syariah that provides various conveniences for managing banking and non-banking transactions, one of which is with the online account feature without having to come to the branch office and the delivery of ATM cards will be delivered directly to your address.

The main features of M-Syariah are as follows:

Virtual Account

Virtual Account adalah nomor identifikasi pelanggan perusahaan (*end user*) yang dibuat oleh bank dan selanjutnya diberikan oleh perusahaan kepada pelanggannya atau mitra sebagai identifikasi penerimaan (*collection*). Transaksi *Virtual Account* dapat dilakukan oleh bank lain, Jaringan Prima, Mega Net, dan ATM Bersama. Biaya administrasi ringan dan gratis biaya transaksi *Virtual Account* sesuai dengan syarat dan ketentuan yang berlaku. Proses mudah, Nasabah perusahaan hanya perlu mengisi formulir aplikasi dan melampirkan dokumen yang dibutuhkan.

Adapun keunggulan *virtual account* yang dimiliki Bank Mega Syariah adalah sebagai berikut:

| Keunggulan Advantages | Keterangan Description |
|----------------------------------|--|
| Media Pembayaran yang Beragam | <p><i>Virtual Account</i> Bank Mega Syariah terkoneksi oleh berbagai pilihan akses:</p> <ol style="list-style-type: none"> 1. <i>Mobile Banking</i> (Bank Mega Syariah dan bank lainnya) 2. <i>ATM</i> (Bank Mega Syariah dan bank lainnya) 3. <i>Online</i> (Bank Mega Syariah, bank lainnya, ATM Bersama, ATM Prima, dan SKN/RTGS) 4. <i>Teller Cabang</i> Bank Mega Syariah |
| Various Payment Media | <p>Bank Mega Syariah <i>Virtual Account</i> is connected by various access options:</p> <ol style="list-style-type: none"> 1. <i>Mobile Banking</i> (Bank Mega Syariah and other banks) 2. <i>ATM</i> (Bank Mega Syariah and other banks) 3. <i>Online</i> (Bank Mega Syariah, other banks, ATM Bersama, ATM Prima, and SKN/RTGS) 4. <i>Bank Mega Syariah Branch Teller</i> |
| Akurat | Sistem pembayaran maupun pengkreditan dana ke rekening perusahaan dilakukan secara <i>online</i> dan <i>real time</i> serta dapat diakses melalui <i>Cash Management Service</i> (CMS). |
| Accurate | The payment system and crediting of funds to the company account are carried out online and in real time and can be accessed via <i>Cash Management Service</i> (CMS). |
| Transparan | Memberikan kemudahan untuk sistem yang bersifat pembayaran maupun tagihan dalam jumlah yang tetap atau pasti (<i>fixed payment</i>). Apabila terjadi kurang bayar atau lebih bayar, maka hal tersebut dapat disesuaikan sesuai kesepakatan. |
| Transparent | Providing convenience for systems that are payment or billing in a fixed or definite amount (<i>fixed payment</i>). If there is an underpayment or overpayment, this can be adjusted according to the agreement. |
| Praktis | Nomor ID (nomor unik) dapat diatur sesuai keinginan perusahaan sehingga lebih praktis. |
| Practical | The ID number (unique number) can be set according to the company's wishes so that it is more practical. |
| Terintegrasi | <i>Virtual Account</i> Bank Mega Syariah terintegrasi dengan sistem bank ke sistem Nasabah sehingga Nasabah dapat membaca <i>data base end user</i> (dengan koneksi atau pengembangan tertentu). |
| Integrated | Bank Mega Syariah <i>Virtual Account</i> is integrated with the bank system to the Customer system so that Customers can read the end user database (with certain connections or developments). |

Virtual Account

Virtual Account is a company's customer identification number (*end user*) created by the bank and then given by the company to its customers or partners as a receipt identification (*collection*). *Virtual Account* transactions can be carried out by other banks, Prima Network, Mega Net, and ATM Bersama. The administration fees are low and *Virtual Account* transaction fees are free according to the applicable terms and conditions. Easy process, company's customers only need to fill out the application form and attach the required documents.

The advantages of virtual accounts owned by Bank Mega Syariah are as follows:

Cash Management Services

Cash Management Services (CMS) adalah fasilitas layanan perbankan *digital* dari Bank Mega Syariah yang diperuntukkan bagi Nasabah *non* perorangan (perusahaan) dalam mengelola aktivitas transaksi keuangannya. Sistem *web login* CMS memiliki keamanan yang sangat baik dengan penggunaan teknologi *Encryption* terkini. Setiap Nasabah memiliki *Unique Company ID*, *User ID*, dan *password*. Adapun fitur menarik yang terdapat di dalam CMS Bank Mega Syariah adalah sebagai berikut:

| Nama Fitur Features | Keterangan Description |
|--|---|
| Informasi Rekening Account Information | Nasabah dapat dengan mudah mengakses informasi rekening yang dimiliki. |
| Monitoring Transaksi Transaction Monitoring | Customers can easily access their account information. |
| Pembayaran Pajak (Modul Penerimaan Negara atau MPN). Tax Payment (State Revenue Module or MPN). | Kemudahan yang diberikan Nasabah dalam melakukan <i>monitoring</i> transaksi. Nasabah juga dapat mencetak <i>statement</i> (mutasi) rekening sesuai dengan kebutuhan. The convenience with which customers can keep track of transactions. Additionally, customers can print account statements (mutations) as needed. |
| Bulk Payment | Sistem penerimaan negara yang menggunakan surat setoran elektronik yang disediakan Bank Mega Syariah. Fitur ini mempermudah para pebisnis melakukan pembayaran dan memberikan kemudahan kepada Wajib Pajak dalam melakukan pembayaran atau pelunasan pajak secara <i>online</i> dengan modul MPN G3. A state revenue system that uses electronic deposit letters provided by Bank Mega Syariah. This feature makes it easier for business people to make payments and provides convenience to taxpayers in making payments or tax settlements online with the MPN G3 module. |
| Bulk Payment | Nasabah dapat melakukan transaksi sekaligus ke banyak rekening untuk berbagai jenis transaksi yaitu: 1. <i>In House</i> : antar sesama Bank Mega Syariah. 2. SKN atau Lalu Lintas Giro (LLG) untuk transfer dana dan kliring berjadwal. 3. RTGS (<i>Real Time Gross Settlement</i>) atau transaksi pembayaran dan transfer dana dengan nominal >Rp100 juta dan bersifat segera. 4. <i>Online</i> : metode transfer dana <i>real time</i> atau saat itu juga terkirim ke penerima dana. 5. <i>Payroll</i> : ditujukan untuk melakukan pembayaran gaji kepada pegawai. |
| Bill Payment | Customers can make transactions simultaneously to many accounts for various types of transactions, namely: 1. In House: between fellow Bank Mega Syariah. 2. SKN or Giro Traffic (LLG) for scheduled fund transfers and clearing. 3. RTGS (Real Time Gross Settlement) or payment transactions and fund transfers with a nominal value of >Rp100 million and are immediate. 4. Online: real-time fund transfer method or immediately sent to the recipient of funds. 5. Payroll: intended for making salary payments to employees. |
| Bill Payment | Nasabah dapat melakukan pembayaran tagihan melalui CMS, yaitu: 1. Telkom (<i>Postpaid</i>) 2. Telkomsel (<i>Postpaid</i>) 3. PLN (<i>Prepaid/ Token</i>) 4. PLN (<i>Postpaid</i>) 5. PLN Non Tagihan Listrik |
| Bill Payment | CMS allows customers to pay their bills, namely: 1. Telkom (<i>Postpaid</i>) 2. Telkomsel (<i>Postpaid</i>) 3. PLN (<i>Prepaid/ Token</i>) 4. PLN (<i>Postpaid</i>) 5. PLN Non Electricity Bill |

Cash Management Services

Cash Management Services (CMS) is a digital banking service facility from Bank Mega Syariah intended for non-individual customers (companies) in managing their financial transaction activities. Using the most recent encryption technology, the CMS web login system has excellent security. Each customer has a Unique Company ID, User ID, and password. The interesting features in CMS Bank Mega Syariah are as follows:

Layanan Services

BI-RTGS

Layanan transfer dana elektronik antar bank berskala nasional dengan menggunakan sistem Bank Indonesia (BI) - *Real Time Gross Settlement* untuk transaksi di atas Rp100 juta dengan batas waktu transfer yang ditentukan. Melalui sistem BI-RTGS, uang akan diterima di bank tujuan dalam hitungan menit selama transaksi dilakukan pada jam operasional tertentu sesuai ketentuan dari Bank Indonesia.

SKNBI

Sistem Kliring Nasional Bank Indonesia (SKNBI) adalah infrastruktur yang digunakan oleh Bank Indonesia dalam penyelenggaraan transfer dana dan kliring berjadwal untuk memproses Data Keuangan Elektronik (DKE). Sistem ini mendukung layanan transfer dana, kliring Warkat Debit, layanan pembayaran reguler, dan layanan penagihan reguler.

BI FAST

Merupakan sebuah infrastruktur sistem pembayaran ritel nasional yang memfasilitasi pembayaran ritel secara aman, efisien hingga *real-time*, dan dapat dilakukan setiap saat dengan biaya transfer yang cukup murah dibandingkan layanan transfer lainnya. Layanan BI-Fast dapat dilakukan melalui *Mobile Banking*, *Internet Banking*, Jaringan Mesin ATM, dan datang langsung ke *Counter Teller*.

BI-RTGS

A national-scale interbank electronic fund transfer service using the Bank Indonesia (BI) system - Real Time Gross Settlement for transactions above IDR 100 million with a specified transfer time limit. Through the BI-RTGS system, money will be received at the destination bank in minutes as long as the transaction is carried out during certain operating hours according to the provisions of Bank Indonesia.

SKNBI

The Bank Indonesia National Clearing System (SKNBI) is an infrastructure used by Bank Indonesia in organizing scheduled fund transfers and clearing to process Electronic Financial Data (EFD). This system supports fund transfer services, Debit Warkat clearing, regular payment services, and regular billing services.

BI FAST

A national retail payment system infrastructure that facilitates retail payments safely, efficiently and in real time, and can be done at any time with transfer fees that are quite cheap compared to other transfer services. BI-Fast services can be done through Mobile Banking, Internet Banking, ATM Machine Networks, and by coming directly to the Teller Counter.

Transfer Online

Transfer *online* adalah layanan perbankan yang memungkinkan Nasabah untuk melakukan pengiriman uang dari satu rekening ke rekening lain di Bank Mega Syariah maupun di bank lain secara *real time*. Transfer *online* dapat dilakukan melalui aplikasi *mobile banking* M-Syariah atau ATM.

Bank Garansi

Bank garansi adalah layanan perbankan berupa jaminan dari Bank terhadap risiko tertentu yang dapat membuat Nasabah tidak dapat menjalankan kewajiban atau cidera janji (*wanprestasi*) kepada pihak yang menerima jaminan. Nilai bank garansi maksimal disesuaikan dengan nilai proyek yang dijamin.

LC dan SKBDN

Adalah sebuah layanan Bank Mega Syariah yang dapat melakukan penerbitan *Letter of Credit* (LC) dan Surat Kredit Berdokumen Dalam Negeri (SKBDN) yang merupakan janji tertulis untuk menjamin pembayaran dalam transaksi perdagangan selama syarat dan ketentuan dokumen terpenuhi.

Safe Deposit Box (SDB)

Layanan perbankan dari Bank Mega Syariah dalam bentuk jasa penyewaan kotak penyimpanan barang atau surat-surat berharga dalam ruang khusus milik Bank untuk menjaga keamanan dan kerahasiaan barang yang disimpan dan memberikan rasa aman bagi Nasabah.

Remittance

Adalah layanan pengiriman dan penerimaan uang dalam valuta asing dari dan ke luar negeri dengan kurs dan biaya yang kompetitif. Perhitungan biaya transaksi *remittance* ditentukan dari nominal pengiriman, lokasi tujuan pengiriman dana, dan kecepatan pengiriman yang dipilih.

ATM

Merupakan mesin elektronik layanan Bank selama 24 jam secara mandiri untuk memenuhi berbagai kebutuhan transaksi perbankan di berbagai lokasi jaringan Bank Mega Syariah, mulai dari tarik tunai, cek saldo, transfer dana, hingga pembelian dan pembayaran tagihan.

Online Transfer

Online transfer is a banking service that allows customers to transfer money from one account to another account at Bank Mega Syariah or at other banks in real time. Online transfers can be made via the M-Syariah mobile banking application or ATM

Bank Guarantee

A bank guarantee is a banking service in the form of a guarantee from the Bank against certain risks that can make customers unable to carry out their obligations or breach of promise (default) to the party receiving the guarantee. The maximum bank guarantee value is adjusted to the value of the guaranteed project.

LC and SKBDN

A service from Bank Mega Syariah that can issue Letters of Credit (LC) and Domestic Documented Credit Letters (SKBDN) which are written promises to guarantee payment in trade transactions as long as the terms and conditions of the documents are met

Safe Deposit Box (SDB)

Banking services from Bank Mega Syariah in the form of rental services for storing goods or valuable documents in a special room owned by the Bank to maintain the security and confidentiality of stored goods and provide a sense of security for customers.

Remittance

A service for sending and receiving money in foreign currency from and to overseas with competitive exchange rates and fees. The calculation of remittance transaction fees is determined by the nominal amount sent, the destination location of the funds sent, and the selected delivery speed.

ATM

An electronic machine that provides 24-hour independent Bank services to meet various banking transaction needs in various locations of the Bank Mega Syariah network, from cash withdrawals, balance checks, fund transfers, to purchases and bill payments.

Tata Kelola Keberlanjutan

Sustainability Governance

Sebagai bagian dari upaya mendukung program Pemerintah dan Otoritas Jasa Keuangan (OJK) dalam percepatan pengembangan ekonomi syariah, Bank Mega Syariah (BMS) secara berkelanjutan mengintegrasikan aspek Lingkungan, Sosial, dan Tata Kelola (LST) dalam pengembangan produk dan layanan.

BMS secara konsisten menjalankan inisiatif keberlanjutan yang tertuang dalam Rencana Aksi Keuangan Berkelanjutan (RAKB) sebagai langkah strategis dalam mengurangi kesenjangan sosial serta mencegah dampak negatif terhadap lingkungan. Seluruh kebijakan ini diterapkan dengan tetap berpedoman pada prinsip Good Corporate Governance (GCG) dan kepatuhan terhadap regulasi syariah.

Bagi BMS, tata kelola yang baik akan meningkatkan ketahanan dan daya saing bank di tengah perubahan ekonomi dan regulasi. Begitu juga pada implementasi keuangan berkelanjutan. Oleh karena itu, BMS terus memperkuat pengelolaan bank yang transparan, akuntabel, profesional, serta selaras dengan prinsip syariah.

As part of the effort to support the Government and Financial Services Authority (OJK) programs in accelerating the development of the sharia economy, Bank Mega Syariah (BMS) continuously integrates Environmental, Social, and Governance (ESG) aspects in product and service development.

BMS consistently implements sustainability initiatives as stated in the Sustainable Finance Action Plan (RAKB) as a strategic step in reducing social disparities and preventing negative impacts on the environment. All of these policies are implemented while adhering to the principles of Good Corporate Governance (GCG) and compliance with sharia regulations.

For BMS, good governance will increase the resilience and competitiveness of banks amidst economic and regulatory changes. Likewise in the implementation of sustainable finance. Therefore, BMS continues to strengthen transparent, accountable, professional bank management that is in line with sharia principles.

Penanggung Jawab Penerapan Keuangan BerkelaJutan

BMS menetapkan Direktur Risiko & Kepatuhan sebagai koordinator penanggung jawab Keuangan BerkelaJutan, dan Divisi Manajemen Risiko sebagai koordinator dalam memantau dan mengkonsolidasi seluruh program kerja divisi-divisi lain terkait, sekaligus menyampaikan kepada Direksi secara berkala/bulanan. [OJK E.1][GRI 2-13, 2-16, 2-25]

Peran Dewan Komisaris dan Direksi dalam Pelaporan Keberlanjutan [GRI 2-14]

BMS wajib menerapkan keuangan berkelanjutan yang laporannya disampaikan melalui pelaporan keberlanjutan seperti diamanatkan dalam Peraturan Otoritas Jasa Keuangan No. 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan bagi Lembaga Jasa Keuangan, Emiten, dan Perusahaan Publik atau POJK Keuangan Berkelanjutan. Berkaitan dengan hal tersebut, Direksi terus mendorong peningkatan kualitas dan kelengkapan laporan keberlanjutan agar sesuai dengan regulasi dan standar yang berlaku mencakup SEOJK 16/2021 dan GRI Universal Standards 2021 sebagai panduan global. [GRI 2-12]

Adapun Dewan Komisaris bertanggung jawab dalam mengawasi perencanaan dan implementasi Keuangan Berkelanjutan, memastikan seluruh proses berjalan sesuai dengan regulasi dan prinsip tata kelola yang baik.

Pengembangan Kompetensi Terkait Kegiatan Berkelanjutan [OJK E.2] [GRI 2-17]

Selama tahun 2024, Dewan Komisaris, Dewan Pengawas Syariah, Direksi, dan Divisi Manajemen Risiko sebagai koordinator dalam memantau dan mengkonsolidasikan penerapan keuangan berkelanjutan telah mengikuti pengembangan kompetensi terkait keuangan/kegiatan berkelanjutan sebagaimana tabel berikut:

Person in Charge of the Implementation of Sustainable Finance

BMS appoints the Director of Risk & Compliance as the coordinator in charge of Sustainable Finance, and the Risk Management Division as the coordinator in monitoring and consolidating all work programs of other related divisions, as well as reporting to the Board of Directors periodically/monthly. [OJK E.1][GRI 2-13, 2-16, 2-25]

The Role of the Board of Commissioners and Board of Directors in Sustainability Reporting [GRI 2-14]

BMS is required to implement sustainable finance whose reports are submitted through sustainability reporting as mandated in the Financial Services Authority Regulation No. 51/POJK.03/2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies or POJK Sustainable Finance. In this regard, the Board of Directors continues to encourage improvements in the quality and completeness of sustainability reports in order to comply with applicable regulations and standards including SEOJK 16/2021 and GRI Universal Standards 2021 as global guidelines. [GRI 2-12]

The Board of Commissioners is responsible for overseeing the planning and implementation of Sustainable Finance, ensuring that the entire process runs in accordance with regulations and good governance principles.

Competency Development Related to Sustainable Activities [OJK E.2] [GRI 2-17]

Throughout 2024, the Board of Commissioners, Sharia Supervisory Board, Board of Directors, and Risk Management Division as coordinators in monitoring and consolidating the implementation of sustainable finance have participated in competency development related to sustainable finance/activities as in the following table:

**Tabel Pengembangan Kompetensi Terkait
Keuangan Berkelanjutan Tahun 2024**

**Competency Development Table Related to
Sustainable Finance in 2024**

Penilaian Risiko atas Penerapan Keuangan BerkelaJalan [GRI 2-23] [OJK E.3]

BMS menyadari dalam menjalankan kegiatan usaha akan menghadapi berbagai risiko yang berpotensi menghambat pencapaian target dan kinerja yang telah ditetapkan dalam Rencana Bisnis Bank (RBB) Tahun 2024 dan RAKB Tahun 2024. Untuk mencegah dan meminimalkan dampak atas risiko yang mungkin terjadi, BMS berkomitmen untuk menerapkan sistem manajemen risiko yang terpadu dan komprehensif di seluruh proses bisnis dan pengelolaan usaha.

Manajemen risiko BMS mengacu pada *Basel Committee on Banking Supervision* dan *best practices* di industri perbankan. Dalam implementasinya, BMS sepenuhnya mengacu pada Peraturan Otoritas Jasa Keuangan Nomor 65/ POJK.03/2016 tanggal 23 Desember 2016 tentang Penerapan Manajemen Risiko Bagi Bank Umum Syariah dan Unit Usaha Syariah. Pengelolaan risiko BMS juga didasarkan pada Peraturan Otoritas Jasa Keuangan nomor 8/ POJK.03/2014 tanggal 11 Juni 2014 yang mengatur tentang Penilaian Tingkat Kesehatan Bank Umum Syariah dan Unit Usaha Syariah sehingga terdapat keselarasan dalam setiap kebijakan dan penerapan manajemen risiko BMS dengan koridor penilaian bank yang dikategorikan sehat dan dapat dipercaya oleh semua pemangku kepentingan. Penjelasan manajemen risiko, termasuk 10 profil risiko Bank terdapat pada Laporan Tahunan 2024.

Risk Assessment of Sustainable Finance Implementation [GRI 2-23] [OJK E.3]

BMS realizes that in carrying out business activities, it will face various risks that have the potential to hinder the achievement of targets and performance that have been set in the Bank Business Plan (RBB) for 2024 and RAKB for 2024. To prevent and minimize the impact of possible risks, BMS is committed to implementing an integrated and comprehensive risk management system throughout all business processes and business management.

BMS risk management refers to the Basel Committee on Banking Supervision and best practices in the banking industry. In its implementation, BMS fully refers to the Financial Services Authority Regulation Number 65/POJK.03/2016 dated December 23, 2016 concerning the Implementation of Risk Management for Sharia Commercial Banks and Sharia Business Units. BMS risk management is also based on Financial Services Authority Regulation number 8/ POJK.03/2014 dated June 11, 2014, which regulates the Health Level Assessment of Sharia Commercial Banks and Sharia Business Units so that there is alignment in every policy and implementation of BMS risk management with the bank assessment corridor that is categorized as healthy and can be trusted by all stakeholders. Explanation of risk management, including 10 Bank risk profiles, is contained in the 2024 Annual Report.

Selain itu, BMS secara khusus juga mengidentifikasi risiko atas implementasi keuangan berkelanjutan. Evaluasi dan pemantauan dilakukan oleh Divisi Manajemen Risiko sebagai satuan kerja yang ditunjuk sebagai koordinator penerapan Keuangan Berkelanjutan. Proses atau mekanisme pemantauan dan kaji ulang pelaksanaan program RAKB telah disepakati, yaitu dilakukan secara rutin berkala, setiap bulan bersamaan dengan penyelenggaraan rapat Komite Manajemen Risiko.

Sebagai bank syariah yang berperan dalam menyalurkan pembiayaan, BMS juga menghadapi risiko spesifik terkait implementasi keberlanjutan. Risiko ini dapat dikategorikan ke dalam risiko ekonomi yang mencakup risiko fisik dan risiko transisi, risiko lingkungan, risiko sosial, dan risiko tata kelola. Kami telah melakukan identifikasi atas risiko-risiko tersebut dan menyiapkan mitigasi risiko yang diperlukan.

Risiko fisik muncul dari dampak langsung perubahan iklim, seperti bencana alam, cuaca ekstrem, atau degradasi lingkungan. Selain berpotensi merusak aset fisik Bank, aset produktif nasabah juga ikut terancam sehingga meningkatkan risiko gagal bayar. Berikut ini langkah mitigasi bank, antara lain:

1. Bank telah memiliki *Business Continuity Plan* (BCP) & *Business Continuity Management* (BCM) sebagai dasar penanganan Bank dalam menghadapi segala kondisi yang membahayakan kelangsungan bank termasuk bencana alam.
2. Seluruh aset maupun infrastruktur Bank yang dinilai kritis dan diberikan sistem proteksi maupun *backup* sesuai yang dibutuhkan.
3. Dalam menentukan lokasi kantor cabang mempertimbangkan aspek kerentanan terhadap bencana alam seperti banjir maupun tanah longsor.
4. Dalam melakukan analisa pembiayaan mempertimbangkan kondisi eksternal yang mempengaruhi kondisi usaha dan nilai agunan calon debitur akibat banjir.

Sementara itu, risiko transisi terkait dengan peralihan menuju ekonomi rendah karbon, yang mencakup perubahan kebijakan, teknologi, dan preferensi pasar. Bagi Bank, kebijakan terkait keberlanjutan berpotensi meningkatkan biaya investasi dalam alat ramah lingkungan atau teknologi baru yang lebih berkelanjutan. Nasabah juga memerlukan pendampingan tambahan untuk memahami dampak perubahan iklim dan transisi ekonomi rendah karbon. Sebagai mitigasi risiko transisi ini, Bank telah melakukan identifikasi debitur yang sektor ekonomi usahanya masuk dalam sektor prioritas atau fokus utama dalam penurunan emisi gas rumah kaca (GRK) yaitu energi, limbah, *Industrial Processes and Product Use* (IPPU), pertanian, serta pemanfaatan lahan dan hutan. Identifikasi ini dilakukan untuk mengetahui

In addition, BMS also specifically identifies risks to the implementation of sustainable finance. Evaluation and monitoring are carried out by the Risk Management Division as a work unit appointed as the coordinator of the implementation of Sustainable Finance. The process or mechanism for monitoring and reviewing the implementation of the RAKB program has been agreed upon, namely to be carried out routinely, every month in conjunction with the holding of the Risk Management Committee meeting.

As a sharia bank that plays a role in distributing financing, BMS also faces specific risks related to the implementation of sustainability. These risks can be categorized into economic risks which include physical risks and transition risks, environmental risks, social risks, and governance risks. We have identified these risks and prepared the necessary risk mitigation.

Physical risks arise from the direct impacts of climate change, such as natural disasters, extreme weather, or environmental degradation. In addition to potentially damaging the Bank's physical assets, customers' productive assets are also at risk, increasing the risk of default. The following are the bank's mitigation steps, including:

1. The Bank has a Business Continuity Plan (BCP) & Business Continuity Management (BCM) as the basis for the Bank's handling of all conditions that endanger the continuity of the bank, including natural disasters.
2. All Bank assets and infrastructure that are considered critical and are provided with protection and backup systems as needed.
3. In determining the location of the branch office, consider aspects of vulnerability to natural disasters such as floods and landslides.
4. In conducting financing analysis, consider external conditions that affect business conditions and the value of collateral for prospective debtors due to flooding.

Meanwhile, transition risk is related to the transition to a low-carbon economy, which includes changes in policy, technology, and market preferences. For the Bank, policies related to sustainability have the potential to increase investment costs in environmentally friendly tools or new, more sustainable technologies. Customers also need additional assistance to understand the impacts of climate change and the low-carbon economic transition. As a mitigation of this transition risk, the Bank has identified debtors whose economic business sectors are included in the priority sectors or main focus in reducing greenhouse gas (GHG) emissions, namely energy, waste, Industrial Processes and Product Use (IPPU), agriculture, and land and forest utilization. This identification is carried out to determine how much GHG emissions

seberapa besar emisi GRK yang dihasilkan dan juga biaya karbon yang harus ditanggung debitur terhadap kemampuan bayar angsuran atas pembiayaan di bank. Dalam hal ini, Bank telah menyusun kerangka kerja *stress test* terhadap debitur yang termasuk dalam sektor ekonomi prioritas tersebut.

Stress test Bank telah mempertimbangkan kondisi makro ekonomi atas risiko transisi ekonomi sesuai dengan panduan dalam Buku Panduan Climate Risk Management Scenario yang diterbitkan oleh Otoritas Jasa Keuangan.

Adapun risiko lingkungan muncul dari dampak aktivitas nasabah terhadap lingkungan, seperti praktik usaha yang tidak ramah lingkungan. Contohnya, pelaku usaha yang tidak memahami cara mengelola limbahnya sehingga berdampak mencemari lingkungan sekitar. Insiden semacam ini bukan hanya buruk bagi lingkungan namun dapat juga menimbulkan protes dari warga sekitar, sehingga berpotensi menghambat perkembangan usaha. Dalam hal ini, mitigasi risiko Bank mencakup penerapan investasi bertanggung jawab, yaitu dengan tidak memberikan atau menyetujui pembiayaan kepada usaha nasabah yang melanggar syarat dan ketentuan baku lingkungan hidup, seperti AMDAL, PROPER, dan sebagainya.

Dalam setiap analisis kelayakan pembiayaan yang dilakukan secara '*four eyes principle*' oleh satuan kerja independen Financing Reviewer, Legal, dan Appraisal, juga telah diterapkan pemeriksaan dampak kerusakan lingkungan hidup dan dampak sosial, seperti ada atau tidaknya saluran pembuangan limbah yang memadai, gangguan usaha terhadap lingkungan/sosial sekitar, kerusakan jalan dan/atau alam lingkungan sekitar terkait kegiatan usaha dan transportasi usaha nasabah, adanya demo-demo protes dari masyarakat sekitar, keabsahan legalitas usaha dan perizinan khusus operasional usaha nasabah, seperti izin melakukan penambangan, penggalian, eksplorasi atau pemanfaatan lahan tertentu, kegiatan peremajaan untuk mengembalikan kelestarian alam yang diambil dari usaha nasabah, dan sebagainya.

Adapun risiko sosial adalah potensi dampak negatif terhadap bisnis yang timbul akibat persepsi atau reaksi masyarakat terhadap produk, layanan, atau aktivitas Bank. Risiko ini dapat mengganggu kepercayaan nasabah, menurunkan reputasi, dan berujung pada risiko hukum. Salah satu sumber risiko adalah rendahnya literasi keuangan yang menyebabkan penerimaan terhadap produk keuangan berkelanjutan menjadi kurang optimal. Sebagai bank syariah, BMS juga menghadapi risiko reputasi apabila pembiayaan dinilai tidak sejalan dengan prinsip syariah atau berdampak negatif secara sosial dan lingkungan.

are produced and also the carbon costs that must be borne by the debtor in terms of the ability to pay installments for financing at the bank. In this case, the Bank has prepared a stress test framework for debtors included in the priority economic sectors.

The Bank's stress test has considered the macroeconomic conditions for economic transition risks in accordance with the guidelines in the Climate Risk Management Scenario Guidebook issued by the Financial Services Authority.

Environmental risks arise from the impact of customer activities on the environment, such as environmentally unfriendly business practices. For example, business owners who do not understand how to manage their waste so that it has an impact on polluting the surrounding environment. Incidents like this are not only bad for the environment but can also cause protests from local residents, thus potentially hampering business development. In this case, the Bank's risk mitigation includes implementing responsible investment, namely by not providing or approving financing to customer businesses that violate standard environmental terms and conditions, such as Environmental Impact Assessment (AMDAL), Company Environmental Performance Rating Program (PROPER), and so on.

In every financing feasibility analysis conducted using the '*four eyes principle*' by the independent Financing Reviewer, Legal, and Appraisal work unit, an examination of the impact of environmental damage and social impacts has also been implemented, such as the presence or absence of adequate waste disposal channels, business disruption to the surrounding environment/social environment, damage to roads and/or the surrounding natural environment related to the customer's business activities and transportation, protest from the surrounding community, the validity of the legality of the business and special permits for the customer's business operations, such as permits to mine, dig, explore or utilize certain land, rejuvenation activities to restore the sustainability of nature taken from the customer's business, and so on.

Social risk is the potential negative impact on business that arises due to public perception or reaction to the Bank's products, services, or activities. This risk can affect customer trust, damage reputation, and result in legal risk. Low financial literacy is one risk factor that results in less-than-optimal acceptance of sustainable financial products. As a sharia bank, BMS is also exposed to reputational risk in the event that financing is deemed to be contrary to sharia principles or to have a negative impact on society and the environment. This reputational risk is further intensified by negative content on social media, as well as news in the mass

Risiko reputasi ini semakin menguat dengan konten-konten negatif di media sosial, maupun pemberitaan di media massa akibat strategi komunikasi yang kurang efektif. Oleh karena itu, pengelolaan risiko sosial menjadi bagian penting dalam menjaga keberlanjutan bisnis dan meningkatkan kepercayaan seluruh pemangku kepentingan.

Untuk mengatasi risiko sosial ini, Bank memberlakukan prinsip investasi bertanggung jawab, yaitu tidak memberikan pembiayaan apabila kegiatan usaha nasabah menimbulkan dampak negatif pada aspek sosial dan lingkungan hidup. Bank juga dengan tegas memiliki kebijakan untuk tidak masuk pada sektor atau usaha yang ilegal dan haram, usaha yang hanya bertujuan pada keuntungan sesaat atau jangka pendek.

Sementara itu, dalam aktivitas operasional sehari-hari diarahkan agar menghindari penggunaan sumber daya secara berlebihan, baik kertas, air, listrik maupun bahan bakar. Terkait hal ini, Bank telah menunjuk divisi yang bertanggung jawab dalam merancang atau menetapkan strategi penghematan di lingkungan Bank Mega Syariah.

Bank telah mengembangkan strategi komunikasi internal untuk menciptakan budaya keberlanjutan pada seluruh sumber daya manusia melalui kampanye bertemakan 'Go Green' atau keuangan berkelanjutan.

Bank juga menyadari bahwa tata kelola yang baik merupakan fondasi untuk menjalankan operasional secara transparan, akuntabel, dan berkelanjutan. Namun, risiko tata kelola tetap dapat muncul, terutama terkait kepatuhan terhadap regulasi, efektivitas pengawasan, serta integrasi aspek keberlanjutan dalam strategi bisnis. Ketidakpatuhan terhadap regulasi, seperti POJK tentang Keuangan Berkelanjutan, dapat mempengaruhi reputasi dan operasional Bank. Risiko juga dapat terjadi jika pengawasan dari Dewan Komisaris, Direksi, atau organ tata kelola lainnya tidak berjalan optimal, sehingga potensi risiko strategis dan operasional meningkat. Di sisi lain, integrasi keberlanjutan yang tidak maksimal dalam strategi bisnis dan implementasi RAKB dapat menghambat pencapaian tujuan keberlanjutan Bank.

Untuk mengatasi hal ini, BMS melalui satuan kerja Manajemen Risiko, secara konsisten dan kontinu selalu melakukan kaji mandiri (*self assessment*) terhadap seluruh paparan risiko yang dihadapi Bank, baik yang berasal dari aktivitas transaksi/layanan maupun pemasaran produk produknya.

media due to ineffective communication strategies. Therefore, managing social risk is an important part of maintaining business sustainability and increasing the trust of all stakeholders.

To address this social risk, the Bank applies the principle of responsible investment, namely not providing financing if the customer's business activities have a negative impact on social and environmental aspects. The Bank also has a firm policy not to enter into illegal and haram sectors or businesses, businesses that only aim for short-term or immediate profits.

Meanwhile, in daily operational activities, it is directed to avoid excessive use of resources, whether paper, water, electricity or fuel. In this regard, Bank has appointed a division that is responsible for designing or determining savings strategies within Bank Mega Syariah.

Bank had developed an internal communication strategy to create a culture of sustainability in all human resources through campaigns with the theme 'Go Green' or sustainable finance.

Bank also realizes that good governance is the foundation for running operations in a transparent, accountable, and sustainable manner. However, governance risks can still arise, especially related to compliance with regulations, effectiveness of supervision, and integration of sustainability aspects into business strategies. Non-compliance with regulations, such as POJK on Sustainable Finance, can affect the Bank's reputation and operations. Risks can also occur if supervision from the Board of Commissioners, Board of Directors, or other governance organs is not optimal, so that the potential for strategic and operational risks increases. On the other hand, less than optimal integration of sustainability into business strategies and RAKB implementation can hinder the achievement of the Bank's sustainability goals.

To overcome this, BMS through the Risk Management work unit, consistently and continuously always conducts self-assessments of all risk exposures faced by the Bank, both from transaction/service activities and marketing of its products

Etika Bisnis dan Perilaku [GRI 2-26]

Business Ethics and Behavior [GRI 2-26]

Kode Etik Bank Mega Syariah merupakan acuan tata laksana dan etika kerja bagi seluruh insan BMS dalam berperilaku sesuai dengan aturan dan pemenuhan standar nilai yang ditetapkan dalam rangka penciptaan budaya kerja, perilaku kerja dan etika bisnis sehingga menciptakan nilai tambah bagi Perusahaan. Pemahaman yang baik dan diikuti penerapan kode etik merupakan salah satu faktor penting dalam pembentukan tata kelola perusahaan yang baik bagi BMS. Kode Etik Bank Mega Syariah memuat komitmen dan topik-topik sebagai berikut:

1. Kepatuhan dan manajemen risiko
2. Benturan kepentingan
3. Penciptaan lingkungan kerja yang kondusif
 - a. Perlakuan adil kepada seluruh karyawan
 - b. Anti diskriminasi dan pelecehan
 - c. Keamanan di tempat kerja
4. Penggunaan fasilitas Bank Mega Syariah
5. Aktivitas di luar Bank Mega Syariah
6. Penggunaan media sosial
7. Pengelolaan dan pengamanan informasi
8. Etika hubungan dengan nasabah dan pemangku kepentingan:
 - a. Hubungan dengan Nasabah
 - b. Anti pencucian uang
 - c. Hubungan dengan rekanan
 - d. Hubungan dengan regulator
 - e. Penyuapan dan korupsi
 - f. Pemberian dan penerimaan hadiah

Sosialisasi Kode Etik BMS dilakukan melalui induction program untuk para eksekutif dan karyawan, di samping melalui berbagai media promosi, *email blast*, dan penyegaran melalui sistem *e-learning*. BMS memastikan komitmen setiap karyawan terhadap kode etik dengan mewajibkan mereka menandatangani Pakta Integritas. Pelanggaran terhadap kode etik dapat dilaporkan melalui saluran pelaporan pelanggaran yang tersedia dan dapat mengakibatkan sanksi. Tidak hanya menegakkan integritas, implementasi kode etik juga membangun hubungan yang sehat antar karyawan, meningkatkan mutu dan kinerja mereka. Komitmen terhadap penerapan kode etik membawa hasil positif dengan tidak adanya pelanggaran kode etik selama tahun pelaporan.

Bank Mega Syariah Code of Ethics is a reference for governance and work ethics for all BMS personnel in behaving in accordance with the rules and fulfillment of the value standards set in order to create a work culture, work behavior and business ethics so as to create added value for the Company. A good understanding and implementation of the code of ethics is one of the important factors in establishing good corporate governance for BMS. Bank Mega Syariah Code of Ethics contains the following commitments and topics:

1. Compliance and risk management
2. Conflict of interest
3. Creation of a conducive work environment
 - a. Fair treatment of all employees
 - b. Anti-discrimination and harassment
 - c. Safety in the workplace
4. Use of Bank Mega Syariah facilities
5. Activities outside Bank Mega Syariah
6. Use of social media
7. Management and security of information
8. Ethics of relationships with customers and stakeholders:
 - a. Relationships with Customers
 - b. Anti-money laundering
 - c. Relationships with partners
 - d. Relationships with regulators
 - e. Bribery and corruption
 - f. Giving and receiving gifts

The socialization of the BMS Code of Ethics is carried out through an induction program for executives and employees, in addition to various promotional media, email blasts, and refreshers through the e-learning system. BMS ensures the commitment of each employee to the code of ethics by requiring them to sign an Integrity Pact. Violations of the code of ethics can be reported through the available violation reporting channels and can result in sanctions. Not only does it uphold integrity, the implementation of the code of ethics also builds healthy relationships between employees, improving their quality and performance. Commitment to the implementation of the code of ethics has brought positive results with no violations of the code of ethics during the reporting year.

Sistem Pelaporan Pelanggaran

[GRI 2-26]

The Whistleblowing System

Sistem Pelaporan Pelanggaran atau *Whistleblowing System* (WBS) merupakan sistem yang mengelola pengaduan/penyimpangan mengenai perilaku melawan hukum, perbuatan tidak etis/tidak semestinya secara rahasia, anonim dan mandiri yang digunakan untuk mengoptimalkan peran serta Insan BMS dan pihak lainnya dalam mengungkapkan pelanggaran yang terjadi di lingkungan BMS. Penyelenggaraan pengelolaan WBS pada dasarnya dilandasi dengan hal-hal sebagai berikut:

1. Keinginan BMS untuk terus menegakkan prinsip-prinsip GCG di lingkungan Bank, khususnya yang berkaitan dengan integritas dan transparansi;
2. Sebagai komitmen Perusahaan untuk menyediakan media bagi penegakan prinsip-prinsip GCG sehingga menciptakan situasi kerja yang bersih dan bertanggung jawab; dan
3. Sebagai salah satu alat yang ampuh dalam mencegah dan mendeteksi potensi terjadinya pelanggaran di BMS.

Pedoman Sistem Pelaporan Pelanggaran

Pedoman Sistem Pelaporan Pelanggaran atau *Whistleblowing System* (WBS) sebagai Kebijakan WBS pertama kali diterbitkan pada tahun 2014 melalui Surat Edaran Tentang Prosedur Operasional Penyampaian Suara Karyawan (*speak-up*) No. SE037/DIR BMS/14 dan diperbaharui melalui SE.106/DIRBMS/22 Tentang Kebijakan Operasi Sistem Pelaporan Pelanggaran (SPP) atau *Whistleblowing System* (WBS) tertanggal 01 Desember 2022 dan Kebijakan Operasi Sistem Pelaporan Pelanggaran (SPP) atau *Whistleblowing System* (WBS) Nomor: 41.07 tertanggal 01/12/2022.

Maksud, tujuan dan manfaat penerapan Sistem Pelaporan Pelanggaran di Bank adalah:

1. Tersedianya cara penyampaian informasi penting dan kritis bagi BMS kepada pihak yang harus segera menangani secara aman;
2. Tersedianya mekanisme deteksi dini (*early warning system*);
3. Tersedianya kesempatan untuk menangani masalah pelanggaran secara internal terlebih dahulu, sebelum meluas menjadi masalah pelanggaran yang bersifat publik;
4. Timbulnya keengganhan untuk melakukan pelanggaran (pengawasan oleh semua pihak).

The Whistleblowing System (WBS) is a system that manages complaints/disclosures regarding unlawful behavior, unethical/improper actions in a confidential, anonymous and independent manner that is used to optimize the role of BMS personnel and other parties in disclosing violations that occur in the BMS environment. The implementation of WBS management is basically based on the following:

1. BMS's desire to continue to uphold GCG principles in the Bank's environment, especially those related to integrity and transparency;
2. As the Company's commitment to provide a medium for enforcing GCG principles so as to create a clean and responsible work situation; and
3. As one of the powerful tools in preventing and detecting potential violations in BMS.

Guidelines for the Whistleblowing System

The Whistleblowing System (WBS) Guidelines as a WBS Policy were first issued in 2014 through a Circular Letter Concerning Operational Procedures for Employee Voice Delivery (*speak-up*) No. SE037/DIR BMS/14 and updated through SE.106/DIRBMS/22 Concerning the Whistleblowing System (SPP) Operation Policy dated December 1, 2022 and the Whistleblowing System (SPP) Operation Policy Number: 41.07 dated December 1, 2022.

The purpose, objectives and benefits of implementing the Whistleblowing System in the Bank are:

1. Availability of a method for conveying important and critical information for BMS to parties who must immediately handle it safely;
2. Availability of an early warning system;
3. Availability of opportunities to handle violations internally first, before they escalate into public violations;
4. The emergence of reluctance to commit violations (supervision by all parties).

Ruang Lingkup Pelanggaran yang dapat Dilaporkan

Pengaduan/pelaporan pelanggaran yang dapat dilaporkan antara lain:

1. Pengungkapan tindakan pelanggaran atau perbuatan melawan hukum
2. Perbuatan tidak etis/tidak bermoral atau perbuatan lain yang dapat merugikan organisasi maupun para pemangku kepentingan (pelanggaran *Code of Conduct*), yang dilakukan oleh karyawan atau pimpinan organisasi kepada pimpinan organisasi atau lembaga lain yang dapat mengambil tindakan atas pelanggaran tersebut. (Pengungkapan ini umumnya dilakukan secara rahasia/*confidential*).

Saluran dan Media Pelaporan Sistem Pelaporan Pelanggaran

Perusahaan menyediakan saluran dan media yang dapat digunakan untuk menyampaikan pelaporan pelanggaran adalah sebagai berikut.

1. Surel : wbs@megasyariah.co.id
2. Telepon/SMS/WhatsApp: 0822-0823-6002
3. Pos tercatat kepada HCMD (Human Capital Management Division Head), Menara Mega Syariah Lantai 12, Jl.HR Rasuna Said Kav.19A, Jakarta Selatan 12790

Pengelola Sistem Pelaporan Pelanggaran

Pengelolaan tim WBS di Bank Mega syariah dibuat dengan keanggotaan komite dan Administrator atau Sekretaris Komite Kerja WBS sebagaimana berikut:

1. Komite WBS adalah komite yang terdiri dari Direksi dengan sub komite yang menjadi Komite Kerja WBS yang terdiri dari Direktur yang membidangi Human Capital yang dibantu oleh beberapa Kepala Divisi yang ditunjuk ditambah dengan Kepala Satuan Kerja Audit Internal
2. WBS Administrator atau Sekretaris Komite Kerja WBS adalah Pegawai/Pejabat yang ditunjuk untuk mengadministrasikan dan mengelola laporan atas adanya suatu kecurigaan dan/atau indikasi dan/atau kejadian *fraud* maupun kasus pelanggaran peraturan lainnya yang disampaikan oleh Pegawai/Pelapor melalui media WBS yang ditentukan.

Perlindungan bagi Whistleblower

Kebijakan *Whistleblowing System* telah mengatur mengenai Perlindungan bagi Pelapor di antaranya:

1. Kewajiban BMS untuk memberikan perlindungan pelapor;

Scope of Violations that can be Reported

Complaints/reporting of violations that can be reported include:

1. Disclosure of violations or unlawful acts
2. Unethical/immoral acts or other acts that can harm the organization or stakeholders (violations of the *Code of Conduct*), carried out by employees or leaders of the organization to the leaders of the organization or other institutions that can take action on the violations. (This disclosure is generally done confidentially).

Reporting Channels and Media for Violation Reporting System

The Company provides channels and media that can be used to submit reports of violations as follows.

1. Email: wbs@megasyariah.co.id
2. Phone/SMS/WhatsApp: 0822-0823-6002
3. Registered mail to HCMD (Human Capital Management Division Head), Menara Mega Syariah, 12th Floor, Jl.HR Rasuna Said Kav.19A, South Jakarta 12790

Violation Reporting System (WBS) Manager

WBS team management at Bank Mega Syariah is made with committee membership and Administrator or Secretary of the WBS Working Committee as follows:

1. The WBS Committee is a committee that is made up of the Board of Directors and a subcommittee called the WBS Working Committee. This committee is led by the Director responsible for Human Capital and assisted by the Head of the Internal Audit Working Unit and many other designated Division Heads.
2. The WBS Administrator or Secretary of the WBS Working Committee is an employee or official designated to administer and manage reports from employees or reporters on suspicions and/or indications and/or incidents of fraud or other cases of violation of regulations submitted by Employees/Reporters through the specified WBS media.

Protection for Whistleblowers

The Whistleblowing System Policy has regulated Protection for Whistleblowers, including:

1. BMS's obligation to provide protection for whistleblowers;

2. Perlindungan pelapor meliput hal-hal, antara lain, jaminan kerahasiaan identitas pelapor dan isi laporan serta jaminan keamanan bagi pelapor maupun keluarganya;
 3. Seorang pelapor akan mendapatkan perlindungan dari perusahaan terhadap perlakuan yang merugikan, seperti: pemecatan yang tidak adil, penurunan jabatan atau pangkat, pelecehan atau diskriminasi dalam bentuk apapun, serta catatan yang merugikan dalam file data pribadi (*personal file record*).
2. Protection for whistleblowers includes, among others, guarantees of confidentiality of the whistleblower's identity and the contents of the report as well as guarantees of security for the whistleblower and his/her family;
 3. A whistleblower will receive protection from the company against detrimental treatment, such as: unfair dismissal, demotion or rank, harassment or discrimination in any form, and detrimental records in personal data files (personal file records).

Sosialisasi Sistem Pelaporan Pelanggaran

Sosialisasi WBS di internal BMS disampaikan melalui berbagai media seperti buletin internal, poster, sosialisasi etika maupun presentasi langsung kepada unit kerja terkait. Untuk eksternal, sosialisasi dilakukan melalui situs web BMS dan pengiriman surat edaran/memo.

Socialization of the Violation Reporting System

Socialization of the WBS within BMS is delivered through various media such as internal bulletins, posters, ethics socialization and direct presentations to related work units. For external, socialization is carried out through the BMS website and sending circulars/memos.

Jumlah Pengaduan Tahun 2024 dan Tindak Lanjutnya

Berikut disampaikan jumlah pengaduan pelaporan pelanggaran yang masuk melalui saluran WBS di sepanjang tahun 2024 dan tindak lanjutnya.

Number of Reports in 2024 and Follow-up

The following is the number of violations reporting received through the WBS channel throughout 2024 and their follow-up.

Hubungan dengan Pemangku Kepentingan

[OJK E.4][GRI 2-29]
Stakeholder Relations

Keberlanjutan usaha BMS turut ditentukan oleh keberhasilannya dalam memenuhi tanggung jawab kepada para pemangku kepentingan yang beragam. BMS mendefinisikan pemangku kepentingan sebagai entitas atau individu yang terpengaruh oleh kegiatan, produk, dan jasa Perusahaan. Di sisi lain, keberadaan mereka juga mempengaruhi Perusahaan dalam mewujudkan keberhasilan penerapan strategi dan pencapaian tujuan. Dengan posisi seperti itu, maka BMS terus berupaya untuk membangun hubungan yang harmonis dengan para pemangku kepentingan. Hal itu dilakukan, antara lain, melalui berbagai forum pertemuan yang digelar, baik secara berkala maupun insidental sesuai dengan kebutuhan BMS atau atas permintaan pemangku kepentingan.

Selaras dengan hal tersebut, BMS juga berupaya untuk menyelenggarakan komunikasi yang intensif bersama kepentingan kelompok-kelompok dan pemangku, mengupayakan keterlibatan kelompok-kelompok tersebut sesuai dengan harapan masing-masing. Bagi BMS, keterlibatan tersebut terbukti sangat membantu perusahaan dalam menerapkan keuangan berkelanjutan selama tahun pelaporan.

Berdasarkan pemetaan yang dilakukan BMS, berikut pemangku kepentingan dan metode pelibatan yang dilakukan selama tahun pelaporan:

BMS's business sustainability is also determined by its success in fulfilling its responsibilities to its diverse stakeholders. BMS defines stakeholders as entities or individuals affected by the Company's activities, products and services. On the other hand, their existence also influences the Company in realizing the success of implementing strategies and achieving goals. With such a position, BMS continues to strive to build harmonious relationships with stakeholders. This is done, among others, through various meeting forums held, both periodically and incidentally according to BMS's needs or at the request of stakeholders.

In line with that, BMS also strives to organize intensive communication with the interests of groups and stakeholders, to seek the involvement of these groups according to their respective expectations. For BMS, this involvement has proven to be very helpful for the company in implementing sustainable finance during the reporting year.

Based on the mapping conducted by BMS, the following are stakeholders and engagement methods conducted during the reporting year:

Permasalahan terhadap Penerapan Keuangan Berkelanjutan [OJK E.5]

Issues in the Implementation of Sustainable Finance

Bank Mega Syariah (BMS) berkomitmen menjalankan program keuangan berkelanjutan sesuai dengan Rencana Bisnis Bank (RBB) dan Rencana Aksi Keuangan Berkelanjutan (RAKB) 2024. Sepanjang tahun pelaporan, implementasi program ini menghadapi tantangan berupa terbatasnya pemahaman dan kesadaran karyawan akan pentingnya keuangan berkelanjutan. Untuk mengatasi hal tersebut, BMS telah menerapkan sosialisasi, pelatihan, kampanye budaya keberlanjutan, serta pemantauan berkala. Langkah ini membantu meminimalkan risiko dan memastikan keberlanjutan program berjalan lebih efektif.

Bank Mega Syariah (BMS) is committed to implementing a sustainable finance program in accordance with the Bank's Business Plan (RBB) and the 2024 Sustainable Finance Action Plan (RAKB). Throughout the reporting year, the implementation of this program faced challenges in the form of limited employee understanding and awareness of the importance of sustainable finance. To overcome this, BMS has implemented socialization, training, sustainability culture campaigns, and periodic monitoring. These steps help minimize risks and ensure that the sustainability of the program runs more effectively.

Kinerja Keberlanjutan

Kinerja Ekonomi Berkelanjutan

Sustainable Economic Performance

Kebijakan dan Inisiatif Strategis untuk Keuangan Berkelanjutan

Sebagai lembaga keuangan yang bertanggung jawab, BMS memahami bahwa keberlanjutan tidak hanya berkaitan dengan profitabilitas, tetapi juga bagaimana produk dan layanan keuangan dapat berkontribusi dalam menciptakan sistem ekonomi yang lebih ramah lingkungan dan inklusif. Salah satu wujud nyata adalah penerapan keuangan berkelanjutan sesuai POJK No. 51 Tahun 2017 tentang Keuangan Berkelanjutan, dijalankan BMS melalui dua pendekatan utama. [GRI 3-3]

Kedua pendekatan itu ialah pengembangan produk dan layanan keuangan ramah lingkungan, serta pembiayaan berkelanjutan dalam Kategori Usaha Berwawasan Lingkungan (KUBL). Pada pembiayaan KUBL, BMS menargetkan 10% dari total portofolio pembiayaan dialokasikan ke KUBL. Upaya ini merupakan bentuk dukungan BMS pada upaya pencapaian SDG 8 - Pekerjaan Layak dan Pertumbuhan Ekonomi, dan SDG 13- Penanganan Perubahan Iklim. [GRI 3-3]

Seiring langkah Otoritas Jasa Keuangan menerbitkan Taksonomi Keuangan Berkelanjutan pada Februari 2024, BSM pun memutakhirkan Pedoman Pembiayaan Produktif yang diatur dalam SE 031/DIRBMS/24 pada 16 April 2024. Pada pedoman tersebut, BMS telah menyesuaikan kriteria pembiayaan bagi calon nasabah agar selaras dengan Kategori Usaha Berkelanjutan (KUB) sesuai Taksonomi Keuangan Berkelanjutan. [GRI 2-27]

Policies and Strategic Initiatives for Sustainable Finance

As a responsible financial institution, BMS understands that sustainability is not only related to profitability, but also how financial products and services can contribute to creating a more environmentally friendly and inclusive economic system. One concrete manifestation is the implementation of sustainable finance in accordance with POJK No. 51 of 2017 concerning Sustainable Finance, carried out by BMS through two main approaches. [GRI 3-3]

The two approaches are the development of environmentally friendly financial products and services, as well as sustainable financing in the Sustainable Business Category (KUBL). In KUBL financing, BMS targets 10% of the total financing portfolio to be allocated to KUBL. This effort is a form of BMS's support for efforts to achieve SDG 8 - Decent Work and Economic Growth, and SDG 13 - Addressing Climate Change. [GRI 3-3]

In line with the Financial Services Authority's move to issue the Sustainable Finance Taxonomy in February 2024, BSM has also updated the Productive Financing Guidelines regulated in Circular Letter SE 031/DIRBMS/24 on April 16, 2024. In these guidelines, BMS has adjusted the financing criteria for prospective customers to align with the Sustainable Business Category (KUB) according to the Sustainable Finance Taxonomy. [GRI 2-27]

Kinerja Keuangan Berkelanjutan

Sepanjang tahun 2024, Bank Mega Syariah (BMS) mencatat kinerja positif dengan sejumlah indikator pertumbuhan yang melampaui target Rencana Bisnis Bank (RBB) 2024. Capaian ini merupakan hasil dari efisiensi biaya, implementasi *operational excellence* pada proses bisnis, percepatan layanan, serta peningkatan *Service Level Agreement* (SLA). Selain itu, BMS memperkuat aspek *Risk & Governance*, meningkatkan keamanan sistem, dan mendorong produktivitas pegawai melalui pengelolaan *Key Performance Indicator* (KPI) yang lebih terukur, sehingga tim di tingkat cabang lebih fokus memperluas jaringan pasar.

Dari sisi kinerja keuangan, BMS menyalurkan total pembiayaan sebesar Rp7,76 triliun, dengan rasio kecukupan modal (CAR) mencapai 28,80%, jauh di atas ketentuan minimum regulator sebesar 9%. Non-performing financing (NPF) berhasil dijaga di level 0,91%, di bawah ambang batas yang ditetapkan. Pada sisi pendanaan, terjadi peningkatan menjadi Rp11,04 triliun, didukung oleh strategi *managing cost of fund*, terutama melalui peningkatan giro yang naik menjadi Rp2,04 triliun. Hingga akhir 2024, BMS mencatatkan laba bersih sebesar Rp253 miliar, mencerminkan kinerja yang tetap solid di tengah tantangan ekonomi global dan nasional.

Perbandingan Kinerja Keuangan [OJK F.2]

Dengan kinerja keuangan yang positif, BMS mampu mendistribusikan nilai ekonomi langsung kepada para pemangku kepentingan, berupa pembayaran gaji karyawan, pajak, dividen, biaya kepada pemasok, hingga investasi sosial melalui program Tanggung Jawab Sosial dan Lingkungan (TJS) atau *Corporate Social Responsibility* (CSR). Sementara itu, nilai ekonomi yang disimpan digunakan sebagai modal pengembangan bisnis guna memperkuat daya saing dan ekspansi bank di masa depan.

Sustainable Financial Performance

Throughout 2024, Bank Mega Syariah (BMS) recorded positive performance with a number of growth indicators that exceeded the Bank's 2024 Business Plan (RBB) target. This achievement is the result of cost efficiency, implementation of operational excellence in business processes, acceleration of services, and improvement of the Service Level Agreement (SLA). In addition, BMS strengthened the Risk & Governance aspect, improved system security, and encouraged employee productivity through more measurable Key Performance Indicator (KPI) management, so that teams at the branch level can focus more on expanding market networks.

In terms of financial performance, BMS distributed total financing of IDR 7.76 trillion, with a capital adequacy ratio (CAR) reaching 28.80%, far above the regulator's minimum requirement of 9%. Non-performing financing (NPF) successfully maintained at 0.91% below the required threshold. On the funding side, there was an increase to IDR 11.04 trillion, supported by the strategy of managing the cost of funds, especially through an increase in current accounts which rose to IDR 2.04 trillion. By the end of 2024, BMS recorded a net profit of IDR 253 billion, reflecting solid performance amidst global and national economic challenges.

Comparison of Financial Performance [OJK F.2]

With positive financial performance, BMS is able to distribute direct economic value to stakeholders, in the form of employee salary payments, taxes, dividends, costs to suppliers, and social investment through the Social and Environmental Responsibility (TJS) or *Corporate Social Responsibility* (CSR) program. Meanwhile, the economic value saved is used as capital for business development to strengthen the bank's competitiveness and expansion in the future.

Pelibatan Pemasok Lokal

Dalam menjalankan kegiatan usahanya, Bank bermitra dengan para pemasok lokal yang beroperasi di wilayah yang sama dengan kantor pusat maupun kantor cabang Bank. Selama tahun 2024, Bank bekerja sama dengan 281 mitra pemasok lokal dengan proporsi pembayaran untuk pemasok lokal sebesar 100% dari keseluruhan pemasok.

Local Supplier Engagement

In carrying out its business activities, the Bank partners with local suppliers operating in the same area as the Bank's head office and branch offices. During 2024, the Bank collaborated with 281 local supplier partners with a payment proportion for local suppliers of 100% of all suppliers.

Pembiayaan Berkelanjutan

Sesuai Pedoman Pembiayaan Produktif yang diatur dalam SE 031/DIRBMS/24 pada 16 April 2024, BMS telah melakukan seleksi ketat terhadap nasabah di segmen korporasi yang menjalankan kegiatan usaha berkelanjutan pada salah satu dari 12 KUB.

Per Desember 2024, Bank telah melakukan seleksi kepada enam nasabah segmen Korporasi untuk dapat mempertahankan portofolio pembiayaan usaha berkelanjutan dalam kategori pengelolaan air dan limbah, produk hemat sumber daya dan polusi, efisiensi energi, serta bangunan berwawasan lingkungan. Total pembiayaan mencapai Rp729,674 miliar.

Selain itu, Bank juga telah memberikan pembiayaan kepada sembilan nasabah yang dalam proses usahanya menjalankan kegiatan pengelolaan air dan limbahnya, dengan total pembiayaan mencapai Rp413,611 miliar

Sustainable Financing

In accordance with the Productive Financing Guidelines stipulated in SE 031/DIRBMS/24 on April 16, 2024, BMS has conducted strict selection of customers in the corporate segment who carry out sustainable business activities in one of the 12 KUBs.

As of December 2024, the Bank has conducted selection of six Corporate segment customers to be able to maintain a sustainable business financing portfolio in the categories of water and waste management, resource and pollution-saving products, energy efficiency, and environmentally friendly buildings. The financing amount to IDR 729.674 billion.

In addition to that, the Bank has also provided financing to nine customers who are in the process of running their water and waste management activities, with total financing reaching IDR 413.611 billion.

Menjunjung Prinsip Usaha yang Sehat

Bertambahnya populasi Muslim Indonesia dan meningkatnya kesadaran akan keuangan berbasis syariah telah meningkatkan persaingan dalam industri perbankan syariah. Kami memahami persaingan ini sebagai hal lazim dalam dunia usaha. Oleh karena itu, BMS berpegang pada prinsip persaingan sehat, yang mendorong Bank untuk terus meningkatkan kualitas produk dan layanan sesuai dengan harapan nasabah. Kompetisi yang sehat juga memberikan manfaat bagi nasabah, karena mereka memiliki lebih banyak pilihan layanan perbankan yang berkualitas. [GRI 3-3]

BMS berkomitmen untuk menjalankan bisnis dengan menjunjung etika usaha, menolak praktik monopolis dan kolusi, serta memastikan persaingan yang adil. Perusahaan tidak mentoleransi tindakan yang membatasi kompetisi pasar, seperti koordinasi penawaran atau alokasi nasabah dan pemasok. Sesuai dengan Undang-Undang No. 5 Tahun 1999 tentang Larangan Praktik Monopoli dan Persaingan Usaha Tidak Sehat, BMS senantiasa mematuhi regulasi yang berlaku. Sepanjang tahun 2024, tidak ada tindakan hukum atau sanksi dari Komisi Pengawas Persaingan Usaha (KPPU) terhadap perusahaan, yang menunjukkan komitmen kuat BMS dalam menjalankan usaha secara transparan dan kompetitif. [GRI 206-1]

Upholding Healthy Business Principles

The growing Muslim population in Indonesia and the increasing awareness of sharia-based finance have increased competition in the sharia banking industry. We understand that this competition is common in the business world. Therefore, BMS adheres to the principle of healthy competition, which encourages the Bank to continuously improve the quality of products and services in accordance with customer expectations. Healthy competition also benefits customers, as they have more choices of quality banking services. [GRI 3-3]

BMS is committed to conducting business by upholding business ethics, rejecting monopolistic and collusive practices, and ensuring fair competition. The company does not tolerate actions that limit market competition, such as coordinating offers or allocating customers and suppliers. In accordance with Law No. 5 of 1999 concerning the Prohibition of Monopolistic Practices and Unfair Business Competition, BMS always complies with applicable regulations. Throughout 2024, there were no legal actions or sanctions from the Business Competition Supervisory Commission (KPPU) against the company, which shows BMS' strong commitment to conducting business in a transparent and competitive manner. [GRI 206-1]

Kinerja Lingkungan

Environmental Performance

Tantangan perubahan iklim semakin menjadi isu global yang mendesak. Terlebih, suhu global rata-rata selama tahun 2024 telah dikonfirmasi Organisasi Meteorologi Dunia (World Meteorology Organization/WMO) melampaui 1,5° Celcius di atas garis dasar pra-industri untuk pertama kalinya, yang berarti telah melampaui ambang batas yang ditetapkan dalam Perjanjian Paris 2015. Para ilmuwan pun sepakat bahwa peningkatan suhu terutama disebabkan oleh aktivitas manusia yang menghasilkan emisi Gas Rumah Kaca (GRK), ditambah fenomena El Nino. Dampaknya terlihat dari cuaca ekstrem di berbagai wilayah, termasuk gelombang panas, pencairan es di kutub, banjir besar, dan kebakaran hutan yang meluas.

Untuk menurunkan emisi GRK, dibutuhkan kontribusi banyak pihak. Sebagai bagian dari ekosistem keuangan, BMS menyadari perannya dalam mendukung aksi mitigasi dan adaptasi perubahan iklim, sejalan dengan Tujuan Pembangunan Berkelanjutan (SDGs) ke-13: Penanganan Perubahan Iklim. Dalam hal ini, Bank berperan strategis untuk mendorong ekonomi hijau melalui pembiayaan berkelanjutan. Selain itu, Bank juga dapat mengintegrasikan aspek keberlanjutan dalam operasionalnya.

The challenge of climate change is increasingly becoming a pressing global issue. Moreover, the average global temperature during 2024 has been confirmed by the World Meteorological Organization (WMO) to exceed 1.5° Celsius above the pre-industrial baseline for the first time, which means it has exceeded the threshold set in the 2015 Paris Agreement. Scientists also agree that the increase in temperature is mainly caused by human activities that produce Greenhouse Gas (GHG) emissions, coupled with the El Nino phenomenon. The impacts are seen from extreme weather in various regions, including heat waves, melting polar ice, major floods, and widespread forest fires.

To reduce GHG emissions, contributions from many parties are needed. As part of the financial ecosystem, BMS is aware of its role in supporting climate change mitigation and adaptation actions, in line with Sustainable Development Goal (SDGs) 13: Addressing Climate Change. In this case, the Bank plays a strategic role in encouraging a green economy through sustainable financing. In addition, the Bank can also integrate sustainability aspects into its operations.

Komitmen Lingkungan BMS [GRI 3-3]

Kami berkomitmen penuh mendukung keuangan berkelanjutan guna mewujudkan pembangunan berkelanjutan di Indonesia. Dalam menjalankan bisnis dan operasional Bank yang berlandaskan prinsip *rahmatan lil alamin*, kami mengedepankan keseimbangan antara aspek *people*, *planet*, dan *prosperity*. Hal tersebut sesuai visi BMS yaitu "Tumbuh Bersama Bangsa dengan Berkontribusi dalam Pembangunan Berkelanjutan".

Sejalan dengan POJK No. 51/POJK.03/2017 tentang Keuangan Berkelanjutan, BMS telah mengimplementasikan Rencana Aksi Keuangan Berkelanjutan (RAKB) sebagai kerangka kerja utama dalam menjalankan strategi keberlanjutan. RAKB ini mencakup berbagai program strategis seperti penguatan kebijakan pembiayaan hijau; pengelolaan operasional perbankan yang lebih efisien dan ramah lingkungan; serta sosialisasi prinsip keberlanjutan kepada karyawan dan mitra bisnis.

Berbagai kebijakan mitigasi telah diadopsi Bank guna memastikan operasional dan layanan keuangan yang diberikan sejalan dengan prinsip keberlanjutan. BMS menghindari keterlibatan dalam aktivitas bisnis yang berkontribusi terhadap degradasi lingkungan atau memiliki dampak sosial negatif. Komitmen ini diwujudkan melalui kebijakan pembiayaan yang ketat, yaitu tidak memberikan pembiayaan kepada perusahaan yang terlibat dalam kerusakan lingkungan. Kami juga memiliki mekanisme evaluasi dan audit keberlanjutan terhadap portofolio pembiayaan. Untuk memperluas dukungan pembiayaan berwawasan lingkungan, kami berupaya meningkatkan portofolio pembiayaan berkelanjutan melalui sektor-sektor hijau.

Pada aspek operasional, Bank menerapkan prinsip 3R (*Reduce, Reuse, Recycle*) untuk mengurangi limbah, serta mengoptimalkan penggunaan energi, air, dan material kantor sebagai upaya efisiensi. Sementara sosialisasi prinsip keberlanjutan juga dijalankan secara berkala kepada karyawan dan mitra bisnis untuk memastikan implementasi keberlanjutan tercermin dalam rantai pasok kami.

Secara berkala, Bank melakukan evaluasi terhadap efektivitas strategi keberlanjutannya dengan cara memantau proporsi pembiayaan hijau dan efisiensi operasional, juga melakukan evaluasi atas RAKB untuk mengukur pencapaian target keberlanjutan dan menyusun langkah perbaikan. Bank secara berkala melakukan dialog dan konsultasi dengan nasabah, regulator, mitra bisnis, serta karyawan untuk memperoleh masukan dalam penyusunan dan implementasi strategi keberlanjutan. Masukan ini digunakan untuk menilai efektivitas kebijakan yang telah diterapkan dan memperbaiki pendekatan yang masih perlu disempurnakan.

BMS Environmental Commitment [GRI 3-3]

We are fully committed to supporting sustainable finance to realize sustainable development in Indonesia. In running the Bank's business and operations based on the principle of *rahmatan lil alamin*, we prioritize a balance between the aspects of people, planet, and prosperity. This is in accordance with BMS's vision, namely "Growing Together with the Nation by Contributing to Sustainable Development".

In line with Financial Services Authority Regulation No. 51/POJK.03/2017 concerning Sustainable Finance, BMS has implemented a Sustainable Finance Action Plan (RAKB) as the main framework in implementing sustainability strategies. This RAKB includes various strategic programs such as strengthening green financing policies; managing more efficient and environmentally friendly banking operations; and socializing sustainability principles to employees and business partners.

Various mitigation policies have been adopted by the Bank to ensure that the operations and financial services provided are in line with sustainability principles. BMS avoids involvement in business activities that contribute to environmental degradation or have negative social impacts. This commitment is realized through a strict financing policy, namely not providing financing to companies involved in environmental damage. We also have a sustainability evaluation and audit mechanism for the financing portfolio. To expand support for environmentally friendly financing, we strive to increase the sustainable financing portfolio through green sectors.

In terms of operations, the Bank applies the 3R principle (*Reduce, Reuse, Recycle*) to reduce waste, and optimize the use of energy, water, and office materials as an efficiency effort. Meanwhile, socialization of sustainability principles is also carried out periodically to employees and business partners to ensure that the implementation of sustainability is reflected in our supply chain.

Periodically, the Bank evaluates the effectiveness of its sustainability strategy by monitoring the proportion of green financing and operational efficiency, and also evaluates the RAKB to measure the achievement of sustainability targets and prepare improvement steps. The Bank periodically conducts dialogues and consultations with customers, regulators, business partners, and employees to obtain input in the preparation and implementation of the sustainability strategy. This input is used to assess the effectiveness of policies that have been implemented and improve approaches that still need to be refined.

Selama tahun 2024, operasional BMS tidak membawa dampak negatif bagi lingkungan, tidak mendapatkan pengaduan terkait lingkungan maupun dikenai sanksi hukum dan administratif terkait lingkungan. [GRI 2-27]

Biaya Lingkungan [OJK F.4]

Biaya lingkungan adalah biaya yang dikeluarkan Bank untuk mengurangi dan mengatasi dampak negatif lingkungan. Dalam konteks ini, Bank telah menggunakan air PDAM, sesuai ketentuan Peraturan Gubernur Nomor 93 Tahun 2021 pada 22 Oktober 2021 yang secara khusus mengatur tentang pembatasan penggunaan air tanah di wilayah DKI Jakarta.

| Biaya Cost | 2024 | Cakupan Scope |
|--|--------------|-----------------------------|
| Pembelian air PDAM Purchase of PDAM water | Rp16,097,979 | Kantor pusat Head Office |

Penggunaan Material Ramah Lingkungan

[OJK F.5]

Kertas merupakan material penting dalam operasional BMS, digunakan untuk administrasi, surat-menyerat, pencetakan dokumen, dan transaksi nasabah. Sejalan dengan digitalisasi operasional dan layanan perbankan, kami berupaya menekan penggunaan kertas. Efisiensi dilakukan dengan memanfaatkan teknologi informasi, seperti *email*, pesan singkat, *phone banking*, *internet banking*, dan WhatsApp. Sedangkan untuk keperluan transaksi perbankan oleh nasabah, kami masih mencetak buku tabungan dan menggunakan material plastik pada kartu atm. Pada aspek pemasaran, kami juga menggiatkan kampanye pemasaran digital sehingga Bank dapat mengurangi pencetakan brosur maupun material pemasaran lainnya.

Untuk mengurangi penggunaan kertas, Bank menerapkan kebijakan pencetakan hanya untuk dokumen penting, sementara draft dicetak di sisi kosong kertas bekas (*reuse*). Kertas yang tidak dapat digunakan lagi diserahkan kepada pihak ketiga untuk didaur ulang (*recycle*). Untuk dokumen penting, penghancuran dilakukan terlebih dahulu sebelum dibuang. Meskipun kertas dapat didaur ulang, BMS tidak menggunakan hasil daur ulang tersebut dalam operasional sehari-hari.

During 2024, BMS operations did not have a negative impact on the environment, did not receive complaints related to the environment or were subject to legal and administrative sanctions related to the environment. [GRI 2-27]

Environmental Costs [OJK F.4]

Environmental costs refer to expenses incurred by the Bank to mitigate and manage negative environmental impacts. In this context, the Bank utilizes water supplied by the local water utility (PDAM) in accordance with Governor Regulation No. 93 of 2021, issued on October 22, 2021, which specifically regulates the restriction of groundwater use in the DKI Jakarta area.

Use of Environmentally Friendly Materials

[OJK F.5]

Paper is an important material in BMS operations, used for administration, correspondence, document printing, and customer transactions. In line with the digitalization of banking operations and services, we strive to reduce paper usage. Efficiency is achieved by utilizing information technology, such as email, short messages, phone banking, internet banking, and WhatsApp. Meanwhile, for banking transaction needs by customers, we still print savings books and use plastic material on ATM cards. In terms of marketing, we are also intensifying digital marketing campaigns so that the Bank can reduce the printing of brochures and other marketing materials.

To reduce paper usage, the Bank implements a printing policy only for important documents, while drafts are printed on the blank side of used paper (*reuse*). Paper that cannot be used again is handed over to a third party for recycling. For important documents, they are destroyed first before being disposed of. Although paper can be recycled, BMS does not use the recycled results in daily operations.

| Material Material | 2024 | 2023 | 2022 |
|------------------------------|-------|-------|-------|
| Kertas (rim) Paper (ream) | 1,758 | 1,829 | 1,690 |

Pengelolaan Energi dan Emisi GRK

Dalam menjalankan operasionalnya, BMS menggunakan dua sumber energi utama, yaitu listrik dan bahan bakar minyak (BBM) yang diperoleh dari pihak ketiga. Listrik digunakan untuk penerangan serta mengoperasikan perangkat elektronik, sementara BBM dimanfaatkan untuk menjalankan genset sebagai sumber daya cadangan saat listrik padam, serta sebagai bahan bakar kendaraan operasional. Demi memastikan operasional tetap berjalan (*near zero downtime*), BMS menggunakan genset berkapasitas 1.000 KVA berbahan bakar solar industri, yang dilengkapi dengan Uninterruptible Power Supply (UPS) untuk perangkat berisiko tinggi. [GRI 3-3]

Penggunaan Energi dan Intensitasnya [OJK F.6][GRI 302-1, 302-3] Energy Usage and Its Intensity

| Uraian Description | Satuan Unit | 2024 | 2023 | 2022 |
|--|--|-----------|-----------|-----------|
| Energi tak terbarukan Non-renewable energy | | | | |
| Bensin untuk kendaraan operasional | Liter | 1,226 | 3,515 | 1,475 |
| Gasoline for operational vehicles | GJoule | 40.46 | 120.22 | 59.68 |
| Listrik PLN | kWh | 259,335 | 264,048 | 245,978 |
| PLN Electricity | GJoule | 933.60 | 950.57 | 885.5 |
| Total Pendapatan Bank | Rp juta | 1,256,848 | 1,207,354 | 920,533 |
| Total Bank Income | Million IDR | | | |
| Total Pembiayaan yang disalurkan | Rp juta | 7,762,007 | 6,994,952 | 7,227,489 |
| Total Financing Disbursed | Million IDR | | | |
| Total Luas Gedung | m ² | 17,224 | 17,224 | 17,224 |
| Total Building Area | m ² | | | |
| Intensitas Energi berbasis pendapatan | GJoule/ Rp juta | 0.0008 | 0.0009 | 0.0010 |
| Income-based Energy Intensity | GJoule/million IDR | | | |
| Intensitas Energi berbasis pembiayaan | GJoule/ Rp juta | 0.0022 | 0.0025 | 0.0024 |
| Financing-based Energy Intensity | GJoule/million IDR | | | |
| Intensitas Konsumsi Energi berbasis luas Gedung | kWh/m ² /tahun kWh/m ² /bulan | 15,0566 | 15,3302 | 14,2811 |
| Building area based energy consumption intensity | kWh/m ² /year kWh/m ² /month | 1,2547 | 1,2775 | 1,1900 |

Faktor konversi/ Conversion Factor

1 Liter BBM (Pertalite dan Pertamax) = 0,033 GJ berdasarkan Buku II Pedoman Penyelenggaraan Inventarisasi GRK Nasional 2012

1 kWh = 0,0036 GJ, berdasarkan standar IPCC (UNEP) 2006, GHG Protocol (WBCSD, WRI). ISO 14064

1 Liter of Fuel Oil (Pertalite and Pertamax) = 0.033 GJ based on Book II of the Guidelines for the Implementation of the National GHG Inventory 2012

1 kWh = 0.0036 GJ, based on the IPCC standard (UNEP) 2006, GHG Protocol (WBCSD, WRI). ISO 14064

Energy Management and GHG Emissions

In carrying out its operations, BMS uses two main energy sources, namely electricity and fuel oil (BBM) obtained from third parties. Electricity is used for lighting and operating electronic devices, while BBM is used to run generators as a backup power source when the power goes out, as well as fuel for operational vehicles. To ensure that operations continue to run (near zero downtime), BMS uses a 1,000 KVA generator powered by industrial diesel, which is equipped with an Uninterruptible Power Supply (UPS) for high-risk devices. [GRI 3-3]

Kami memahami, sebagian besar kebutuhan energi di Indonesia masih bergantung pada sumber energi berbasis fosil. Untuk itu, Bank memprioritaskan upaya efisiensi energi sambil secara bertahap menggunakan energi terbarukan. Upaya efisiensi energi yang dijalankan selama tahun 2024 masih merupakan kelanjutan dari inisiatif di tahun-tahun sebelumnya, antara lain penggunaan AC jenis inverter yang lebih hemat energi dengan penggunaan yang dibatasi, penggunaan lampu LED, serta perawatan rutin pada perangkat elektronik kantor. [OJK F.7]

Berdasarkan data penggunaan listrik tersebut, Bank melakukan perhitungan intensitas energi secara manual dengan memperbandingkan total energi selama 2024 dengan pendapatan Bank, serta penyaluran pembiayaan. Kami juga menghitung intensitas konsumsi energi (IKE) per luas bangunan yang digunakan BMS.

Selanjutnya, hasil penghitungan dicocokkan dengan tabel nilai IKE sebagaimana disampaikan dalam Peraturan Menteri Energi dan Sumber Daya Mineral No.13/2012 tentang Penghematan Pemakaian Tenaga Listrik. Berdasarkan tabel tersebut, penggunaan energi Bank tergolong "sangat efisien" dengan intensitas energi sebesar 1,2547 kWh/m²/bulan.

Pada upaya pengurangan BBM, Bank terus berupaya mengurangi rapat tatap muka dan menggantikannya dengan telekonferensi sehingga penggunaan BBM untuk transportasi bisa ditekan. Upaya ini sekaligus merupakan bentuk dukungan atas Instruksi Presiden Republik Indonesia Nomor 13 Tahun 2011 tentang Penghematan Energi dan Air. [OJK F.7] [OJK F.12] [GRI 2-27, 302-4]

Upaya efisiensi energi yang dilakukan Bank sejalan dengan upaya mengurangi emisi gas rumah kaca (GRK). Kami memahami perusahaan menghasilkan emisi GRK dari penggunaan listrik dan BBM yang turut berkontribusi pada pemanasan global. Dalam laporan ini, emisi yang dilaporkan adalah emisi GRK langsung (Cakupan 1) yang dihasilkan dari penggunaan bahan bakar minyak, dan emisi GRK (Cakupan 2) tidak langsung yang bersumber dari penggunaan listrik dengan cakupan data Kantor Pusat BMS.

Selain itu Bank juga melaporkan emisi GRK (Cakupan 3) tidak langsung yang bersumber dari aktivitas bisnis debitur yang dibiayai. Pelaporan ini mencakup sekitar 50% dari total debitur Bank. Untuk debitur yang belum memiliki data emisi, Bank menggunakan metode *proxy*, yaitu memperkirakan nilai emisi berdasarkan data dari perusahaan lain dengan karakteristik serupa yang sudah memiliki data atau publikasi emisi. [GRI 3-3]

We understand that most of Indonesia's energy needs still depend on fossil-based energy sources. Therefore, the Bank prioritizes energy efficiency efforts while gradually using renewable energy. Energy efficiency efforts carried out during 2024 are still a continuation of initiatives in previous years, including the use of more energy-efficient inverter ACs with limited use, the use of LED lights, and routine maintenance on office electronic devices. [OJK F.7]

Based on the electricity usage data, the Bank manually calculates energy intensity by comparing the total energy during 2024 with the Bank's income, as well as financing distribution. We also calculate the energy consumption intensity (IKE) per building area used by BMS.

Furthermore, the calculation results are matched with the IKE value table as stated in the Regulation of the Minister of Energy and Mineral Resources No. 13/2012 concerning Savings on Electricity Usage. Based on the table, the Bank's energy usage is classified as "very efficient" with an energy intensity of 1.2547 kWh/m²/month.

In the effort to reduce fuel consumption, the Bank continues to reduce face-to-face meetings and replace them with teleconferences so that the use of fuel for transportation can be reduced. This effort is also a form of support for the Presidential Instruction of the Republic of Indonesia Number 13 of 2011 concerning Energy and Water Conservation. [OJK F.7] [OJK F.12] [GRI 2-27, 302-4]

The Bank's energy efficiency efforts are in line with efforts to reduce greenhouse gas (GHG) emissions. We understand that companies produce GHG emissions from the use of electricity and fuel which contribute to global warming. In this report, the emissions reported are direct GHG emissions (Scope 1) resulting from the use of fuel oil, and indirect GHG emissions (Scope 2) originating from the use of electricity with data coverage from the BMS Head Office.

Furthermore, the Bank also reports indirect GHG emissions (Scope 3) originating from the business activities of financed debtors. This reporting covers approximately 50% of the Bank's total debtors. For debtors without available emission data, the Bank applies a proxy method, estimating emissions based on data from other companies with similar characteristics that have published or calculated their emissions. [GRI 3-3]

Emisi GRK yang Dihasilkan dan Intensitasnya [OJK F.11]
GHG Emissions Produced and Their Intensity

| Uraian Description | Satuan Unit | 2024 | 2023 | 2022 |
|---|-------------------------------|-----------|-----------|-----------|
| Scope 1 [GRI 305-1] | | | | |
| Emisi GRK dari Bensin untuk kendaraan operasional | tonCO ₂ e | 2.792 | 8.038 | 3.991 |
| GHG emissions from gasoline for operational vehicles | | | | |
| Scope 2 [GRI 305-2] | | | | |
| Listrik PLN | tonCO ₂ e | 231.845 | 246.621 | 229.742 |
| PLN Electricity | | | | |
| Total Emisi GRK | tonCO ₂ e | 234.637 | 254.624 | 233.717 |
| GRG Total Emissions | | | | |
| Total Pendapatan | Rp juta | 1,256,848 | 1,207,354 | 920,533 |
| Total Income | Million IDR | | | |
| Total Pembiayaan yang disalurkan | Rp juta | 7,762,007 | 6,994,952 | 7,227,489 |
| Total Financing Disbursed | Million IDR | | | |
| Intensitas Emisi GRK berbasis pendapatan [GRI 305-4] | tonCO ₂ e /Rp Juta | 0.00019 | 0.00021 | 0.00025 |
| Income-based GHG Emission Intensity [GRI 305-4] | | | | |
| Intensitas Emisi GRK berbasis pembiayaan [GRI 305-4] | tonCO ₂ e /Rp Juta | 0.00003 | 0.00004 | 0.00003 |
| Financing-based GHG Emission Intensity [GRI 305-4] | | | | |
| Scope 3 | | | | |
| Emisi GRK yang dihasilkan dari aktivitas bisnis debitur pembiayaan [GRI 305-3] | tonCO ₂ e | 165,723 | N/A | N/A |
| GHG emissions resulting from the business activities of financing debtors [GRI 305-3] | | | | |

*Perhitungan emisi GRK dari listrik PLN diperoleh dengan mengalikan konsumsi listrik (dalam kWh per tahun) dengan faktor emisi yang dihasilkan jaringan listrik Jawa Madura Bali merujuk RUPTL PLN 2021-2030 yaitu sebesar 0,894 kgCO₂/kWh (2021).

*The calculation of GHG emissions from PLN electricity is obtained by multiplying electricity consumption (in kWh per year) by the grid emission factor of the Java-Madura-Bali electricity network, based on the PLN RUPTL 2021-2030, which is 0.894 kgCO₂/kWh (2021).

Penggunaan Air

BMS menggunakan air untuk kebutuhan operasional perkantoran, seperti kamar kecil, kebutuhan wudhu, mencuci peralatan dapur dan kendaraan. Sejak 2012, Kantor Pusat BMS tidak lagi menggunakan air tanah guna mencegah penurunan muka air tanah. Sebagai gantinya, perusahaan mengandalkan pasokan air bersih dari PDAM yang disimpan dalam storage khusus. [GRI \[3-3\]](#)

Menyadari keterbatasan sumber air bersih dan meningkatnya pencemaran air baku, BMS berkomitmen untuk melakukan penghematan air. Upaya yang dilakukan meliputi kampanye dan imbauan penghematan air bagi karyawan; pengecekan rutin saluran air, keran, dan valve; serta perbaikan segera apabila terjadi kebocoran atau kerusakan. Selama tahun 2024, jumlah air yang digunakan mencapai 1.271 m³. [\[GRI 303-3\] \[OJK F.8\]](#)

Water Use

BMS uses water for office operational needs, such as toilets, ablution needs, washing kitchen equipment and vehicles. Since 2012, the BMS Head Office has no longer used groundwater to prevent groundwater levels from decreasing. Instead, the company relies on clean water supplies from PDAM which are stored in special storage. [GRI \[3-3\]](#)

Realizing the limited sources of clean water and increasing pollution of raw water, BMS is committed to saving water. Efforts made include campaigns and appeals to save water for employees; routine checks of water pipes, taps, and valves; and immediate repairs if there is a leak or damage. Throughout 2024, the amount of water used reached 1.271 m³. [\[GRI 303-3\] \[OJK F.8\]](#)

Penggunaan Air

Water Usage

| Air berdasarkan sumber Water by source | Satuan Unit | 2024 | 2023 | 2022 |
|---|----------------|-------|-------|-------|
| Air PDAM untuk kantor pusat PDAM water for head office | m³ | 1,271 | 1,324 | 1,019 |

Adapun air limbah kegiatan perkantoran telah dikelola menggunakan sistem pengolahan air limbah domestik atau *Sewage Treatment Plant* (STP). Pembuangan air limbah secara berkala disertifikasi oleh Dinas Lingkungan Hidup Provinsi DKI Jakarta guna memastikan kepatuhan terhadap standar lingkungan yang berlaku.

Dalam pengelolaan air limbah, BMS merujuk pada Keputusan Gubernur DKI Jakarta No. 45 Tahun 1992 tentang Pengelolaan Air Limbah Sistem Perpipaan, serta Keputusan Gubernur DKI Jakarta No. 991/2012 tentang Tarif dan Penyambungan Pipa Air Limbah Perusahaan Daerah PAL Jaya, yang mewajibkan pembuangan limbah air kotor ke saluran PD PAL Jaya. Kebijakan ini mengurangi beban penggunaan STP di gedung Kantor Pusat, sekaligus menekan konsumsi listrik secara keseluruhan, sehingga lebih efisien dan ramah lingkungan.

Meanwhile, wastewater from office activities has been managed using a domestic wastewater treatment system or Sewage Treatment Plant (STP). Periodic wastewater discharge is certified by the DKI Jakarta Provincial Environmental Service to ensure compliance with applicable environmental standards.

In wastewater management, BMS refers to the Decree of the Governor of DKI Jakarta No. 45 of 1992 concerning Management of Piped Wastewater Systems, as well as the Decree of the Governor of DKI Jakarta No. 991/2012 concerning Tariffs and Connections of Wastewater Pipes for the Regional Company PAL Jaya, which requires the discharge of dirty water waste into the PD PAL Jaya channel. This policy reduces the burden of STP use in the Head Office building, while reducing overall electricity consumption, making it more efficient and environmentally friendly.

Pengolahan Limbah Domestik [OJK F.14] [GRI 306-2]

Operasional Bank menghasilkan sampah yang dapat dikategorikan sebagai limbah non B3 seperti kertas maupun sampah organik lainnya, serta limbah B3 seperti alat elektronik rusak. Untuk mengurangi jumlah limbah, BMS menerapkan prinsip 3R (*Reduce, Reuse, Recycle*) dalam aspek operasional. Salah satunya, kebijakan penggunaan *tumbler* bagi karyawan guna mengurangi sampah plastik sekali pakai.

Kami mengelola sampah perkantoran dengan menyediakan tempat sampah yang cukup dan memisahkan sampah berdasarkan jenisnya. Secara umum, operasional Bank menghasilkan sampah non B3 seperti sampah kertas maupun sampah domestik hasil dari kegiatan perkantoran, serta sampah B3 seperti alat elektronik rusak. Pembuangan sampah ke tempat pembuangan akhir dilakukan melalui kerja sama dengan pihak ketiga. Untuk mengurangi limbah, BMS berkolaborasi dengan PT Armada Kemasan Nusantara dalam program pemilahan sampah di Kantor Pusat. Sampah daur ulang yang terkumpul kemudian diolah kembali menjadi barang yang berguna.

Domestic Waste Management [OJK F.14] [GRI 306-2]

Bank operations produce waste that can be categorized as non-B3 waste such as paper and other organic waste, as well as B3 waste such as damaged electronic devices. To reduce the amount of waste, BMS applies the 3R principle (*Reduce, Reuse, Recycle*) in operational aspects. One of them is the policy of using tumblers for employees to reduce single-use plastic waste.

We manage office waste by providing sufficient trash bins and separating waste based on type. In general, Bank operations produce non-B3 waste such as paper waste and domestic waste from office activities, as well as B3 waste such as damaged electronic devices. Waste disposal to the final disposal site is carried out through cooperation with third parties. To reduce waste, BMS collaborates with PT Armada Kemasan Nusantara in a waste sorting program at the Head Office. The collected recycled waste is then reprocessed into useful items.

Pada tahun 2024 program pengelolaan sampah di lingkungan Kantor Pusat Bank Mega Syariah masih berkolaborasi dengan PT Armada Kemasan Nusantara dimana pengelolaan sampah dilakukan dengan memilah sampah yang bisa didaur ulang dengan sampah organik. Program ini dipicu adanya keprihatinan atas dampak penimbunan sampah di TPA Bantar Gebang Bekasi yang sudah semakin memprihatinkan. Setelah sampah daur ulang terkumpul, sampah-sampah tersebut akan diolah kembali menjadi barang yang berguna.

Saat ini, pemilahan sampah telah diterapkan di 10 lantai Menara Mega Syariah, dengan titik tempat sampah daur ulang di setiap lantai sebelum dikumpulkan ke tempat utama. Sepanjang 2024, BMS berhasil mengumpulkan 1.215 kg sampah yang dapat didaur ulang. Program ini tidak hanya menjaga kebersihan kantor, tetapi juga mendorong karyawan untuk membiasakan pemilahan sampah, sehingga dapat diterapkan dalam kehidupan sehari-hari.

Selama tahun 2024, tidak ada tumpahan limbah yang dihasilkan Bank dan membahayakan lingkungan maupun masyarakat sekitar. [OJK F:15]

Limbah yang Dihadirkan [OJK F:13] [GRI 306-1]

Waste Generated

| Jenis Limbah Types of Waste | Satuan Unit | 2024 | 2023 | 2022 |
|--|----------------|-------|------|------|
| Limbah non B3 organik Non-B3 organic waste | kg | 389 | 118 | - |
| Limbah yang dapat didaur ulang Recyclable waste | kg | 1,215 | 834 | - |

Pelestarian Lingkungan

Wilayah operasional Bank tidak berdekatan dengan wilayah konservasi ataupun wilayah dengan keanekaragaman hayati tinggi, sehingga operasional kami tidak berdampak langsung pada biodiversitas. Meskipun demikian, BMS berkomitmen menjaga kelestarian lingkungan melalui berbagai program Tanggung Jawab Sosial dan Lingkungan (TJSL/CSR). [OJK F:9, F:10]

Selama tahun 2024, tidak ada pengaduan terkait lingkungan yang diterima oleh BMS. [OJK F:16]

In 2024, the waste management program in the Bank Mega Syariah Head Office environment still collaborate with PT Armada Kemasan Nusantara where waste management is carried out by sorting recyclable waste from organic waste. This program was triggered by concerns over the impact of waste accumulation at the Bantar Gebang Bekasi TPA which has become increasingly concerning. After the recyclable waste is collected, the waste will be reprocessed into useful items.

Currently, waste sorting has been implemented on 10 floors of Menara Mega Syariah, with recycling bins on each floor before being collected in the main place. Throughout 2024, BMS managed to collect 1,215 kg of recyclable waste. This program not only maintains office cleanliness but also encourages employees to get used to waste sorting, so that it can be applied in everyday life.

During 2024, there were no waste spills produced by the Bank that harmed the environment or the surrounding community. [OJK F:15]

Environmental Conservation

The Bank's operational area is not adjacent to conservation areas or areas with high biodiversity, so our operations do not have a direct impact on biodiversity. However, BMS is committed to preserving the environment through various Social and Environmental Responsibility (TJSL/CSR) programs. [OJK F:9, F:10]

During 2024, BMS did not receive any environment complaints. [OJK F:16]

Kinerja Sosial

Social Performance

Komitmen Sosial BMS

Kinerja sosial BMS mencakup berbagai upaya dalam memenuhi tanggung jawab kepada pemangku kepentingan, baik internal maupun eksternal. Pemangku kepentingan internal meliputi pemegang saham, manajemen, dan karyawan lintas divisi. Sementara itu, pemangku kepentingan eksternal terdiri dari nasabah, pemerintah, otoritas keuangan, mitra kerja, tokoh masyarakat, serta penerima manfaat program Tanggung Jawab Sosial dan Lingkungan (TJSL/CSR).

Untuk menjawab kebutuhan pemangku kepentingan yang beragam, BMS menjalankan berbagai inisiatif sosial, termasuk di bidang ketenagakerjaan, keselamatan dan kesehatan kerja (K3), hak asasi manusia, tanggung jawab atas produk dan layanan, inovasi, serta pelibatan masyarakat. Keberhasilan dalam menjalankan tanggung jawab sosial didukung oleh pemetaan yang tepat serta strategi pelibatan yang sesuai dengan harapan masing-masing pemangku kepentingan.

BMS Social Commitment

BMS's social performance includes various efforts in fulfilling responsibilities to stakeholders, both internal and external. Internal stakeholders include shareholders, management, and employees across divisions. Meanwhile, external stakeholders consist of customers, government, financial authorities, business partners, community leaders, and beneficiaries of the Social and Environmental Responsibility (TJSL/CSR) program.

To meet the diverse needs of stakeholders, BMS carries out various social initiatives, including in the fields of employment, occupational safety and health (K3), human rights, responsibility for products and services, innovation, and community involvement. Success in carrying out social responsibility is supported by proper mapping and engagement strategies that are in accordance with the expectations of each stakeholder.

BMS meyakini bahwa tanggung jawab sosial bukan sekadar kewajiban, tetapi juga cara untuk membangun hubungan yang kuat dan komunikasi yang positif dengan seluruh pemangku kepentingan. Pendekatan ini memperkuat posisi BMS sebagai entitas bisnis yang berkelanjutan serta menjadi modal penting untuk terus berkembang dalam mewujudkan visi dan misi perusahaan. [GRI 3-3]

Landasan Kebijakan [GRI 2-7]

BMS mengelola hubungan dengan para pemangku kepentingan sesuai dengan regulasi dan kepentingan masing-masing pemangku kepentingan. Regulasi tersebut antara lain:

1. Undang-Undang No. 40 tahun 2007 tentang Perseroan Terbatas.
2. Undang-Undang No. 1 Tahun 1970 tentang Keselamatan Kerja.
3. Undang-Undang No. 8 Tahun 1999 tentang Perlindungan Konsumen .
4. Undang-Undang No. 13 tahun 2003 tentang Ketenagakerjaan.
5. Undang-Undang Republik Indonesia No. 24 Tahun 2011 tentang Badan Penyelenggara Jaminan Sosial.
6. Undang-Undang Republik Indonesia No. 21 Tahun 2000 tentang Serikat Pekerja/Serikat Buruh.
7. Undang-Undang Republik Indonesia No. 24 Tahun 2011 tentang Badan Penyelenggara Jaminan Sosial.
8. Undang-Undang Presiden Republik Indonesia No. 11 Tahun 1992 tentang Dana Pensiun.
9. Undang-Undang No. 6 Tahun 2023 tentang Penetapan Peraturan Pemerintah Pengganti Undang-Undang No. 2 Tahun 2022 tentang Cipta Kerja menjadi Undang-Undang.

14. Peraturan Bank Indonesia No. 3 Tahun 2023 tentang Pelindungan Konsumen Bank Indonesia.
15. Surat Edaran Otoritas Jasa Keuangan (SEOJK) No. 2/SEOJK.07/2014 tentang Pelayanan dan Penyelesaian Pengaduan Konsumen pada pelaku Jasa Keuangan.

BMS believes that social responsibility is not just an obligation, but also a way to build strong relationships and positive communication with all stakeholders. This approach strengthens BMS's position as a sustainable business entity and is an important asset to continue to grow in realizing the company's vision and mission. [GRI 3-3]

Policy Basis [GRI 2-7]

BMS manages relationships with stakeholders in accordance with regulations and the interests of each stakeholder. These regulations include:

1. Law No. 40 of 2007 concerning Limited Liability Companies.
2. Law No. 1 of 1970 concerning Occupational Safety.
3. Law No. 8 of 1999 concerning Consumer Protection.
4. Law No. 13 of 2003 concerning Employment.
5. Law of the Republic of Indonesia No. 24 of 2011 concerning Social Security Administering Bodies.
6. Law of the Republic of Indonesia No. 21 of 2000 concerning Workers' Unions/Labor Unions.
7. Law of the Republic of Indonesia No. 24 of 2011 concerning Social Security Administering Bodies.
8. Law of the President of the Republic of Indonesia No. 11 of 1992 concerning Pension Funds.
9. Law Number 6 of 2023 concerning Stipulation of Government Regulation in Lieu of Law No. 2 of 2022 concerning Job Creation into Law.
10. Government Regulation of the Republic of Indonesia No. 35 of 2021 concerning Fixed-Term Employment Agreements, Outsourcing, Working Hours and Rest Hours, and Termination of Employment.
11. Government Regulation of the Republic of Indonesia Number 36 of 2021 concerning Wages.
12. Government Regulation (PP) No. 50 of 2012 concerning Implementation of Occupational Safety and Health Management System.
13. Presidential Regulation of the Republic of Indonesia No. 7 of 2019 concerning Occupational Diseases.
14. Bank Indonesia Regulation No. 3 of 2023 concerning Bank Indonesia Consumer Protection.
15. Circular Letter of the Financial Services Authority (SEOJK) No. 2/SEOJK.07/2014 concerning Consumer Complaints Service and Resolution to Financial Services Actors.

16. Peraturan Otoritas Jasa Keuangan No. 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan bagi Lembaga Jasa Keuangan, Emiten dan Perusahaan Publik.
17. Peraturan Otoritas Jasa Keuangan No. 6/POJK.07/2022 tentang Perlindungan Konsumen dan Masyarakat di Sektor Jasa Keuangan.

Berbagai regulasi tersebut di atas menjadi pijakan bagi BMS dalam menyusun berbagai regulasi internal sebagai panduan operasional keseharian yang berkaitan dengan pengelolaan kepegawaian, Kesehatan dan Keselamatan Kerja (K3), tanggung jawab produk, dan sebagainya.

Kesetaraan Kesempatan Kerja [OJK F.18]

BMS menerapkan prinsip kesetaraan dan non-diskriminasi dalam seluruh aspek ketenagakerjaan, termasuk sejak proses rekrutmen. Setiap pegawai memiliki hak dan kesempatan kerja yang sama tanpa memandang etnis, ras, status sosial, warna kulit, gender, atau kondisi fisik lainnya, sesuai dengan peraturan ketenagakerjaan yang berlaku.

Penerapan kesetaraan ini sejalan dengan berbagai regulasi, termasuk Pasal 281 ayat (2) UUD 1945, yang menegaskan hak setiap individu untuk terbebas dari perlakuan diskriminatif. Selain itu, BMS juga mematuhi UU No. 7 Tahun 1984 tentang penghapusan diskriminasi terhadap wanita, UU No. 21 Tahun 1999 mengenai diskriminasi dalam pekerjaan dan jabatan, serta panduan kesetaraan di tempat kerja dari Kementerian Tenaga Kerja dan Transmigrasi RI. Sebagai hasil dari kebijakan ini, tidak ada insiden diskriminasi yang terjadi di BMS, sehingga tidak diperlukan tindakan perbaikan terkait regulasi kesetaraan kesempatan kerja.

Tenaga Kerja Anak dan Kerja Paksa [OJK F.19]

Kami berkomitmen untuk tidak mempekerjakan tenaga kerja anak dan menolak praktik kerja paksa, sesuai dengan prinsip hak asasi manusia dan regulasi ketenagakerjaan. BMS hanya mempekerjakan individu berusia di atas 18 tahun, sebagaimana diatur dalam UU No. 23 Tahun 2002 tentang Perlindungan Anak, yang mendefinisikan anak sebagai individu di bawah usia 18 tahun. Sementara jam kerja karyawan mengikuti ketentuan Pasal 77 UU No. 13 Tahun 2003 tentang Ketenagakerjaan, yaitu 8 jam per hari atau 40 jam per minggu untuk sistem kerja 5 hari dalam seminggu. Jika ada karyawan yang bekerja melebihi jam kerja resmi karena tuntutan pekerjaan, BMS memberikan kompensasi lembur sesuai regulasi yang berlaku.

16. Financial Services Authority Regulation No. 51/POJK.03/2017 concerning Implementation of Sustainable Finance for Financial Services Institutions, Issuers and Public Companies.
17. Financial Services Authority Regulation No. 6/POJK.07/2022 concerning Consumer and Community Protection in the Financial Services Sector.

The various regulations above serve as a basis for BMS in compiling various internal regulations as a guide for daily operations related to personnel management, Occupational Health and Safety (K3), product responsibility, and so on.

Equal Employment Opportunity [OJK F.18]

BMS applies the principle of equality and non-discrimination in all aspects of employment, including from the recruitment process. Every employee has the same rights and opportunities for employment regardless of ethnicity, race, social status, skin color, gender, or other physical conditions, in accordance with applicable employment regulations.

The implementation of this equality is in line with various regulations, including Article 281 paragraph (2) of the 1945 Constitution, which affirms the right of every individual to be free from discriminatory treatment. In addition, BMS also complies with Law No. 7 of 1984 concerning the elimination of discrimination against women, Law No. 21 of 1999 concerning discrimination in employment and positions, and guidelines for equality in the workplace from the Ministry of Manpower and Transmigration of the Republic of Indonesia. As a result of this policy, there have been no incidents of discrimination at BMS, so no corrective action is required regarding equal employment opportunity regulations.

Child Labor and Forced Labor [OJK F.19]

We are committed to not employing child labor and rejecting forced labor practices, in accordance with human rights principles and labor regulations. BMS only employs individuals over the age of 18, as stipulated in Law No. 23 of 2002 concerning Child Protection, which defines a child as an individual under the age of 18. Meanwhile, employee working hours follow the provisions of Article 77 of Law No. 13 of 2003 concerning Manpower, which is 8 hours per day or 40 hours per week for a 5-day work week system. If an employee works beyond official working hours due to work demands, BMS provides overtime compensation in accordance with applicable regulations.

Kebijakan ini selaras dengan berbagai konvensi internasional yang telah diratifikasi oleh Indonesia, termasuk:

- UU No. 20 Tahun 1999 (ILO Convention No. 138) tentang usia minimum untuk bekerja.
- UU No. 1 Tahun 2000 (ILO Convention No. 182) tentang penghapusan bentuk pekerjaan terburuk untuk anak.
- UU No. 19 Tahun 1999 (ILO Convention No. 105) tentang penghapusan kerja paksa.

Dengan penerapan kebijakan ini, BMS memastikan lingkungan kerja yang adil, manusiawi, dan sesuai dengan standar ketenagakerjaan nasional maupun internasional.

Rekrutmen dan Turnover Karyawan 2024

BMS melakukan rekrutmen secara berkala untuk memenuhi kebutuhan tenaga kerja seiring dengan perkembangan perusahaan. Proses rekrutmen dilakukan secara transparan, memberikan kesempatan yang sama bagi semua kandidat yang memenuhi syarat, termasuk warga lokal di sekitar wilayah operasional bank.

Hingga 31 Desember 2024, BMS merekrut 168 karyawan baru, lebih rendah dibandingkan tahun sebelumnya yang mencapai 390 karyawan. Rincian rekrutmen berdasarkan jenis kelamin, usia, dan wilayah kerja dapat dilihat dalam tabel berikut.

Komposisi Pegawai Baru Berdasarkan Jenis Kelamin [GRI 401-1]
Composition of New Employee based on Gender

| Jenis Kelamin Gender | 2024 | | 2023 | | 2022 | |
|-------------------------|-----------------|------------|-----------------|------------|-----------------|------------|
| | Jumlah Total | % | Jumlah Total | % | Jumlah Total | % |
| Laki-laki Male | 59 | 35.12 | 172 | 44.10 | 237 | 50.21 |
| Perempuan Female | 109 | 64.88 | 218 | 55.90 | 235 | 49.79 |
| Jumlah Total | 168 | 100 | 390 | 100 | 472 | 100 |

Komposisi Pegawai Baru Berdasarkan Kelompok Usia [GRI 401-1]
Composition of New Employee based on Age Group

| Kelompok Usia Age Group | 2024 | | 2023 | | 2022 | |
|--|-----------------|------------|-----------------|------------|-----------------|------------|
| | Jumlah Total | % | Jumlah Total | % | Jumlah Total | % |
| Usia di bawah 30 tahun Below 30 years old | 85 | 50.60 | 180 | 46.15 | 220 | 46.61 |
| Usia 30-50 tahun 30-50 years old | 83 | 49.40 | 209 | 53.59 | 249 | 52.75 |
| Usia di atas 50 tahun Above 50 years old | 0 | 0.00 | 1 | 0.26 | 3 | 0.64 |
| Jumlah Total | 168 | 100 | 390 | 100 | 472 | 100 |

This policy is in line with various international conventions that have been ratified by Indonesia, including:

- Law No. 20 of 1999 (ILO Convention No. 138) concerning the minimum age for employment.
- Law No. 1 of 2000 (ILO Convention No. 182) on the elimination of the worst forms of child labor.
- Law No. 19 of 1999 (ILO Convention No. 105) on the elimination of forced labor.

By implementing this policy, BMS ensures a fair, humane work environment that complies with national and international labor standards.

Employee Recruitment and Turnover 2024

BMS conducts regular recruitment to meet workforce needs in line with the company's development. The recruitment process is carried out transparently, providing equal opportunities for all qualified candidates, including local residents around the bank's operational area.

As of December 31, 2024, BMS recruited 168 new employees, lower than the previous year which reached 390 employees. Details of recruitment based on gender, age, and work area can be seen in the following table.

Komposisi Karyawan Baru Berdasarkan Wilayah Kerja [GRI 401-1]

Composition of New Employee based on Work Area

| Wilayah Kerja Work Area | 2024 | | 2023 | | 2022 | |

| Jumlah Pegawai Baru/pengganti Number of New/Replacement Employees | 168 | 13.87% |

Upah Minimum Regional [OJK F.20]

Bank Mega Syariah (BMS) memberikan remunerasi pegawai sesuai dengan peraturan ketenagakerjaan yang berlaku di Indonesia, termasuk UU Ketenagakerjaan, UU No. 6 Tahun 2023 tentang Cipta Kerja, dan PP No. 36 Tahun 2021 tentang Pengupahan. Sistem pengupahan di BMS diterapkan secara adil dan tanpa diskriminasi, sehingga setiap pegawai berhak menerima upah yang setara sesuai dengan ketentuan yang berlaku.

BMS menetapkan upah minimum pegawai tetap level terendah minimal sama dengan Upah Minimum Regional (UMR/UMP) di wilayah operasional bank. Penyesuaian upah mempertimbangkan faktor kebutuhan hidup layak, harga kebutuhan pokok, inflasi, dan standar kelayakan hidup di masing-masing provinsi. Kebijakan ini selaras dengan Keputusan Menteri Tenaga Kerja dan Transmigrasi No. 226 Tahun 2000 serta Permenaker No. 18 Tahun 2022 tentang penetapan upah minimum tahun 2023.

Sebagai bentuk kepatuhan terhadap regulasi, rincian remunerasi pegawai tetap level terendah dibandingkan dengan Upah Minimum Provinsi (UMP) yang ditetapkan pemerintah dapat dilihat dalam tabel berikut. [OJK F.20]

Regional Minimum Wage [OJK F.20]

Bank Mega Syariah (BMS) provides employee remuneration in accordance with applicable employment regulations in Indonesia, including the Manpower Law, Law No. 6 of 2023 concerning Job Creation, and PP No. 36 of 2021 concerning Wages. The wage system at BMS is implemented fairly and without discrimination, so that every employee has the right to receive equal wages in accordance with applicable provisions.

BMS sets the minimum wage for the lowest level permanent employees at least equal to the Regional Minimum Wage (UMR/UMP) in the bank's operational area. Wage adjustments take into account factors of decent living needs, prices of basic necessities, inflation, and living standards in each province. This policy is in line with the Decree of the Minister of Manpower and Transmigration No. 226 of 2000 and Permenaker No. 18 of 2022 concerning the determination of the minimum wage in 2023.

As a form of compliance with regulations, details of the remuneration of the lowest level permanent employees compared to the Provincial Minimum Wage (UMP) set by the government can be seen in the following table. [OJK F.20]

Upah Pegawai Tetap Terendah Dibanding Upah Minimum Regional

Kebijakan Remunerasi dan Tunjangan Pegawai

BMS menerapkan kebijakan remunerasi yang setara tanpa membedakan jenis kelamin. Pegawai pria dan wanita menerima gaji yang sama untuk posisi dan tanggung jawab yang setara. Jika terdapat perbedaan dalam jumlah remunerasi, hal tersebut didasarkan pada kompetensi, kinerja, dan tanggung jawab masing-masing pegawai.

Terkait tunjangan, kebijakan berlaku baik untuk pegawai tetap maupun tidak tetap, dengan ketentuan sebagai berikut:

| Jenis Tunjangan Type of Allowance | Pegawai Tetap Permanent Employee | Pegawai Tidak Tetap Non-Permanent Employee |
|--|-------------------------------------|---|
| Tunjangan Jabatan Positional Allowance | v | v |
| Tunjangan Makan Meal Allowance | v | v |
| Tunjangan Transport Transport Allowance | v | v |
| Tunjangan Lain Other Allowance | v | v |

Pelatihan dan Pendidikan Pegawai [OJK F.22]

Peningkatan kapasitas dan keterampilan pegawai merupakan kunci dalam mendukung pertumbuhan dan keberlanjutan kinerja BMS. Untuk itu, kami berkomitmen untuk mengembangkan potensi pegawai secara konsisten melalui berbagai program pelatihan dan pendidikan berkelanjutan. Setiap pegawai diberikan kesempatan yang setara untuk mengikuti pelatihan guna meningkatkan keterampilan dan pengetahuan sesuai bidang pekerjaan dan level jabatan. [GRI 3-3]

Pengembangan kompetensi dilakukan secara berjenjang di setiap tingkatan organisasi dan dirancang untuk mempersiapkan sukses kepemimpinan. Program ini tidak hanya berfokus pada peningkatan keterampilan teknis dan *soft skill*, tetapi juga pada pengembangan kepemimpinan untuk mendukung pencapaian target bisnis serta penerapan keuangan berkelanjutan.

Sepanjang 2024, BMS telah menyelenggarakan 74.458 jam pelatihan bagi karyawan dari berbagai level jabatan, atau rata-rata 7,2 jam per karyawan per tahun. Rincian jumlah peserta dapat dilihat dalam tabel berikut. [GRI 404-1]

Employee Remuneration and Benefits Policy

BMS implements an equal remuneration policy without discrimination on the basis of gender. Male and female employees receive the same salary for equal positions and responsibilities. If there is a difference in the amount of remuneration, it is based on the competence, performance, and responsibilities of each employee.

Regarding benefits, the policy applies to both permanent and non-permanent employees, with the following provisions:

Employee Training and Education [OJK F.22]

Improving employee capacity and skills is key to supporting the growth and sustainability of BMS performance. Therefore, we are committed to consistently developing employee potential through various training and continuing education programs. Every employee is given an equal opportunity to participate in training to improve their skills and knowledge according to their field of work and job level. [GRI 3-3]

Competency development is carried out in stages at every level of the organization and is designed to prepare for leadership succession. This program not only focuses on improving technical and soft skills, but also on leadership development to support the achievement of business targets and the implementation of sustainable finance.

Throughout 2024, BMS organized 74,458 training hours for employees from various job levels, averaging 7.2 hours per employee per year. Details of the number of participants can be seen in the following table. [GRI 404-1]

Tabel Rata-rata Jam Pelatihan Tahun 2022-2024 [GRI 404-1]

Tinjauan Kinerja [GRI 404-3]

Setiap tahun, seluruh pegawai mendapat peluang dalam hal peningkatan karir melalui penilaian kinerja berdasarkan prinsip objektivitas dan keadilan. Penilaian kinerja dilakukan berdasarkan dengan perencanaan kerja yang telah disepakati oleh atasan dan bawahan sesuai tujuan strategi Perusahaan yang dituangkan pada lembar kerja yang disebut Individual Performance Planning (IPP). IPP akan dievaluasi pada tengah tahun dan akhir tahun untuk melihat hasil kinerja karyawan selama satu tahun.

Pada tahun 2024, seluruh pegawai (100%) telah mendapatkan evaluasi kinerja dengan hasil sebanyak 20 pegawai mendapatkan promosi, sebanyak 124 pegawai menjalani rotasi/mutasi, dan tidak ada pegawai mendapatkan demosi. [OJK F.22][GRI 404-3]

**Performance Review** [GRI 404-3]

Every year, all employees are given the opportunity for career advancement through performance appraisals based on the principles of objectivity and fairness. Performance appraisals are carried out based on work planning agreed upon by superiors and subordinates in accordance with the Company's strategic objectives as outlined in a worksheet called Individual Performance Planning (IPP). IPP will be evaluated in the middle of the year and at the end of the year to see the results of employee performance for one year.

In 2024, all employees (100%) received performance evaluations with the results of 20 employees getting promotions, 124 employees undergoing rotation/transfer, and no employees getting demoted. [OJK F.22][GRI 404-3]

Lingkungan Kerja yang Layak dan Aman [OJK F.21]

Kami meyakini, penciptaan lingkungan kerja yang layak dan aman sesuai kaidah Keselamatan dan Kesehatan Kerja (K3) akan berbanding lurus dengan tingkat kinerja karyawan. Oleh karena itu, BMS berupaya semaksimal mungkin untuk mewujudkan lingkungan kerja terbaik dengan mematuhi regulasi yang berlaku, baik yang berkaitan dengan keselamatan kerja, kesehatan, maupun penyakit akibat kerja. [GRI 3-3]

**Decent and Safe Work Environment** [OJK F.21]

We believe that the creation of a decent and safe work environment in accordance with Occupational Safety and Health (K3) principles will be directly proportional to the level of employee performance. Therefore, BMS makes every effort to create the best work environment by complying with applicable regulations, both those related to work safety, health, and work-related diseases. [GRI 3-3]

BMS meletakkan prioritas pada kesehatan kerja sebagai bentuk kepatuhan terhadap Pasal 23, Undang- Undang Republik Indonesia Nomor 23 Tahun 1992 tentang Kesehatan, yang mengatur bahwa setiap tempat kerja wajib menyelenggarakan kesehatan kerja; kesehatan kerja meliputi pelayanan kesehatan kerja, pencegahan penyakit akibat kerja, dan syarat kesehatan kerja; dan, kesehatan kerja diselenggarakan untuk mewujudkan produktivitas kerja yang optimal.

Sejalan dengan itu, keselamatan kerja juga mendapat perhatian Perusahaan karena hal tersebut sesuai dengan amanat Undang-Undang Republik Indonesia Nomor 1 Tahun 1970 tentang Keselamatan Kerja, yaitu setiap tenaga kerja berhak mendapat perlindungan atas keselamatannya dalam melakukan pekerjaan untuk kesejahteraan hidup dan meningkatkan produksi serta produktivitas nasional, dan setiap orang lainnya yang berada di tempat kerja perlu terjamin pula keselamatannya. Berkaitan dengan implementasi K3, penyakit akibat kerja juga tidak diabaikan oleh BMS. Dalam hal ini, Perusahaan merujuk pada Peraturan Presiden Republik Indonesia Nomor 7 Tahun 2019 tentang Penyakit Akibat Kerja, yang mendefinisikan penyakit akibat kerja sebagai penyakit yang disebabkan oleh pekerjaan dan/atau lingkungan kerja. [GRI 3-3, 2-7]

Regulasi lain yang menjadi pedoman pelaksanaan K3 adalah Peraturan Menteri Kesehatan Republik Indonesia Nomor 48 Tahun 2016 tentang Standar Manajemen Keselamatan dan Kesehatan Kerja Perkantoran (SMK3 Perkantoran). Menurut peraturan ini, SMK3 Perkantoran didefinisikan sebagai bagian dari sistem manajemen gedung perkantoran secara keseluruhan dalam rangka pengendalian risiko yang berkaitan dengan kegiatan kerja guna terciptanya tempat kerja yang aman, efisien dan produktif.

Sebagai bagian dari pengendalian risiko, maka Perusahaan telah melakukan pemetaan atau identifikasi bahaya, penilaian risiko serta mitigasi risiko K3 di lingkungan BMS. Hasil identifikasi bahaya dan penilaian risiko dituangkan dalam dokumen Identifikasi Bahaya dan Penilaian Risiko (IBPR), yang menjadi pertimbangan dalam menentukan upaya mitigasi untuk meminimalisir risiko terjadinya kecelakaan atau penyakit akibat kerja. [GRI 403-1, 403-2]

BMS prioritizes occupational health as a form of compliance with Article 23, Law of the Republic of Indonesia Number 23 of 1992 concerning Health, which stipulates that every workplace is required to organize occupational health; occupational health includes occupational health services, prevention of work-related diseases, and occupational health requirements; and, occupational health is organized to realize optimal work productivity.

In line with that, occupational safety also receives the Company's attention because it is in accordance with the mandate of the Republic of Indonesia Law Number 1 of 1970 concerning Occupational Safety, namely that every worker has the right to receive protection for their safety in carrying out work for the welfare of life and increasing national production and productivity, and everyone else in the workplace needs to be guaranteed their safety. In relation to the implementation of Occupational Health and Safety (K3), occupational diseases are also not ignored by BMS. In this case, the Company refers to Presidential Regulation of the Republic of Indonesia Number 7 of 2019 concerning Occupational Diseases, which defines occupational diseases as diseases caused by work and/or the work environment. [GRI 3-3, 2-7]

Another regulation that serves as a guideline for the implementation of Occupational Health and Safety (K3) is the Regulation of the Minister of Health of the Republic of Indonesia Number 48 of 2016 concerning Office Occupational Safety and Health Management Standards (SMK3 Office). According to this regulation, SMK3 Office is defined as part of the overall office building management system in order to control risks related to work activities in order to create a safe, efficient and productive workplace.

As part of risk control, the Company has conducted hazard mapping or identification, risk assessment and Occupational Health and Safety (K3) risk mitigation in the BMS environment. The results of hazard identification and risk assessment are stated in the Hazard Identification and Risk Assessment (IBPR) document, which is taken into consideration in determining mitigation efforts to minimize the risk of accidents or occupational diseases. [GRI 403-1, 403-2]

Penanggung Jawab K3

BMS menetapkan Departemen/Divisi Operation & General Service Division sebagai pengelola K3 di lingkungan Perusahaan yang bertanggung jawab kepada Direktur Operasi & Teknologi Adapun tugas dan tanggung jawabnya adalah sebagai berikut:

1. Pencegahan, arahan dan pertolongan jika terjadi kondisi force majeure pada penghuni/karyawan gedung.
2. Pengawasan & pemeriksaan rutin terhadap fasilitas gedung, utilitas, dan lainnya.
3. Identifikasi resiko bahaya yang dapat menyebabkan kecelakaan atau gangguan kesehatan.

Rencana Program K3 Tahun 2024

1. Membentuk MKKG (Manajemen Keselamatan Kebakaran Gedung) sesuai pergub nomor 143 tahun 2016.
2. Pelatihan fire drill (pelatihan kebakaran/evakuasi).
3. Pengujian K3 pihak eksternal seperti DAMKAR, KEMNAKER & CIPTA KARYA di gedung.
4. Pengujian AMDAL oleh Dinas Lingkungan Hidup DKI Jakarta.

Pelaksanaan Program K3

1. Pengujian Atas Sertifikat Keselamatan Kebakaran (SKK) Gedung oleh DAMKAR yaitu (smoke detector, pompa kebakaran, hydrant, lift, jaringan siamese, lampu darurat, dll).
2. Pelatihan Fire Drill/Pelatihan evakuasi kepada seluruh penghuni/karyawan gedung.
3. Melakukan test/pengujian rutin kepada seluruh utilitas yang berada di gedung seperti lift, genset, gondola, dll.
4. Pengujian atas izin AMDAL di gedung oleh Dinas Lingkungan Hidup yaitu emisi tidak bergerak, air limbah, sumur resapan, TPS limbah padat dll.

Person in Charge of Occupational Health and Safety (K3)

BMS has appointed the Operation & General Service Division Department/Division as the Occupational Health and Safety (K3) manager in the Company environment who is responsible to the Director of Operations & Technology. The duties and responsibilities are as follows:

1. Prevention, direction and assistance in the event of force majeure conditions for building occupants/ employees.
2. Routine supervision & inspection of building facilities, utilities, and others.
3. Identification of hazard risks that can cause accidents or health problems.

2024 Occupational Health and Safety (K3) Program Plan

1. Establishing MKKG (Building Fire Safety Management) according to gubernatorial regulation number 143 of 2016.
2. Fire drill training (fire/evacuation training).
3. External Occupational Health and Safety (K3) testing such as by Fire Department, Ministry of Manpower of the Republic of Indonesia, and CIPTA KARYA in the building.
4. Environmental Impact Assessment (AMDAL) testing by the DKI Jakarta Environmental Agency.

Implementation of the K3 Program

1. Testing of the Building Fire Safety Certificate (SKK) by Fire Department, including smoke detector, fire pump, hydrant, lift, siamese network, emergency lights, etc.
2. Fire Drill Training/Evacuation training for all building occupants/employees.
3. Conducting routine tests/testing of all utilities in the building such as lifts, generators, gondolas, etc.
4. Testing of Environmental Impact Assessment (AMDAL) permits in the building by the Environmental Service, namely non-moving emissions, waste water, infiltration wells, solid waste TPS etc.

Pelatihan K3 [GRI 403-5]

BMS berkomitmen mewujudkan lingkungan kerja terbaik dengan melengkapi gedung perkantoran dengan berbagai sarana dan prasarana untuk menghadapi situasi gawat darurat. Untuk mengantisipasi bahaya kebakaran misalnya, Perusahaan menyediakan APAR (Alat Pemadam Api Ringan) di setiap lantai gedung. serta melakukan pelatihan atau simulasi secara berkala. Perusahaan juga senantiasa melakukan perawatan dan pemeriksaan berkala berbagai sarana dan prasarana K3, seperti APAR, sistem alarm kebakaran; hydrant, sistem sprinkler otomatis, sistem pengendalian asap dan lain-lain. Seiring dengan itu, untuk kelengkapan sarana dan prasarana pada bangunan gedung, Perusahaan melengkapinya dengan fasilitas pendukung kerja sehingga karyawan bisa bekerja nyaman, seperti lift, ruang pelatihan, ruang dapur, ruang ibadah, ruang rapat, toilet, tempat parkir, tempat sampah, dan lain-lain. [GRI 403-7]

Program nyata lain yang dilakukan Perusahaan terkait K3 adalah mengikutsertakan seluruh pegawai dalam BPJS Ketenagakerjaan dan BPJS Kesehatan sebagai upaya memberikan perlindungan dan kesejahteraan bagi pegawai. [GRI 403-8]

Komitmen BMS mewujudkan lingkungan kerja yang sehat dan aman membawa hasil dengan tidak adanya pegawai yang mengalami cedera ringan, sedang, berat, apalagi kematian, akibat pekerjaan yang dijalankannya. Selain itu, juga tidak ada laporan mengenai karyawan yang terkena penyakit atau berisiko terkena penyakit tertentu yang terkait dengan pekerjaannya sehari-hari. [GRI 403-9]

BMS is committed to realizing the best work environment by equipping office buildings with various facilities and infrastructure to deal with emergency situations. To anticipate the danger of fire, for example, the Company provides Light Fire Extinguisher on each floor of the building. and conducts regular training or simulations. The Company also always carries out regular maintenance and inspections of various Occupational Health and Safety (K3) facilities and infrastructure, such as APAR, fire alarm systems; hydrants, automatic sprinkler systems, smoke control systems and others. Along with that, for the completeness of facilities and infrastructure in building buildings, the Company equips them with work support facilities so that employees can work comfortably, such as lifts, training rooms, kitchens, prayer rooms, meeting rooms, toilets, parking lots, trash cans, and others. [GRI 403-7]

Another real program carried out by the Company related to Occupational Health and Safety (K3) is to include all employees in BPJS Employment and BPJS Health as an effort to provide protection and welfare for employees. [GRI 403-8]

BMS' commitment to realizing a healthy and safe work environment has resulted in no employees experiencing minor, moderate, serious injuries, let alone death, due to the work they do. In addition, there are also no reports of employees getting sick or being at risk of getting certain diseases related to their daily work. [GRI 403-9]

Selama tahun 2024, BMS merealisasikan biaya sebesar Rp19 juta untuk membiayai berbagai program K3. [GRI 403-9]

Dampak Operasi terhadap Masyarakat Sekitar

[OJK F.23]

BMS menghadirkan produk-produk keuangan yang menjawab kebutuhan masyarakat tentang pelayanan industri perbankan, terkhusus perbankan syariah, selaras dengan tumbuhnya semangat untuk menjalankan syariah Islam dalam kehidupan sehari-hari. Untuk memenuhi harapan dan kebutuhan masyarakat tersebut, sekaligus mewujudkan kinerja terbaik dari sisi bisnis, Perusahaan menetapkan visi dan misi yang telah mendapatkan persetujuan bersama dari Dewan Komisaris dan Direksi.

Berlandaskan pada visi dan misi tersebut, seluruh operasional BMS tidak ada yang berdampak negatif bagi masyarakat. Sebaliknya, masyarakat mendapat dampak positif atas keberadaan BMS. Selain menyediakan berbagai produk dan layanan perbankan syariah, Perusahaan membuka lapangan kerja dan menciptakan peluang bagi masyarakat dan pelaku usaha di sekitar BMS beroperasi untuk menjadi pemasok barang dan jasa. Lebih dari itu, Perusahaan juga menyelenggarakan berbagai program dan kegiatan yang melibatkan masyarakat melalui program Tanggung Jawab Sosial dan Lingkungan (TJSL), yang diimplementasikan melalui kegiatan Tanggung Jawab Sosial Perusahaan (CSR). [GRI 203-1]

Pengaduan Masyarakat/Nasabah

BMS memiliki mekanisme pelaporan dari masyarakat dan pemangku kepentingan yang lain, termasuk nasabah, dan berkomitmen untuk menyelesaikan pengaduan tersebut secepatnya. Untuk keperluan tersebut, selain memanfaatkan kanal Whistleblowing System (WBS), pengaduan dapat disampaikan melalui:

e-mail wbs@megasyariah.co.id,
WhatsApp: 0822-0823-6002,
pos tercatat kepada HCMD (Human Capital Management Division Head) di Menara Mega Syariah Lantai 12, Jl.HR Rasuna Said Kav.19A, Jakarta Selatan 12790,

In 2024, BMS allocated IDR 19 million to fund various Occupational Health and Safety (OHS) programs.

[GRI 403-9]

Impact of Operations on the Surrounding Community

[OJK F.23]

BMS presents financial products that answer the needs of the community regarding banking industry services, especially sharia banking, in line with the growing enthusiasm to implement Islamic sharia in everyday life. To meet the expectations and needs of the community, while realizing the best performance from a business perspective, the Company has established a vision and mission that has received joint approval from the Board of Commissioners and Directors.

Based on this vision and mission, all BMS operations do not have a negative impact on the community. On the contrary, the community is positively impacted by the existence of BMS. In addition to providing various sharia banking products and services, the Company opens up employment opportunities and creates opportunities for the community and business actors around BMS operations to become suppliers of goods and services. Moreover, the Company also organizes various programs and activities involving the community through the Social and Environmental Responsibility (TJSL) program, which is implemented through Corporate Social Responsibility (CSR) activities. [GRI 203-1]

Public/Customer Complaints

BMS has a reporting mechanism from the community and other stakeholders, including customers, and is committed to resolving these complaints as soon as possible. For this purpose, in addition to utilizing the Whistleblowing System (WBS) channel, complaints can be submitted via:

e-mail wbs@megasyariah.co.id,
WhatsApp: 0822-0823-6002,
registered mail to HCMD (Human Capital Management Division Head) at Menara Mega Syariah, 12th Floor, Jl.HR Rasuna Said Kav.19A, South Jakarta 12790,

1. Mega Syariah Call (021-2985 2222),
2. website Bank (www.megasyariah.co.id),
3. customer service di seluruh Kantor Cabang/Kantor Cabang Pembantu.

Secara spesifik, BMS telah menyediakan formulir pengaduan nasabah di website sebagai berikut: https://www.megasyariah.co.id/bms-new/tentangkami/Formulir_Penerimaan_Pengaduan_Nasabah_Bank_Mega_Syariah.pdf

Sesuai Penanganan pengaduan nasabah dilaksanakan dengan mengacu kepada prosedur serta *Service Level Agreement (SLA)* yang telah ditetapkan BMS. Berkaitan dengan alur penanganan pengaduan nasabah, persyaratan pengaduan dan sebagainya, BMS telah menyediakan informasi secara lengkap melalui tautan berikut:

<https://www.megasyariah.co.id/id/pengaduanbantuan>

Berdasarkan data pengaduan yang masuk, per 31 Desember 2024, BMS menerima pengaduan nasabah sebagaimana tabel berikut.

1. Mega Syariah Call (021-2985 2222),
2. Bank website (www.megasyariah.co.id),
3. customer service in all Branch Offices/Sub-Branch Office.

Specifically, BMS has provided a customer complaint form on the website as follows: https://www.megasyariah.co.id/bms-new/tentangkami/Formulir_Penerimaan_Pengaduan_Nasabah_Bank_Mega_Syariah.pdf

In accordance with the Handling of customer complaints, all complaint handling is carried out by referring to the procedures and Service Level Agreement (SLA) that have been set by BMS. Regarding the flow of handling customer complaints, complaint requirements and so on, BMS has provided complete information through the following link:

<https://www.megasyariah.co.id/id/pengaduanbantuan>

Based on the complaint data received, as of December 31, 2024, BMS received customer complaints as per the following table.

Tanggung Jawab Sosial dan Lingkungan [OJK F.25]

Hubungan yang harmonis antara BMS dengan masyarakat merupakan salah satu kunci bagi Perusahaan dalam mewujudkan keberlanjutan usaha. Untuk itu, Perusahaan terus berupaya untuk menciptakan komunikasi dan hubungan yang saling menguntungkan dengan seluruh pemangku kepentingan, termasuk masyarakat di sekitarnya. Untuk mendukung upaya tersebut, BMS melakukan berbagai program di antaranya melalui TJSL/CSR. Bagi Perusahaan, CSR merupakan salah satu bagian penting dalam pelaksanaan tata kelola perusahaan yang baik dan cukup berperan dalam mewujudkan tujuan pembangunan berkelanjutan, yaitu pembangunan yang menyelaraskan antara aspek ekonomi, lingkungan dan sosial. Pelaksanaan CSR sekaligus merupakan dukungan BMS terhadap 17 Tujuan Pembangunan Berkelanjutan (TPB) atau *Sustainable Development Goals (SDGs)* yang saat ini sedang dilaksanakan pemerintah Indonesia. [GRI 3-3]

Social and Environmental Responsibility

[OJK F.25]

A harmonious relationship between BMS and the community is one of the keys for the Company in realizing business sustainability. To that end, the Company continues to strive to create mutually beneficial communication and relationships with all stakeholders, including the surrounding community. To support these efforts, BMS carries out various programs, including through TJSL/CSR. For the Company, CSR is an important part of implementing good corporate governance and plays a significant role in realizing sustainable development goals, namely development that harmonizes economic, environmental and social aspects. The implementation of CSR is also BMS' support for the 17 Sustainable Development Goals (TPB) or Sustainable Development Goals (SDGs) currently being implemented by the Indonesian government. [GRI 3-3]

Pelaksanaan program CSR BMS difokuskan pada masyarakat yang berada di sekitar wilayah Perusahaan beroperasi. Dengan demikian, Perusahaan memastikan bahwa masyarakat merasakan dampak positif akan kehadiran BMS. Untuk bisa menghadirkan program CSR yang tepat dan sesuai kebutuhan masyarakat, Perusahaan melibatkan tokoh-tokoh masyarakat setempat untuk mengidentifikasi isu-isu yang berkembang di masyarakat. Selaras dengan itu, Perusahaan juga mengadopsi usulan program yang disampaikan masyarakat melalui proposal yang disampaikan kepada BMS. Dalam hal ini, Perusahaan akan melakukan seleksi sehingga program terpilih dipastikan telah sesuai dengan kebijakan CSR BMS.

Per 31 Desember 2024, sesuai mekanisme dan penyaluran program CSR, total penyaluran dana kegiatan CSR tercatat sebesar Rp 9,031,485,488, yang terbagi atas Rp 7,824,689,157 sebagai penyaluran dana zakat korporasi, dan Rp 1,049,138,063 sebagai penyaluran dana kebaikan (qardhul hasan), serta sebesar Rp 157,658,268 sebagai penyaluran dana Tanggung Jawab Sosial dan Lingkungan (TJSL). The implementation of the BMS CSR program is focused on the community around the Company's operating area. Thus, the Company ensures that the community feels the positive impact of BMS' presence. In order to be able to present the right CSR program that suits the needs of the community, the Company involves local community leaders to identify issues that are developing in the community. In line with that, the Company also adopts program proposals submitted by the community through proposals submitted to BMS. In this case, the Company will conduct a selection so that the selected program is ensured to be in accordance with BMS's CSR policy.

As of December 31, 2024, according to the mechanism and distribution of the CSR program, the total distribution of CSR activity funds was recorded at IDR 9,031,485,488, which is divided into IDR 7,824,689,157 as distribution of corporate zakat funds, and IDR 1,049,138,063 as distribution of charity funds (qardhul hasan), and IDR 157,658,268 as distribution of Social and Environmental Responsibility (TJSL) funds. CSR dan Dukungan SDGs

Pelaksanaan program CSR yang dilakukan BMS sekaligus merupakan dukungan nyata Perusahaan terhadap pencapaian Tujuan Pembangunan Berkelanjutan (TPB) atau *Sustainable Development Goals* (SDGs). Saat melaksanakan program CSR, Perusahaan juga berkesempatan untuk mendengarkan jika ada keluhan atau aduan atas operasional BMS.

Dampak Produk dan Jasa [OJK F.28]

BMS memastikan bahwa setiap produk dan layanan yang ditawarkan telah melalui proses evaluasi menyeluruh, termasuk identifikasi risiko yang terkait. Produk yang tersedia telah diklasifikasikan secara sistematis dengan mempertimbangkan profil risiko, guna memastikan transparansi dan kepatuhan terhadap regulasi.

Sebagai bagian dari implementasi keuangan berkelanjutan, BMS menerapkan prinsip kehati-hatian dalam pembiayaan, sesuai dengan Kriteria Kegiatan Usaha Berkelanjutan (KKUB) dalam POJK Keuangan Berkelanjutan. Pendekatan ini bertujuan untuk mitigasi risiko dan dampak negatif terhadap aspek ekonomi, sosial, dan lingkungan.

Pada tahun 2024, hasil evaluasi menunjukkan bahwa tidak ada produk atau jasa BMS yang memberikan dampak negatif terhadap aspek-aspek tersebut. Hal ini menegaskan bahwa seluruh layanan yang disediakan telah selaras dengan standar keberlanjutan yang ditetapkan, sekaligus mendukung pertumbuhan bisnis yang bertanggung jawab.

Kontribusi terhadap Literasi dan Inklusi Keuangan

Sejalan dengan Peraturan Otoritas Jasa Keuangan (POJK) No. 3 Tahun 2023 tentang Peningkatan Literasi dan Inklusi Keuangan, BMS aktif berkontribusi melalui berbagai program edukasi. Sepanjang tahun pelaporan, BMS menyelenggarakan 51 kegiatan edukasi keuangan yang menyasar berbagai segmen masyarakat, termasuk pelajar, mahasiswa, perempuan, pegawai, profesional, UMKM, komunitas lokal, dan Masyarakat 3T. Program ini bertujuan untuk mempersempit kesenjangan literasi dan inklusi keuangan, serta mendorong pemanfaatan produk keuangan secara lebih optimal dan bertanggung jawab. [\[GRI 413-1\]](#)

CSR and SDGs Support

The implementation of CSR programs carried out by BMS is also the Company's real support for achieving the Sustainable Development Goals (SDGs). When implementing CSR programs, the Company also has the opportunity to listen to complaints or grievances regarding BMS operations.

Impact of Products and Services [OJK F.28]

BMS ensures that every product and service offered has gone through a thorough evaluation process, including identification of associated risks. Available products have been systematically classified by considering the risk profile, to ensure transparency and compliance with regulations.

As part of the implementation of sustainable finance, BMS applies the principle of prudence in financing, in accordance with the Sustainable Business Activity Criteria (KKUB) in the POJK Sustainable Finance. This approach aims to mitigate risks and negative impacts on economic, social, and environmental aspects.

In 2024, the evaluation results showed that none of BMS' products or services had a negative impact on these aspects. This confirms that all services provided are in line with the established sustainability standards, while supporting responsible business growth.

Contribution to Financial Literacy and Inclusion

In accordance with the Financial Services Authority Regulation (POJK) No. 3 of 2023 concerning the Improvement of Financial Literacy and Inclusion, BMS actively contributes through various educational programs. Throughout the reporting year, BMS held 51 financial education activities targeting various segments of society, including students, women, employees, professionals, MSMEs, local communities, and the underdeveloped, frontier, and outermost regions (3T) Community. This program aims to narrow the gap in financial literacy and inclusion, as well as encourage the use of financial products more optimally and responsibly. [\[GRI 413-1\]](#)

Layanan yang Setara dan Inklusif [OJK F.17]

Kepercayaan dan loyalitas nasabah dibangun dari pengalaman layanan yang adil dan setara. BMS berkomitmen untuk memberikan layanan tanpa diskriminasi, memastikan bahwa seluruh nasabah diperlakukan secara inklusif, tanpa membedakan agama, suku, etnis, gender, pandangan politik, atau kondisi fisik, termasuk nasabah penyandang disabilitas.

Komitmen ini merupakan bagian dari penerapan tata kelola perusahaan yang baik (*Good Corporate Governance*) dan bentuk kepatuhan terhadap ketentuan yang berlaku, seperti POJK No. 6/POJK.07/2022 tentang Perlindungan Konsumen, yang mengatur bahwa pelaku jasa keuangan wajib memberikan akses yang setara kepada setiap konsumen sesuai klasifikasinya (Pasal 35 Ayat 1). [GRI 2-27]

Selain itu, Peraturan Bank Indonesia No. 3 Tahun 2023 juga menegaskan prinsip kesetaraan dan perlakuan yang adil dalam layanan perbankan (Pasal 7 dan Pasal 11), termasuk kewajiban bank untuk memberikan akses layanan yang setara dan perlakuan yang tepat kepada setiap konsumen. BMS menjadikan prinsip ini sebagai landasan dalam memberikan pengalaman perbankan yang inklusif bagi semua lapisan masyarakat.

Inovasi dan Pengembangan Produk/Jasa Keuangan Berkelanjutan [OJK F.26]

Pengembangan produk dan/atau layanan keuangan berkelanjutan merupakan kewajiban bank sesuai dengan POJK No. 51 Tahun 2017. Program ini dapat berjalan efektif jika dua hal utama telah terpenuhi, yakni pemahaman para pemangku kepentingan terhadap keuangan berkelanjutan, dan kesiapan infrastruktur pendukung di internal bank. Jika keduanya sudah terpenuhi, maka implementasi pembiayaan berkelanjutan, khususnya pada 12 kategori Kegiatan Usaha Berkelanjutan (KUB), dapat dilakukan tanpa mengganggu kinerja keuangan Bank Mega Syariah secara keseluruhan.

Pada tahun pelaporan, program ini diwujudkan melalui dua fokus utama, yaitu pengembangan produk dan layanan keuangan bertema "Go Green", dan realisasi pembiayaan Kategori Usaha Berwawasan Lingkungan (KUBL) sebesar 10% dari total pembiayaan.

Equality of Service for Consumers

Customer trust and loyalty are built through fair and equitable service experiences. BMS is committed to delivering non-discriminatory and inclusive services, ensuring that all customers are treated equally regardless of religion, ethnicity, gender, political views, or physical condition, including those with disabilities.

This commitment aligns with the principles of Good Corporate Governance (GCG) and reflects compliance with applicable regulations, such as OJK Regulation No. 6/POJK.07/2022 on Consumer Protection, which mandates financial service providers to ensure equal access for all consumers based on their classification (Article 35, Paragraph 1). [GRI 2-27]

Furthermore, Bank Indonesia Regulation No. 3 of 2023 reinforces the principles of equality and fair treatment in banking services (Articles 7 and 11), including the obligation for banks to provide equitable access and appropriate treatment for all customers. BMS upholds these principles as the foundation for delivering inclusive banking experiences to all segments of society.

Innovation and Development of Sustainable Financial Products/Services

[GRI 2-27]

The development of sustainable financial products and/or services is a mandatory obligation for banks, as stipulated in OJK Regulation No. 51 of 2017. This program can be implemented effectively when two key elements are in place: stakeholder understanding of sustainable finance and the readiness of supporting infrastructure within the bank. Once these conditions are met, the implementation of sustainable financing—particularly across the 12 categories of Sustainable Business Activities (KUB)—can be carried out without disrupting the overall financial performance of Bank Mega Syariah.

In the reporting year, this program was carried out through two main focus areas: the development of "Go Green" themed financial products and services, and the realization of financing for Environmentally Sound Business Categories (KUBL) amounting to 10% of total financing.

Untuk mendukung inisiatif "Go Green", hingga 30 September 2024, Bank telah melaksanakan sejumlah program sebagai berikut:

Penerbitan Combined e-Statement

Sehubungan dengan upaya untuk meningkatkan layanan kepada nasabah Bank Mega Syariah, bersamaan dengan pengurangan penggunaan kertas pada aktivitas transaksional serta pengembangan dari *electronic statement* yang sudah berjalan saat ini, *electronic statement* yang sebelumnya hanya digunakan per-produk, Bank Mega Syariah melakukan pengembangan sehingga dapat digunakan untuk pelaporan seluruh produk yang dimiliki nasabah atau Total Dana Kelolaan (*Total Relationship Balance*) mulai dari produk Tabungan, Giro atau Deposito, *Wealth Products*, sampai dengan pembiayaan yang dimiliki nasabah. *Combined e-Statement* akan menggunakan *electronic statement* dalam bentuk *softcopy* yang dikirimkan ke *email* nasabah dengan enkripsi *password* pada *file pdf*.

Tampilan Kartu Debit GPN MFS pada M-Syariah

Kartu bagi nasabah prioritas Bank Mega Syariah dalam bentuk digital pada aplikasi M-Syariah yang dapat digunakan sebagai *identity card* (ID) untuk mendapatkan benefit seperti penggunaan *lounge* dan VIP parkir di cabang prioritas.

Dalam pengembangan produk atau jasa keuangan berkelanjutan, Bank masih menghadapi kendala berupa masih perlunya peningkatan dari sisi infrastruktur keamanan sistem, jaringan serta *resource* yang memadai. Selain itu diperlukan pemenuhan FDS yang telah mendapat persetujuan dari regulator dan juga pembaharuan terkait kebijakan operasi M-Syariah.

Beberapa Program untuk mendukung pengembangan produk dan/jasa keuangan berkelanjutan dilakukan *carry over* di tahun 2025, yaitu sebagai berikut:

1. Pendaftaran/ Setoran awal Haji via M-Syariah
2. Produk Mutual Fund via M-Syariah
3. Pemberian benefit berupa e-voucher bagi nasabah prioritas Bank Mega Syariah
4. Pengembangan kartu debit dengan jaringan Visa dengan tipe Kartu Debit Gold dan Platinum

Adapun *action plan* yang akan dilakukan terkait kendala yang dihadapi, yaitu dengan melakukan koordinasi dengan pihak terkait, baik internal maupun eksternal untuk mempercepat pengembangan produk dan/atau jasa keuangan beserta pemenuhan perizinan kepada regulator. Selain itu juga dilakukan koordinasi terkait proses Audit IT, termasuk pengkinian analisis risiko dan *Business Continuity Management*.

To support the "Go Green" initiative, as of September 30, 2024, the Bank has implemented the following programs:

Issuance of Combined e-Statement

In connection with efforts to improve services to Bank Mega Syariah customers, along with reducing the use of paper in transactional activities and the development of electronic statements that are currently running, electronic statements that were previously only used per product, Bank Mega Syariah is developing so that they can be used for reporting all products owned by customers or Total Managed Funds (*Total Relationship Balance*) starting from Savings, Current Accounts or Deposits, Wealth Products, to financing owned by customers. Combined e-Statement will use electronic statements in softcopy form that are sent to customer emails with password encryption in pdf files.

Display of GPN MFS Debit Card on M-Syariah

Cards for priority customers of Bank Mega Syariah in digital form on the M-Syariah application that can be used as identity cards (ID) to get benefits such as lounges use and VIP parking at priority branches.

The obstacles in implementing sustainable finance related to product or service development are the need for improvements in terms of system security infrastructure, networks and adequate resources. In addition, it is necessary to fulfill the FDS that has received approval from the regulator and also updates related to the M-Syariah operational policy.

Several programs to support the development of sustainable financial products and/or services are carried over in 2025, namely:

1. Registration/Initial deposit for Hajj via M-Syariah
2. Mutual Fund products via M-Syariah
3. Provision of benefits in the form of e-vouchers for priority customers of Bank Mega Syariah
4. Development of debit cards with the Visa network with the types of Gold and Platinum Debit Cards

The action plan that will be carried out related to the obstacles faced, namely by coordinating with related parties, both internal and external to accelerate the development of financial products and/or services along with the fulfilment of permits to regulators. In addition, coordination is also carried out regarding the IT Audit process, including updating risk analysis and *Business Continuity Management*.

Produk Jasa yang Dievaluasi Keamanannya [OJK F.27]

Bank Mega Syariah (BMS) berkomitmen untuk mematuhi seluruh regulasi yang berlaku dalam industri perbankan syariah, termasuk ketentuan terkait produk dan layanan bagi nasabah. Setiap produk dan jasa yang ditawarkan telah melalui proses evaluasi dan memperoleh persetujuan dari Otoritas Jasa Keuangan (OJK), memastikan keamanan dan kepatuhan terhadap standar perbankan syariah. Selain itu, BMS secara konsisten menerapkan POJK No. 6/POJK.07/2022 tentang Perlindungan Konsumen serta mengadopsi Peraturan Bank Indonesia No. 3 Tahun 2023 tentang Perlindungan Konsumen Bank Indonesia.

Untuk meminimalkan risiko kerugian bagi nasabah, BMS secara aktif menyampaikan informasi terkait potensi risiko produk dan jasa, termasuk risiko pasar dan fluktuasi mata uang. Informasi ini disampaikan melalui berbagai kanal, seperti website resmi dan media sosial (Instagram, Facebook, dan YouTube).

Sebagai bagian dari kepatuhan terhadap regulasi, BMS juga menjalankan program literasi dan inklusi keuangan guna memastikan calon nasabah dan nasabah memahami produk serta layanan yang ditawarkan. Dengan demikian, mereka dapat memilih produk yang sesuai dengan kebutuhan serta memahami profil risiko yang melekat pada produk atau jasa tersebut.

Kerahasiaan Data Nasabah

Bagi BMS, kerahasiaan data nasabah merupakan prioritas penting. Penggunaan data nasabah hanya dilakukan sesuai dengan ketentuan yang diatur dalam peraturan perundang-undangan yang berlaku. Perlindungan informasi ini bukan hanya kewajiban hukum, tetapi juga bagian dari menjaga kepercayaan nasabah dan reputasi perusahaan. BMS memastikan kepatuhan terhadap Surat Edaran OJK No. 14/SEOJK.07/2014 tentang Kerahasiaan dan Keamanan Data Konsumen serta Peraturan OJK No. 22 Tahun 2023 tentang Pelindungan Konsumen di Sektor Jasa Keuangan. Dalam hal transparansi, BMS tidak akan menyebarluaskan data pribadi nasabah kepada pihak lain tanpa persetujuan tertulis dari pemilik data, yang harus disertai dokumen resmi atau tanda tangan. [GRI 3-3]

Evaluated Security of Services Products [OJK F.27]

Bank Mega Syariah (BMS) is committed to complying with all applicable regulations in the sharia banking industry, including provisions related to products and services for customers. Every product and service offered has gone through an evaluation process and obtained approval from the Financial Services Authority (OJK), ensuring security and compliance with sharia banking standards. In addition, BMS consistently implements POJK No. 6/POJK.07/2022 concerning Consumer Protection and adopts Bank Indonesia Regulation No. 3 of 2023 concerning Bank Indonesia Consumer Protection.

To minimize the risk of loss for customers, BMS actively provides information regarding potential risks of products and services, including market risks and currency fluctuations. This information is provided through various channels, such as the official website and social media (Instagram, Facebook, and YouTube).

As part of regulatory compliance, BMS also runs financial literacy and inclusion programs to ensure that prospective customers and customers understand the products and services offered. Thus, they can choose products that suit their needs and understand the risk profile inherent in the product or service.

Customer Data Confidentiality

For BMS, customer data confidentiality is a top priority. The use of customer data is only carried out in accordance with the provisions stipulated in applicable laws and regulations. This information protection is not only a legal obligation, but also part of maintaining customer trust and the company's reputation. BMS ensures compliance with Financial Services Authority (OJK) Circular Letter No. 14/SEOJK.07/2014 concerning Consumer Data Confidentiality and Security and OJK Regulation No. 22 of 2023 concerning Consumer Protection in the Financial Services Sector. In terms of transparency, BMS will not disseminate customer personal data to other parties without written consent from the data owner, which must be accompanied by an official document or signature. [GRI 3-3]

Untuk memperkuat keamanan data, BMS menerapkan kebijakan perlindungan data pribadi dan sistem manajemen keamanan informasi. Dari sisi teknologi, berbagai langkah diterapkan guna mengurangi risiko kebocoran dan penyalahgunaan data, termasuk implementasi *security tools & applications*. Beberapa sistem yang digunakan mencakup antivirus & *endpoint detection response* (EDR), *extended detection response* (XDR), *next-generation firewall*, *mail security gateway*, *security operation center* (SOC), *vulnerability assessment*, *security patch management*, dan *system monitoring*.

Melalui kebijakan dan teknologi yang terus diperbarui, BMS memastikan bahwa keamanan informasi nasabah tetap terjaga, sejalan dengan prinsip transparansi dan kepatuhan terhadap regulasi yang berlaku. Selama 2024, tidak ada insiden pengaduan dari nasabah maupun dari regulator terkait pelanggaran kerahasiaan nasabah, baik berupa kebocoran, pencurian, atau kehilangan data nasabah. Dengan demikian, BMS tidak mendapat denda atau sanksi berkaitan dengan pelanggaran terhadap privasi pelanggan pada tahun pelaporan. [GRI 418-1]

Jumlah Produk/Jasa yang Ditarik Kembali

Selama tahun 2024, tidak ada produk/jasa yang dihentikan. Seluruh produk/jasa yang ditawarkan pada tahun 2023 masih tersedia pada tahun 2024.

[OJK F.29]

Survei Kepuasan Nasabah

BMS terus berkomitmen untuk menjaga dan meningkatkan kepuasan nasabah terhadap produk dan layanan yang diberikan. Salah satu cara yang dilakukan adalah dengan mengukur persepsi nasabah melalui survei kepuasan secara berkala.

Hasil survei kepuasan nasabah tahun 2024 menunjukkan bahwa 9,21% responden menyatakan puas terhadap produk dan layanan BMS. Angka ini mengalami sedikit penurunan dibandingkan tahun sebelumnya yang berada di angka 9,31%. BMS menerima hasil ini sebagai masukan berharga dan berkomitmen untuk terus melakukan evaluasi serta peningkatan mutu layanan demi menjawab harapan nasabah dengan lebih baik. [OJK F.30]

To strengthen data security, BMS implements a personal data protection policy and an information security management system. From a technological perspective, various steps are implemented to reduce the risk of data leakage and misuse, including the implementation of security tools & applications. Some of the systems used include antivirus & endpoint detection response (EDR), extended detection response (XDR), next-generation firewall, mail security gateway, security operation center (SOC), vulnerability assessment, security patch management, and system monitoring.

Through policies and technologies that are continuously updated, BMS ensures that the security of customer information is maintained, in line with the principles of transparency and compliance with applicable regulations. During 2024, there were no incidents of complaints from customers or regulators regarding violations of customer confidentiality, either in the form of leaks, theft, or loss of customer data. Thus, BMS did not receive any fines or sanctions related to violations of customer privacy in the reporting year.

[GRI 418-1]

Number of Recalled Products/Services

Throughout 2024, no products or services were discontinued. All products and services offered in 2023 remained available in 2024. [OJK F.29]

Customer Satisfaction Survey

BMS remains committed to maintaining and improving customer satisfaction with the products and services it provides. One of the efforts made is to regularly measure customer perception through satisfaction surveys.

The 2024 Customer Satisfaction Survey results show that 9.21% of respondents expressed satisfaction with BMS products and services. This figure reflects a slight decrease compared to the previous year's result of 9.31%. BMS considers this feedback valuable and is committed to continuously evaluating and enhancing service quality to better meet customer expectations.

Verifikasi Tertulis dari Pihak Independen [OJK G.1] [OJK 2-5]

Written Verification from Independent Parties

Laporan Keberlanjutan PT Bank Mega Syariah Tahun 2024 belum diverifikasi oleh Penyedia Jasa Assurance (*Assurance Services Provider*). Namun demikian, Perusahaan menjamin bahwa seluruh informasi yang diungkapkan dalam laporan ini adalah benar, akurat, dan faktual.

PT Bank Mega Syariah's Sustainability Report for 2024 has not been verified by an Assurance Services Provider. However, the Company guarantees that every material in this report is correct, accurate, and factual.

Tanggapan terhadap Umpan Balik Laporan Tahun Sebelumnya [OJK G.3]

Response to Feedback From Previous Year's Report

Selama tahun 2024, PT Bank Mega Syariah tidak menerima tanggapan spesifik terkait Laporan Keberlanjutan Tahun 2023. Namun demikian, Perusahaan telah melakukan perbaikan dan penyempurnaan agar laporan memenuhi ketentuan POJK No.51/POJK.03/2017, SEOJK Nomer 16/SEOJK.04/2021, dan GRI Standards Universal 2021 yang menjadi rujukan penulisan laporan.

In 2024, PT Bank Mega Syariah did not receive any particular feedback on the 2023 Sustainability Report. Nonetheless, the Company has made changes and revisions to ensure that the report conforms with the terms of POJK No. 51/POJK.03/2017, SEOJK No. 16/SEOJK.04/2021, and the 2021 GRI Standards, which serve as guidelines for report preparation.

Lembar Umpan Balik [OJK G.2]

Feedback Sheet

Terima kasih kepada Bapak/Ibu/Saudara yang telah berkenan membaca Laporan Keberlanjutan PT Bank Mega Syariah Tahun 2024. Untuk meningkatkan isi Laporan Keberlanjutan pada tahun-tahun mendatang, kami berharap Bapak/Ibu/Saudara bersedia untuk mengisi Lembar Umpan Balik ini dengan melingkari salah satu jawaban dan mengisi titik-titik yang tersedia, kemudian mengirimkannya kepada kami.

Thank you to Mr./Mrs. for reading PT Bank Mega Syariah's Sustainability Report for the year 2024. To help us improve the content of the Sustainability Report in the next years, we would appreciate it if you could complete this Feedback Form by circling one of the answers and filling in the spaces before submitting.

1. Laporan Keberlanjutan ini sudah memberikan informasi yang jelas mengenai kinerja ekonomi, sosial dan lingkungan PT Bank Mega Syariah:
The Sustainability Report has provided clear information regarding the economic, social, and environmental performance of PT Bank Mega Syariah:

| | | |
|--------------------|-----------------------------|------------------------------|
| a. Setuju Agree | b. Tidak Setuju Disagree | c. Tidak tahu Incognisant |
|--------------------|-----------------------------|------------------------------|
2. Laporan Keberlanjutan ini sudah memberikan informasi yang jelas mengenai pemenuhan tanggung jawab sosial dan lingkungan PT Bank Mega Syariah:
The Sustainability Report has provided clear information regarding PT Bank Mega Syariah's fulfillment of social and environmental responsibilities:

| | | |
|--------------------|-----------------------------|------------------------------|
| a. Setuju Agree | b. Tidak Setuju Disagree | c. Tidak tahu Incognisant |
|--------------------|-----------------------------|------------------------------|
3. Materi dan data dalam Laporan Keberlanjutan ini mudah dimengerti dan dipahami:
Material and data in this Sustainability Report are easily understood and comprehended.

| | | |
|--------------------|-----------------------------|------------------------------|
| a. Setuju Agree | b. Tidak Setuju Disagree | c. Tidak tahu Incognisant |
|--------------------|-----------------------------|------------------------------|
4. Materi dan data dalam Laporan Keberlanjutan ini sudah cukup lengkap:
The materials and data in this Sustainability Report are already comprehensive enough:

| | | |
|--------------------|-----------------------------|------------------------------|
| a. Setuju Agree | b. Tidak Setuju Disagree | c. Tidak tahu Incognisant |
|--------------------|-----------------------------|------------------------------|
5. Apakah desain, tata letak, grafis dan foto-foto dalam Laporan Keberlanjutan ini sudah bagus?
Are the design, layout, graphics, and photos in this Sustainability Report already good?

| | | |
|--------------------|-----------------------------|------------------------------|
| a. Setuju Agree | b. Tidak Setuju Disagree | c. Tidak tahu Incognisant |
|--------------------|-----------------------------|------------------------------|
6. Informasi apa yang paling bermanfaat dari Laporan Keberlanjutan ini?
What is the most useful information from this Sustainability Report?

7. Informasi apa yang dinilai kurang bermanfaat dari Laporan Keberlanjutan ini?

What information is regarded less valuable in this Sustainability Report?

.....
